CLEANSING MILK

- Dry skin

Cleanses gently without drying the skin. Use morning and evening. Apply a small amount, gently cleanse the face and neck and remove the cleansing milk with a cotton pad or tissue. Follow with Toner for Dry Skin to remove the surplus cleanser. Preparing the skin perfectly for your preferred Beauté Pacifique moisturizer or anti-age treatment creme.

Unique Benefits

- *Cleanses effectively and leaves the skin soft and subtle*
- *Ideal for sensitive and dry skin*
- *Gently loosens dead skin cells, leaving the skin healthy and radiating*

Ingredients:

1. Aqua (Water)
2. Caprylic/Capric Triglyceride
3. Olea Europaea (Olive) Fruit Oil
4. Propylene Glycol
5. **Squalane**
6. Cetearyl Isononanoate
7. Tridecyl Stearate
8. Tridecyl Trimellitate
9. Glyceryl Stearate
10. PEG-100 Stearate
11. Polysorbate 60
12. Cetyl Esters
13. Dipentaerythrityl Hexacaprylate/Hexacaprate
14. **Citrus Limon (Lemon) Fruit Extract**
15. Cetearyl Alcohol
16. PEG-20 Stearate
17. Lanolin Alcohol
18. Behenyl Alcohol
19. **Glycyrrhiza Glabra (Licorice) Root Extract**
20. Acrylates/C10-30 Alkyl Acrylate Crosspolymer
21. Tetrasodium Iminodisuccinate
22. Potassium Sorbate
23. Sodium Benzoate.
24. Phenoxyethanol
25. Ethylhexylglycerin
26. Parfum (Fragrance)
27. CI 14700 (FD&C Red #4)
28. CI 47005 (D&C Yellow #10)

D0300101-00

Main Ingredients

5. Squalane is an oil naturally occurring in human skin and is an important part of the lipid system. Its penetration capacity is remarkably high. Nanometer droplets of squalane function as effective "transporters" for the A Vitamins and other oil soluble active ingredients. Young and healthy skin contains a high amount of squalane but the level will decrease dramatically with age. Therefore squalane is absorbed excellently into sun damaged and aged skin. A lack of squalane within the skin can lead to premature aging, very dry skin and a loss of elasticity. Areas of constantly exposed, dry and prematurely aged skin such as on the hands, elbows, heels and knees etc. become incredibly soft immediately when squalane is applied in the right formulation.

14. Citrus Limon (Lemon) Fruit Extract is a natural source of Vitamin C that functions as a strong anti-oxidant and stimulates collagen synthesis. Helping to also recreate the ceramides in the epidermis. Citrus Limon Fruit Extract gently exfoliates the dead skin cells and reduces the problems of excessive oiliness.

19. Glycyrrhiza Glabra (Licorice) Root Extract is the extract from Liquorice Root. This is well known as a wound healing extract, helping to reduce irritation within the skin and providing instant comfort to sensitive skin. It enables the skin to accept strongly reacting ingredients with fewer side effects, enabling more effective ingredients to be tolerated by sensitive skin.

TONER

- Dry skin

A light alcoholfree toner with an enriched, creamy texture. Leaves the skin feeling softer, smoother and hydrated. Use morning and evening removing the final residue of cleanser, while not disturbing the skin's natural barrier function. Apply a small amount to a cotton pad for the face and neck. It provides a perfect preparation for your preferred Beauté Pacifique moisturizer or anti-age treatment cream.

Unique Benefits

- *Ideal for dry and sensitive skin*
- *Provides added moisture whilst cleansing the skin*
- *Can be used around the eye area*

Ingredients:

1. Aqua (Water)
2. **Glycerin**
3. PEG-10 Sunflower Glycerides
4. Propylene Glycol
5. **Aloe Barbadensis (Aloe Vera) Leaf Juice Powder**
6. Prunus Persica (Peach) Fruit Extract
7. Steareth-20
8. Steareth-2
9. Acrylates/C10-30 Alkyl Acrylate Crosspolymer
10. Tridecyl Stearate
11. Tridecyl Trimellitate
12. Dipentaerythrityl Hexacaprylate/Hexacaprate
13. Parfum (Fragrance)
14. Dimethicone
15. PEG/PPG-4/12 Dimethicone
16. Phenoxyethanol
17. Ethylhexylglycerin
18. Tetrasodium Iminodisuccinate
19. CI 14700 (FD&C Red #4)
20. CI 47005 (D&C Yellow #10)

D0300201-00

Main Ingredients

2. Glycerin is one of the very best and most widely used humectants (moisturizers). It penetrates easily into the epidermis and makes the skin soft and subtle. This vegetable glycerine can without problems be applied to very sensitive skin types. It provides lubrication and leaves the skin soft and silky smooth. It is extremely comforting to very dry skin types.

5. Aloe Barbadensis (Aloe Vera) Leaf Juice Powder is a natural raw material that functions as a natural humectant, and is well known for its soothing and healing properties.

CLEANSING MILK
- All Skin Types

Gives a healthy radiance and fresh feeling to the skin. It is mild and effective at removing make up and excessive oiliness from the skin's surface. Use morning and evening. Apply a small amount, gently cleanse the face and neck and remove the cleansing milk with a cotton pad or tissue. Follow with Toner - All Skin Types, to remove the surplus cleanser preparing the skin perfectly for your preferred Beauté Pacifique Moisturizer or anti-age creme.

Unique Benefits

- *Provides optimal cleansing without irritation and drying the skin*
- *Provides moisture in the skin leaving it soft and subtle*
- *Removes excessive oiliness and mildly exfoliates the loose and dead skin cells.*

Ingredients:

1. Aqua (Water)
2. Propylene Glycol
3. **Glycerin**
4. **Squalane**
5. Prunus Amygdalus Dulcis (Sweet Almond) Oil
6. Olea Europaea (Olive) Fruit Oil

TONER

- All Skin Types

The alcohol in this toner has a disinfecting effect and leaves the skin feeling fresh. Excessive oily residues are removed. Apply after using Cleansing Milk - All Skin Types. Use morning and evening by applying a small amount to a cotton pad on the face and neck to remove the final residue of cleanser. Follow with your preferred Beauté Pacifique moisturizer or anti-age treatment creme.

Unique Benefits

- *Disinfects while providing a pore minimizing effect and dilutes oily residues*
- *Acts as an astringent and cools the skin without drying - calms itching*
- *Liquorice Root Extract helps to reduce irritation within the skin*
- *Adds moisture*
- *Parfum / fragrance free*

Ingredients:

1. Aqua (Water)
2. **Alcohol**
3. **Glycerin**
4. Propylene Glycol
5. **Citrus Limon (Lemon) Fruit Extract**
6. **Glycyrrhiza Glabra (Licorice) Root Extract**
7. **Menthol**
8. Tetrasodium Iminodisuccinate
9. Potassium Sorbate
10. Sodium Benzoate
11. Denatonium Benzoate
12. CI42090 (FD&C Blue #1)

D0300401-00

Main Ingredients

2. Alcohol (20 %) is an antiseptic ingredient that is well suited for occasional local application on the skin. It also functions as a solvent for oily residue on the skin and has cooling and astringent properties.

3. Glycerin is one of the very best and most widely used humectants (moisturizers). It penetrates easily into the epidermis and makes the skin soft and subtle. This vegetable glycerine can without problems be applied to very sensitive skin types. It provides lubrication and leaves the skin soft and silky smooth. It is extremely comforting, to very dry skin types.

5. Citrus Limon (Lemon) Fruit Extract is a natural source of Vitamin C that functions as a strong anti-oxidant and stimulates collagen synthesis. Helping to also recreate the ceramides in the epidermis. Citrus Limon Fruit Extract gently exfoliates the dead skin cells and reduces the problems of excessive oiliness.

6. Glycyrrhiza Glabra (Licorice) Root Extract is the extract from Liquorice Root. This is well known as a wound healing extract, helping to reduce irritation within the skin and providing instant comfort to sensitive skin. It enables the skin to accept strong reacting ingredients with fewer side effects, allowing more effective ingredients to be tolerated by sensitive skin.

7. Menthol when applied to the skin it dilates the blood vessels in the skin and provides a significant sensation of coolness, followed by a painkilling analgesic effect on the skin. Menthol also helps to reduce itching on the skin.

CLEANSING FOAM

Designed for all skin types. Cleanses without irritating or drying the skin. Clears clogged pores and leaves a smooth and radiant skin. Designed for people in a hurry and those who like the fresh feeling of a foam cleanser. This cleanser can be used morning and night. Apply and take a small amount of the cleansing foam into the palm and mix with water and lather on the face and neck massage for as long as required. Rinse thoroughly with plenty of water and followed by the toner. Finish with your preferred Beauté Pacifique moisturizer or anti-age treatment creme.

Unique Benefits

- *A one step cleansing, rinse-off product for people in a hurry*
- *Removes excessive oily residue and cleanses effectively without irritation or drying the skin*
- *Well suited to both men and women*
- *Ideal for men's shaving*

Ingredients:

1. Aqua (Water)
2. **Potassium Stearate**
3. **Potassium Laurate**
4. **Potassium Myristate**
5. **Potassium Palmitate**
6. Glycerin
7. PEG-7 Glyceryl Cocoate
8. Glyceryl Stearate

WATERPROOF EYE MAKE-UP REMOVER

Removes your eye make-up very efficiently without irritation. Excellent for waterproof mascaras. Use a clean cotton pad in each eye zone and gently wipe downwards on closed eyes. Always avoid direct contact with eyes. Follow using a Beauté Pacifique toner to remove the final residue.

Unique Benefits

- *Gently removes even waterproof eye make-up without causing irritation*
- *Oil free formula - ideal for using with contact lenses*
- *Contains liquorice extract which prevents redness and irritation.*
- *Parfume / fragrance free*

BIO-DERMABRASION

Peeling Wipes

Bio-Dermabrasion Peeling Wipes swiftly eliminate dead skin cells, and gently reduce the appearance of fine lines and even out the complexion leaving the skin radiant, soft, and luminous. Use 1-3 times a week on cleansed skin using the smooth side of the bio-degradable wipe for a gentle peeling, and the opposite/ abrasive side for a more intense peeling. Use on face, neck and décolleté avoiding eye and lip areas. Slight tingling after application is normal. Rinse off if preferred.

Unique Benefits

- *Provides a swift and gentle, yet very effective exfoliation*
- *Can be used on even sensitive skin*
- *Leaves skin visible smoother and softer with a radiant glow*
- *Easy to use - does not need to be rinsed off*

Ingredients:

1. Aqua (Water)
2. Polysorbate 60
3. Glycerin
4. **Niacinamide**
5. **Mandelic Acid**
6. **Gluconolactone**
7. **Capryloyl Salicylic Acid**
8. Polysorbate 80

11. **Caffeine**
12. **Cucumis Sativus (Cucumber) Fruit Extract**
13. **Zingiber Officinale (Ginger) Root Extract**
14. Cetearyl Isononanoate
15. Sodium Cocoamphoacetate
16. **Allantoin**
17. Menthyl PCA
18. **Glycyrrhiza Glabra (Licorice) Root Extract**
19. **Avena Sativa (Oat) Kernel Extract**
20. Alcohol
21. Sodium Chloride
22. Phenoxyethanol
23. Ethylhexylglycerin
24. Potassium Sorbate
25. Sodium Benzoate,
26. Tetrasodium Iminodisuccinate
27. Triethanolamine
28. Sodium Glycolate

Main Ingredients

4. Niacinamide (also known as vitamin B3) is a unique skin-restoring ingredient that offers several benefits for the skin. It improves the skin barrier by boosting the skins natural production of skin-strengthening skin ceramides. It also improves the elasticity of the skin and reduces the appearance of lines and wrinkles. It rebalances uneven skin tone and reduces discoloration of the skin.

5. Mandelic Acid is a mild alpha-hydroxy acid (AHA) which gently exfoliates the skin. Compared to other AHA acids, it has a larger molecular size and therefore penetrates the skin more slowly, giving a much gentler but still effective exfoliation. Mandelic acid loosens the bonds that hold the dead skin cells firmly attached to the skin's surface, thereby promoting the peeling process of the dead skin cells. Where other AHA acids can promote hyperpigmentation on darker skin tones, Mandelic acid does not.

6. Gluconolactone is a polyhydroxy acid (PHA) that has mild exfoliating properties. Its large molecular size allows it to penetrate the skin slowly, resulting in less irritation. In addition to exfoliating, gluconolactone also strengthens the skin as it also has moisturizing and anti-oxidant properties.

7. Capryloyl Salicylic Acid (CSA) is a lipohydroxy acid (LHA) meaning it is fat-soluble. CSA is a salicylic acid derivative and has the same properties as salicylic acid but penetrates the skin deeper than AHA acids due to the fat solubility. However, CSA is gentler acting than salicylic acid as it penetrates the skin more slowly and it is therefore suitable for even sensitive skin. CSA promotes exfoliation of the dead skin cells by loosening the bonds between the cells. In addition, CSA stimulates cell renewal resulting in a more quickly exchange to new skin surface cells.

10. Alpinia Speciosa Flower/Leaf/Stem Extract The Alpinia Speciosa plant is related to ginger and originates in tropical and subtropical parts of the world and is specifically harvested in Okinawa, Japan. The inhabitants of the Japanese island are especially known for their high life expectancy. Alpinia Speciosa Leaf Extract enhances the connection between the epidermis and the dermis by upregulating the production of several different connective tissues in the extracellular matrix, including elastin and collagen. The result is a smoother skin with more radiance.

11. Caffeine is a strong anti-oxidant protecting the skin against damage caused by free radicals. Due to its anti-inflammatory effect it also helps to soothe the skin and bring down any redness of the skin.

12. Cucumis Sativus (Cucumber) Fruit Extract has astringent, soothing and anti-inflammatory properties. Its refreshing properties can reduce puffiness and relieve itching, as well as help to easen redness

13. Zingiber Officinale (Ginger) Root Extract has several beneficial properties which have a calming and preventive effect. It has analgesic, anti-inflammatory, anti-oxidant and anti-bacterial effects. The ginger extract also protects the skin's collagen, as it inhibits collagenase, which would otherwise degrade collagen.

16. Allantoin has keratolytic and hydrating effects and results in a silky-smooth and healthy skin. Allantoin stimulates cell renewal so new and fresh skin cells can replace the dead skin cells faster. Studies have also shown that allantoin has a calming effect and reduces water loss from the skin.

18. Glycyrrhiza Glabra Root Extract is the extract from Liqorice Root. This is well known as a wound healing extract, helping to reduce irritation within the skin and providing instant comfort to sensitive skin. It enables the skin to accept strongly reacting ingredients with fewer side effects, enabling more effective ingredients to be tolerated by sensitive skin.

19. Avena Sativa (Oat) Kernel Extract has a calming effect as it has anti-irritant and anti-itchy properties. Reduces redness and itching through inhibition of histamine and inflammatory neurotransmitters. The extract contains a number of different flavonoids and polyphenols with anti-oxidant properties. The main calming components of oats is a group of polyphenolic compounds called Avenanthramides, which have been shown to be very effective in calming the skin, even at very small concentrations.

GENTLE FACIAL EXFOLIATOR

Gently exfoliates and hydrates using perfectly rounded pearls. It gently loosens the dead skin cells on the surface of the skin after cleansing and provides lubrication and softening of the skin leaving it feeling silky smooth. Apply once or twice a week on 5 spots on a moist face and neck and massage gently to avoid skin irritation. Rinse with water and follow with your preferred Beauté Pacifique moisturizer or anti-age creme.

Unique Benefits

- *Provides exfoliation without chemical irritation*
- *Leaves the skin with a smooth texture at an elevated moisture level*
- *Well suited for all skin types*

Ingredients:

1. Aqua (Water)
2. Olea Europaea (Olive) Fruit Oil
3. Tridecyl Stearate
4. Tridecyl Trimellitate
5. Caprylic/Capric Triglyceride
6. Cetearyl Alcohol
7. **Cellulose Acetate**
8. Glyceryl Stearate
9. PEG-100 Stearate
10. **Glycerin**

18. Sodium Laureth Sulfate
19. o-Phenylphenol
20. Parfum (Fragrance)
21. CI 74160

D0301201-00

Main Ingredients

7. Cellulose Acetate is round microscopic pearls that loosen dead skin cells without harming live cells. Please note that these pearls are of natural origin and can be fully degraded without leaving pollution.

10. Glycerin is one of the very best and most widely used humectants (moisturizers). It penetrates easily into the epidermis and makes the skin soft and subtle. This vegetable glycerine can without problems be applied to very sensitive skin types. It provides lubrication and leaves the skin soft and silky smooth. It is extremely comforting, to very dry skin types.

DEEP PORE CLEANSING MASK

Binds and releases all excessive oily substances from the surface of the skin. On normal skin use the mask once a week after cleansing. Combination and oily skin use 2 - 3 times a week. Apply to the face avoiding the eye area. Let the mask take effect for 10 minutes or until it has totally dried. Rinse with lukewarm water. Then apply your favourite toner. Followed by your preferred Beauté Pacifique moisturizer or anti-age creme.

Unique Benefits

- *Contains three different forms of clay each capable of binding and removing oily residues*
- *Contains a peach extract that provides a fresh sensation with a natural fragrance*
- *Contains camphor, which provides a mild analgesic action*
- *Relieves itching and irritation*
- *Perfume / fragrance free*

    Ethylparaben
    Propylparaben

    D0302301-00

Main Ingredients

2. Kaolin and 3. Bentonite and 4. Magnesium Aluminium Silicate are three different types of clay – all having microscopic particles and an enormously large surface area that provides absorption and effective removal of oily residues from the skin. These different forms of clay work together to ensure an excellent and deep cleansing action without leaving any oily residue on the skin.

9. Citrus Limon (Lemon) Fruit Extract is a natural source of Vitamin C that functions as a strong anti-oxidant and stimulates collagen synthesis. Helping to also recreate the ceramides in the epidermis. Citrus Limon Fruit Extract gently exfoliates the dead skin cells and reduces the problems of excessive oiliness.

10. Prunus Persica (Peach) Fruit Extract it is a peach extract that provides a sensation of mild freshness and leaves a light natural fragrance.

14. Piper Methysticum Root Extract originates from the KAVA-KAVA fruit and is well known for its relaxing effect on irritated skin.

16. Cinnamomum Camphora (Camphor) Bark Oil is added to provide a mild analgesic effect on the skin and it additionally reduces the possible prominent skin irritation.

17. Menthol when applied to the skin it dilates the blood vessels in the skin and provides a significant sensation of coolness, followed by a pain killing analgesic effect on the skin. Menthol also helps to reduce itching on the skin.

ONE STEP

Cleansing & Moisturizing Water with Micelle Technology

An efficient rinse-off cleanser which is yet mild to the skin. No need for additional water. Removes dirt and makeup from face, eye zone and décolleté while adding extra moisture and care. Makeup and dirt are easily removed using a cotton pad. The product can be used morning and night on all skin types – even on sensitive skin.
It contains an efficiently cleansing and refreshing formulation that maintains the skin's natural barrier. Follow with a moisturizer or anti-age treatment cream.

Unique Benefits

- *Removes dirt and make-up from face and décolleté without the use of water*
- *Cleanses the skin gently while adding extra moisture*
- *Well suited for all skin types*

Ingredients:

1. Aqua (Water)
2. **Polysorbate 20**
3. **Hydrolyzed Corn Starch**
4. **Beta Vulgaris (Beet) Root Extract**
5. **PEG-10 Sunflower Glycerides**
6. **PEG-7 Glyceryl Cocoate**
7. Tetrasodium Iminodisuccinate
8. p-Anisic Acid
9. Lactic Acid
10. Phenoxyethanol
11. Ethylhexylglycerin

D0304001-01

Main Ingredients

2. Polysorbate 20. Mild nonionic emulgator/tenside. Efficient dissolver that makes the product clear and stable while cleansing the skin.

3. Hydrolyzed Corn Starch + 4. Beta Vulgaris (Beet) Root Extract. Extract of Sugar Beet and Hydrolyzed Corn Starch. Improves the skin's natural moisture binding and adds moisture – Feels immediately and for a long time.

5. PEG-10 Sunflower Glycerides. Hydrofilic emollient/tenside. Dissolves and adds skin softening action to the cleansing water.

6. PEG-7 Glyceryl Cocoate. Hydrofilic emollient/tenside. Dissolves oily substances. Cleanses the skin without drying.

The product works at the surface with the active ingredients/the tensides by encapsulating dirt and makeup particles in small spheres called Micelles which do not stick to the skin's surface.

MOISTURIZING DAY CREME

- All Skin Types

Intensive and longlasting moisture day care with squalane, formulated specifically for both normal and combination skin. Apply very sparingly and gently massage into the skin on the face and neck area. It provides the skin with plenty of moisture. Can be used in combination with the preferred Beauté Pacifique Anti-Aging treatment creme. Note: Apply lastly, on top to leave a film as a moisture-binding barrier on the skin surface. Maintains an elevated high level of moisture that lasts for many hours.

Unique Benefits

- *Provides the skin with a renewed softness with the addition of squalane and other humectants*
- *Contains antioxidants that protect against aging*

Ingredients:

1. Aqua (Water)
2. **Squalane**
3. **Glycerin**
4. Caprylic/Capric Triglyceride

Main Ingredients

2. Squalane is an oil naturally occurring in human skin and is an important part of the lipid system. Its penetration capacity is remarkably high. Nanometer droplets of squalane function as effective "transporters" for the A Vitamins and other oil soluble active ingredients. Young and healthy skin contains a high amount of squalane but the level will decrease drama-
tically with age. Therefore squalane is absorbed excellently into sun damaged and aged skin. A lack of squalane within the skin can lead to premature aging, very dry skin and a loss of elasticity. Areas of constantly exposed, dry and prematurely aged skin such as on the hands, elbows, heals and knees etc become incredibly soft immediately when squalane is applied in the right formulation.

3. Glycerin is one of the very best and most widely used humectants (moisturizers). It penetrates easily into the epidermis and makes the skin soft and subtle. This vegetable glycerine can without problems be applied to very sensitive skin types. It provides lubrication and leaves the skin soft and silky smooth. It is extremely comforting, to very dry skin types.

13. Urea is a strong and natural humectant that binds to the skin's proteins whereby it adds capacity in the epidermis to maintain a high level of moisture.

15. Citrus Limon (Lemon) Fruit Extract is a natural source of Vitamin C that functions as a strong anti-oxidant and stimulates collagen synthesis. Helping to also recreate the ceramides in the epidermis. Citrus Limon Fruit Extract gently exfoliates the dead skin cells and reduces the problems of excessive oiliness.

16. Aloe Barbadensis (Aloe Vera) Leaf Juice Powder is a natural raw material that functions as a natural humectant and is well known for its soothing and healing properties.

23. Hydrolyzed Collagen (and) **24. Sodium Hyaluronate** is a mixture of two ingredients that together build an invisible shield of moisture binding barrier on the surface of the skin, to enable the skin to maintain its elevated level of moisture within the epidermis.

25. Tocopheryl Acetate is a type of Vitamin E that plays an important role by protecting both the skin and the products against harmful free radicals.

OIL-FREE MOISTURIZER

Ideal for oily and combination skin due to its light texture, which provides a matte surface. Created for those who are concerned about shine and the duration of their make-up. Designed to minimise shine whilst providing an excellent base for make-up. Apply every day after cleansing. A unique textured moisturizer that is exceptionally good in combination with Defy Damage Skin Repair Lotion. Allow a few minutes for the Defy Damage Skin Repair Lotion to penetrate, before applying the Oil-Free Moisturizer.

Unique Benefits

- *Gives an excellent moisture level without adding an oily residue*
- *Provides an ideal base for make-up that stays perfect all day long*
- *Provides Squalane that makes the skin soft and in perfect condition*
- *Ideal for both men and women*
- *Nongreasy: Appeals to young people*

CRÈME LACTIQUE

AHA Anti-Wrinkle Creme

Well suited for day time as a gentle Anti-Age treatment creme that also adds moisture to dry skin. It exfoliates gently by the action of Lactic Acid and provides the skin with a youthful natural glow. Recommended as a treatment to reduce the very first fine lines. For the mature skin use Crème Lactique alternating with one of the other preferred Beaute Pacifique Anti-Age Cremes.

Unique Benefits

- *Exfoliates gently simultaneously adding a significant amount of moisture*
- *One step skin care combining a moisturizing and Anti-Aging action*
- *pH-Value 4.5*

Ingredients:

1. Aqua (Water)
2. Olea Europaea (Olive) Fruit Oil
3. **Persea Gratissima (Avocado) Oil**
4. **Lactic Acid**
5. Isopropyl Myristate
6. Cetearyl Alcohol

14. Phenoxyethanol
15. Ethylhexylglycerin
16. Parfum (Fragrance)

D0300801-00

Main Ingredients

3. Persea Gratissima (Avocado) Oil / Avocado Oil is rich in Linoleic Acid a substance that the skin lacks through increasing age and also contains a number of other vitamins that penetrate the skin along with the Avocado Oil.

4. Lactic Acid is an Alpha-Hydroxy Acid that gently exfoliates dead skin cells from the surface of the skin. Additionally, it also works as a natural humectant. Lactic acid helps the skin to diminish the appearance of fine lines and wrinkles connected to dry skin and will even out other signs of visible aging helping the skin to become more youthful and radiant.

10. Glycerin is one of the very best and most widely used humectants (moisturizers). It penetrates easily into the epidermis and makes the skin soft and subtle. This vegetable glycerine can without problems be applied to very sensitive skin types. It provides lubrication and leaves the skin soft and silky smooth. It is extremely comforting, to very dry skin types.

INSTANT HYDRATING MASK

Recovers lost moisture balance. Pampering dull and dry skin. It contains moisture retaining ingredients that withhold added moisture in the skin and form a water retaining barrier in the skin's surface layer. Apply after cleansing to face and neck 2-3 times a week. Apply liberally and leave the mask to work for 5-10 minutes. Rinse with water. Follow with toner and your preferred Beauté Pacifique moisturizer or Anti-Age creme. In this case apply the Anti-Age product first - allow this to penetrate deeply and then apply the moisturizer. The Instant Hydrating Mask can also be used as a leave-on night creme to lock in moisture and maintain constant optimal hydration. Note: Do not use as a leave-on product on top of Vitamin A Cremes due to conflicting ingredients.

Unique Benefits

- *Minimizes fine lines and wrinkles*
- *Locks in extra moisture to maintain constantly optimised hydration*
- *Contains A Vitamins that reduce fine lines and signs of aging*

Ingredients:

1. Aqua (Water)
2. **Glycerin**
3. **Squalane**

21. Tocopheryl Acetate is a type of Vitamin E that plays an important role by protecting both the skin and the products against harmful free radicals.

22. Retinyl Palmitate is a particularly stable form of Vitamin A that we have formulated into our creams, in a way to maintain its high potency – both during storage and on application to the skin. Encapsulated in nanometer sized droplets of squalane, the Vitamin A can penetrate deep into the skin in sufficient amounts to stimulate the type of cells, that synthesise lost collagen fibre structures providing a younger skin. Wrinkles and fine lines diminish and throughout the complete structure of the skin it is significantly rejuvenated. Made possible via our patented combination with squalane that functions as an effective delivery system penetrating through the entire depth of the skin, The Vitamin A transforms into a totally unique and remarkably efficient Anti-Aging action within the skin corresponding to a 10- 20 years rejuvenation.

25. Tocopherol is another source of Vitamin E that plays an important role by protecting both the skin and the products against harmful free radicals and functions as a natural moisturizer and capable of reducing fine lines and wrinkles.

DEFY DAMAGE SKIN REPAIR SERUM

Created as a combination of watersoluble Ursolic Acid and oil soluble Vitamin A's. It fights wrinkles and sun damage and leaves the skin silky soft. It also acts by contracting the blood vessels as seen in facial redness. Apply directly onto cleansed skin to achieve maximum penetration. It is an extremely light textured product that suits all skin types. It makes a perfect base for make-up application. It is excellent for the application under Beauté Pacifique moisturizers / Oil-Free Moisturizer on combination and oily skin.

Unique Benefits

- *Extra potent Anti-Aging serum that combines Vitamin A and Ursolic Acid*
- *Contains refirming extracts that reduce the visible appearance of veins*
- *A very light texture that is suitable for all skin types*
- *Ideal for both men and women*

31-37 REFIRMING

D0302101-00

Main Ingredients

5. Squalane an oil naturally occurring in human skin and is an important part of the lipid system. Its penetration capacity is remarkably high.

Nanometer droplets of squalane function as effective "transporters" for the A Vitamins and other oil soluble active ingredients. Young and healthy skin contains a high amount of squalane but the level will decrease dramatically with age. Therefore squalane is absorbed excellently into sun damaged and aged skin.

A lack of squalane within the skin can lead to premature aging, very dry skin and a loss of elasticity. Areas of constantly exposed, dry and prematurely aged skin such as on the hands, elbows, heals and knees etc become incredibly soft immediately when squalane is applied in the right formulation.

11. Citrus Limon (Lemon) Fruit Extract is a natural source of Vitamin C that functions as a strong anti-oxidant and stimulates collagen synthesis. Helping to also recreate the ceramides in the epidermis. Citrus Limon Fruit Extract gently exfoliates the dead skin cells and reduces the problems of excessive oiliness.

15. Sodium Ursolate and **16. Sodium Oleanoate** are two very powerful ingredients with a unique capacity to repair aged and sun damaged skin. The most remarkable scientific findings are the recreated collagen fibre structures at the same level as found in young skin. This rejuvenates completely the treated skin, including a striking recreation of the surface of the skin's micro-topography.

17. Tocopheryl Acetate is a type of Vitamin E that plays an important role by protecting both the skin and the products against harmful free radicals. In our patented combination with squalane.

18. Retinyl Palmitate is a particularly stable form of Vitamin A that we have formulated into our cremes, in a way to maintain its highly active potency – both during storage and on application to the skin. Encapsulated in nanometer sized droplets of squalane, the Vitamin A can penetrate deeper into the skin in sufficient amounts to stimulate the cells, and synthesise lost collagen fibre structures as in younger skin.

Wrinkles and fine lines diminish and throughout the complete structure of the skin it is significantly rejuvenated. In our patented combination with squalane that functions as an effective delivery system throughout the skin, the Vitamin A transforms into a totally unique and remarkably efficient anti-aging action within the skin corresponding to 10- 20 years rejuvenation.

19. Tocopherol is another source of Vitamin E that plays an important role by protecting both the skin and the products against harmful free radicals and functions as a natural moisturizer and capable of reducing fine lines and wrinkles.

22. Retinyl Accetate is like Retinyl Palmitate which is a particularly stable form of Vitamin A and has a similar remarkable efficient rejuvenating action on the skin in the same manner as in Retinyl Palmitate. It enables the skin's cells to rebuild and repair sun damaged and aged skin the same as Retinyl Palmitate.

27. Hydrolyzed Collagen is an ingredient that builds an invisible shield of moisture binding barrier on the surface of the skin, to enable the skin to maintain its elevated level of moisture within the epidermis.

28. Hyaluronic Acid is an ingredient that builds an invisible shield of moisture binding barrier on the surface of the skin, to enable the skin to maintain its elevated level of moisture within the epidermis.

31-37. Refirming is a mixture of natural extracts that is a vascular constrictor and reinforces the skin's elastic proportions. Exellent in treating "Teleangiectasies" and red cheeks.

D-FORCE

Anti-Age Day Creme

The D-FORCE products are breaking news in cosmetics. Lacking Vitamin D can now be channeled into the body via the normal pathway i.e. through the skin. Multiple recent scientific reports conclude that an alarming amount of the population in many countries worldwide suffer from severe Vitamin D deficit and this has been linked to a large number of diseases. Vitamin D is normally only synthesized in the skin as a result of sunlight exposure and so the reason for the deficit is simply that the awareness of sun induced skin cancers have changed the modern lifestyle to reduce the UV-light exposure dramatically. Our invention to provide the missing Vitamin D via nature's owns pathway is the D-FORCE products - A novel idea based on unsaponified Avocado Oil - a rare vegetable source rich in natural Vitamin D. The amount of vitamin D in the creme is ranging up to a remarkable 250 IU per ml creme and when the product is applied onto the skin Beauté Pacifique's patented nanometric squalane based delivery system serves as the vehicle to bring the Vitamin D through the skin's barrier. Additionally the D-FORCE products are highly potent Vitamin A Anti-Age products and so the D-FORCE products are marketed as potent Anti-Age skin care with added Vitamin D to compensate for insufficient sun exposure. The day creme is ideally applied to face and neck. Massage well until the product has fully penetrated into the skin. Keep away from the eye region.

34. Citric Acid

D0302601-00

Unique Benefits

- *Provides natural Vitamin D supplementary to the skin's own sun induced Vitamin D*
- *Contains two effective types of Vitamin A Esters fighting signs of aging and sun damage*
- *Contains two types of Vitamin E - acting as antioxidants*
- *Note: The product is not marketed as a drug - it is a cosmeceutical*
- *Perfume / fragrance free*

Main Ingredients

2. Persea Gratissima (Avocaado) Oil /Avocado Oil is rich in Linoleic Acid – an essential substance in healthy skin that the aging skin gradually fails to maintain over time and additionally it is an extremely potent vegetable source of natural Vitamin D. The ingredient can be fully dissolved and integrated with vegetable Squalane and transported into the skin by Beauté Pacifique's patented nanometric delivery system.

6. Squalane is an oil naturally occurring in human skin and is an important part of the lipid system. Its penetration capacity is remarkably high. Nanometer droplets of squalane function as effective "transporters" for the A Vitamins and other oil soluble active ingredients. Young and healthy skin contains a high amount of squalane but the level will decrease dramatically with age. Therefore squalane is absorbed excellently into sun damaged and aged skin. A lack of squalane within the skin can lead to premature aging, very dry skin and a loss of elasticity. Areas of constantly exposed, dry and prematurely aged skin such as on the hands, elbows, heals and knees etc become incredibly soft immediately when squalane is applied in the right formulation.

15. Tocopheryl Acetate is a type of Vitamin E that plays an important role by protecting both the skin and the products against harmful free radicals.

19. Retinyl Acetate is like Retinyl Palmitate a particularly stable form of Vitamin A and it has a similar remarkable efficient rejuvenating action in the skin working in parallel with and in the same manner as in Retinyl Palmitate. It enables the skin's specialized cells to rebuild and repair sun damaged and aged skin comparable to Retinyl Palmitate.

20. Retinyl Palmitate is a particularly stable form of Vitamin A that we have formulated into our cremes, in a way to maintain its high potency – both during storage and on application to the skin. Encapsulated in nanometer sized droplets of squalane, the Vitamin A can penetrate deep into the skin in sufficient amounts to stimulate the type of cells, that synthesise lost collagen fibre structures providing a younger skin. Wrinkles and fine line diminish and throughout the complete structure of the skin it is significantly rejuvenated. Made possible via our patented combination with squalane that functions as an effective delivery system penetrating through the entire depth of the skin, the Vitamin A transforms into a totally unique and remarkably efficient Anti-Aging action within the skin corresponding to a 10- 20 years rejuvenation.

24. Tocopherol is another source of Vitamin E that plays an important role by protecting both the skin and the products against harmful free radicals and functions as a natural moisturizer and capable of reducing fine lines and wrinkles.

LINE COMBAT FLUID

The Line Combat Fluid smoothes out the skin's folds and furrows - i.e. the expression lines caused by contraction of the underlying muscles. The product has a dual muscle relaxing effect achieved by two different ingredients. One is a synthetic and modified snake venom that paralyzes the muscles and the other is a flower extract that blocks the neurotransmission going to the muscles – both of which leaves the underlying expression muscles in-activated. A daily tool with a very appealing effect - somewhat similar to that of Botulinum Toxin. It is obviously less potent but non-invasive and safe for home use. Please note that the effect is fully reversible if the skin is left untreated for a few days. The Line Combat Fluid transforms and rejuvenates the skin's internal structure in full depth and works to smooth out the topographic landscape. A light emitting substance is added to help the bottom of deep furrows to appear less dark and less prominent. The optimal effect comes when the product is always applied twice. Apply at first by circular fingertip movements – allow the product to penetrate for a few minutes – and apply again but this time with zigzag motions across the lines. This technique will place the intended small amount of the light emitting ingredient at the bottom of the lines. Follow with your preferred Beauté Pacifique moisturizer or anti-age creme.

Ingredients:

1. Aqua (Water)
2. Caprylic/Capric Triglyceride
3. Glycerin
4. Diethylhexyl Succinate
5. Cyclopentasiloxane

7. Propylene Glycol
8. **Squalane**
9. Cetyl Alcohol
10. Glyceryl Stearate
11. Distarch Phosphate
12. Tocopheryl Acetate
13. **Spilanthes Acmella Flower Extract**
14. PEG-75 Stearate
15. Ceteth-20
16. Steareth-20
17. Nylon-12 Flurocent Brightener 230 Salt
18. Polyvinyl Alcohol Crosspolymer
19. **Dipeptide Diaminobutyroyl Benzylamide Diacetate**
20. Phenoxyethanol
21. Ethylhexylglycerin
22. Sodium Acrylate
23. Hydrogenated Polydecene
24. Trideceth-6
25. Sodium PCA
26. Rubia Tinctorum (Madder) Root Extract
27. Hydrolyzed Collagen
28. Sodium Hyaluronate
29. Cyclohexasiloxane
30. Tocopherol
31. **Retinyl Acetate**
32. Arachis Hypogaea (Peanut) Oil
33. Retinyl Palmitate

D0302801-00

Unique Benefits

- *Works as a Neuro-blocker*
- *Muscle relaxing/delineating like a mild Botulinum Toxin effect on expression lines*
- *Reduces the dark line appearance by adding light emission to deep lines and furrows*
- *Active collagen firming and tightening of deep dermal tissues*
- *Perfume / fragrance free*

Main Ingredients

8. Squalane is an oil naturally occurring in human skin and is an important part of the lipid system. Its penetration capacity is remarkably high. Nanometer droplets of squalane function as effective "transporters" for the A Vitamins and other oil soluble active ingredients. Young and healthy skin contains a high amount of squalane but the level will decrease dramatically with age. Therefore squalane is absorbed excellently into sun damaged and aged skin. A lack of squalane within the skin can lead to premature aging, very dry skin and a loss of elasticity. Areas of constantly exposed, dry and prematurely aged skin such as on the hands, elbows, heals and knees etc become incredibly soft immediately when squalane is applied in the right formulation.

13. Spilanthes Acmella Flower Extract Is a newly discovered exotic plant extract, that relaxes the skin's underlying expression muscles – somewhat similar to the effect achieved by injections of a Botulinum Toxin drug. This ingredient works only when a complete trans-dermal penetration is achieved. Beauté Pacifique's patented Squalane-based delivery system is the key to make this possible with a non-medical, cosmetics product.

19. Dipeptide Diaminobutyroyl Benzylamide Diacetate is a molecular design made as a close copy of snake venom. The snake is using its venom to paralyze its prey and Beauté Pacifique takes advantage of this action to mimic the similar action as can be achieved by Botulinum Toxin injections. The ingredient is manufactured by a major Swiss drug / snake-serum company and was rewarded for advanced technology excellence.

31. Retinyl Acetate is like Retinyl Palmitate a particularly stable form of Vitamin A and it has a similar remarkable efficient rejuvenating action in the skin working in parallel with and in the same manner as in Retinyl Palmitate. It enables the skin's specialized cells to rebuild and repair sun damaged and aged skin comparable to Retinyl Palmitate.

TYROSTASE

Brown Pigment Equalizer

A creme for use directly on hyper-pigmented spots or more systemic to whiten dark skin and even-out blemishes. Combines two herbal extracts and a special form of Vitamin C into a unique triple whitening action. All three whitening ingredients have been clinically tested with significant whitening effect. The product influences the enzyme Tyrosinase that controls the synthesis of the brown Melanin. The Tyrostase Pigment Equalizer works by reducing the production rate of Melanin and by partially reversing the synthesis. The result is whitening and a fairer skin tone.

Unique Benefits

- *For hyper-pigmented and blemished skin without any harsh side effects*
- *Contains both Vitamin A and a unique triple action skin whitening*
- *Contains a sunscreen that prevents dark skin to darken further*
- *Perfume / fragrance free*

Ingredients:

1. Aqua (Water)
2. **Sodium Ascorbyl Phosphate**
3. Glycerin
4. Caprylic/Capric Triglyceride

28. Sodium Benzoate
29. Sodium Metabisulfite

D0303001-00

Main Ingredients

2. Sodium Ascorbyl Phosphate is a remarkably stable form of Vitamin C with welldocumented skin whitening properties. The stability ensures a longlasting efficacy maintained during both shelf life and while on the skin. It whitens the skin safely and additionally it also provides increased collagen synthesis. Works independently from other whitening substances.

15. Arbutin is a natural ingredient that inhibits the enzyme Tyrosinase which regulates the formation and maintenance of the Melanin level i.e the skin's dark pigment. The Melanin formation decreases gradually over a few months resulting in more fair skin colour. Works independently from other whitening substances.

25. Retinyl Palmitate is a particularly stable form of Vitamin A that we have formulated into our creams, in a way to maintain its high potency – both during storage and on application to the skin. Encapsulated in nanometersized droplets of squalane, the Vitamin A can penetrate deep into the skin in sufficient amounts to stimulate the type of cells, that synthesise lost collagen fibre structures providing a younger skin. Wrinkles and fine lines diminish and throughout the complete structure of the skin it is significantly rejuvenated. Made possible via our patented combination with squalane that functions as an effective delivery system penetrating through the entire depth of the skin, The Vitamin A transforms into a totally unique and remarkably efficient Anti-Aging action within the skin corresponding to a 10- 20 years rejuvenation.

26. Glycyrrhiza Glabra Extract is the extract from Liquorice Root. This is well known as a wound healing extract, helping to reduce irritation within the skin and providing instant comfort to sensitive skin. It enables the skin to accept strong reacting ingredients with fewer side effects, allowing more effective ingredients to be tolerated by sensitive skin.

27. Diacetyl Boldine is a natural ingredient that inhibits the enzyme Tyrosinase which regulates the formation and maintenance of the Melanin level i.e the skin's dark pigment. The Melanin formation decreases gradually over a few months resulting in more fair skin colour. Works independently from other whitening substances.

CRÈME MÉTAMORPHIQUE

Vitamin A Anti-Wrinkle Night Creme

This patented night creme is a "must-have" daily aid for everybody above the age of 25 years who wish to diminish and prevent the signs of aging. Provides the skin with two forms of Vitamin A Esters to rebuild the collagen fiber structures, and help the skin become reinforced and rejuvenated. Use preferably as a night creme and apply very sparingly onto cleansed skin on the face and neck. It is instantly absorbed into the skin if applied in the correct amount. Apply every second night during the first week to allow the skin to adapt to the Vitamin As and to avoid erythema or redness. After the first week, use every night for the best result.

Unique Benefits

- *A scientifically documented rejuvenation treatment that works throughout the skin's deepest layers*
- *Reduces wrinkles and repairs even the severely sun damaged skin*
- *As it is a highly concentrated formulation always apply very sparingly*

Ingredients:

1. Aqua (Water)
2. **Squalane**
3. **Glycerin**
4. Persea Gratissima (Avocado) Oil
5. Glyceryl Stearate
6. PEG-100 Stearate
7. Cetearyl Alcohol
8. Diethylhexyl Succinate
9. **Lanolin**
10. Behenyl Alcohol
11. Stearic Acid
12. Phenoxyethanol
13. Ethylhexylglycerin
14. **Tocopheryl Acetate**
15. PEG-20 Stearate
16. **Retinyl Palmitate**
17. **Tocopherol**
18. **Retinyl Acetate**
19. Arachis Hypogaea (Peanut) Oil
20. Tetrasodium Iminodisuccinate
21. Sodium Lactate
22. Parfum (Fragrance)

D0300901-00

Main Ingredients

2. Squalane is an oil naturally occurring in human skin and is an important part of the lipid system. Its penetration capacity is remarkably high. Nanometer droplets of squalane function as effective "transporters" for the A Vitamins and other oil soluble active ingredients. Young and healthy skin contains a high amount of squalane but the level will decrease dramatically with age. Therefore squalane is absorbed excellently into sun damaged and aged skin. A lack of squalane within the skin can lead to premature aging, very dry skin and a loss of elasticity. Areas of constantly exposed, dry and prematurely aged skin such as on the hands, elbows, heals and knees etc become incredibly soft immediately when squalane is applied in the right formulation.

3. Glycerin is one of the very best and most widely used humectants (moisturizers). It penetrates easily into the epidermis and makes the skin soft and subtle. This vegetable glycerine can without problems be applied to very sensitive skin types. It provides lubrication and leaves the skin soft and silky smooth. It is extremely comforting, to very dry skin types.

9. Lanolin (Purified Pharmaceutical Quality) plays an important role in maintaining the skin moisture balance and provides a remarkable finely textured skin surface, especially when used in combination with squalane. Previous problems with lanolin allergies are minimised with this product, due to its pharmaceutical purity where all the allergenic impurities have been removed.

14. Tocopheryl Acetate is a type of Vitamin E that plays an important role by protecting both the skin and the products against harmful free radicals.

16. Retinyl Palmitate is a particularly stable form of Vitamin A that we have formulated into our cremes, in a way to maintain its high potency – both during storage and on application to the skin. Encapsulated in nanometer sized droplets of squalane, the Vitamin A can penetrate deep into the skin in sufficient amounts to stimulate the type of cells, that synthesise lost collagen fibre structures providing a younger skin. Wrinkles and fine line diminish and throughout the complete structure of the skin it is significantly rejuvenated. Made prossible via our patented combination with squalane that functions as an effective delivery system penetrating through the entire depth of the skin, The Vitamin A transforms into a totally unique and remarkably efficient Anti-Aging action within the skin corresponding to a 10- 20 years rejuvenation.

17. Tocopherol is another source of Vitamin E that plays an important role by protecting both the skin and the products against harmful free radicals and functions as a natural moisturizer and capable of reducing fine lines and wrinkles.

18. Retinyl Accetate is like Retinyl Palmitate a particularly stable form of Vitamin A and it has a similar remarkable efficient rejuvenating action in the skin working in parallel with and in the same manner as in Retinyl Palmitate. It enables the skin's specialized cells to rebuild and repair sun damaged and aged skin comparable to Retinyl Palmitate.

SUPER3 BOOSTER

Vitamin A Anti-Wrinkle Night Booster

This creme includes two different forms of Vitamin A Esters each having its own way of rejuvenating the skin's collagen and elastin fibre structure. The synthesis of collagen and elastin fibres are boosted to reinforce the skin's elastic properties and this also makes the skin less transparent. It repairs the damage caused by the sun and clearly reduces wrinkles. The creme is also effective for the treatment of thin skin for example on the back of the hands and on dry and brittle nails. Reduces the skin's sebum secretion and contains Propolis for the treatment and prevention of impure skin including active pimples as in teenage skin. Apply very sparingly onto cleansed skin every second night the first two weeks to allow, the skin to accept the Vitamin A and avoid erythema or redness. If erythema occurs wait until the skin calms down before re-introducing the creme. After the first two weeks use then every night for the best result. Can also be recommended as the next step to Crème Métamorphique whenever you want a product with even more potency due to its high content of the two forms of Vitamin A Esters. Note: Do not use Instant Hydrating Mask on top of Super3 Booster.

Unique Benefits

- *Probably the most potent Anti-Age product currently on the consumer market*
- *Reduces the skin's sebum secretion and prevents problems with pimples and impure skin*
- *Contains Propolis that fights active pimples and prevents the formation of scars*

Ingredients:

1. Aqua (Water)
2. Glycerin
3. **Squalane**
4. **Glyceryl Stearate**
5. Tridecyl Stearate
6. **PEG-100 Stearate**
7. Diethylhexyl Succinate

Main Ingredients

3. Squalane is an oil naturally occurring in human skin and is an important part of the lipid system. Its penetration capacity is remarkably high. Nanometer droplets of squalane function as effective "transporters" for the A Vitamins and other oilsoluble active ingredients.

Young and healthy skin contains a high amount of squalane but the level will decrease dramatically with age. Therefore squalane is absorbed excellently into sun damaged and aged skin. A lack of squalane within the skin can lead to premature aging, very dry skin and a loss of elasticity. Areas of constantly exposed, dry and prematurely aged skin such as on the hands, elbows, heels and knees etc become incredibly soft immediately when squalane is applied in the right formulation.

4 + 6 + 9. Sebum-regulating is a remarkable mixture of natural extracts that significantly decreases the skin's production of sebum. This reduces severe and stubborn problems with pimples and impurities. Especially impurities prone to hormonal imbalances within the skin can be treated effectively. The mode of action is based on inhibiting the synthesis of testosterone, which again is the hormone that regulates the secretion of sebum.

16. Propolis Cera Water Extract (PWE) is nature's own defence against microbial infections found in beehives where it protects the bees from diseases and fungal infections.

31. Retinyl Accetate is like Retinyl Palmitate a particularly stable form of Vitamin A and it has a similar remarkable efficient rejuvenating action in the skin working in parallel with and in the same manner as in Retinyl Palmitate. It enables the skin's specialized cells to rebuild and repair sun damaged and aged skin comparable to Retinyl Palmitate.

36. Retinyl Palmitate is a particularly stable form of Vitamin A that we have formulated into our creams, in a way to maintain its high potency – both during storage and on application to the skin. Encapsulated in nanometersized droplets of squalane, the Vitamin A can penetrate deep into the skin in sufficient amounts to stimulate the type of cells, that synthesise lost collagen fibre structures providing a younger skin. Wrinkles and fine lines diminish and throughout the complete structure of the skin it is significantly rejuvenated. Made possible via our patented combination with squalane that functions as an effective delivery system penetrating through the entire depth of the skin, The Vitamin A transforms into a totally unique and remarkably efficient Anti-Aging action within the skin corresponding to a 10- 20 years rejuvenation.

SUBMERSIVE SERUM PARADOXE

Chilean GSPE/procyanidin concentrate

Submersive Serum Paradoxe is based on new medical discoveries relating to a sophisticated Chilean Grape Seed extract (GSPE). These grapes are grown at hillsides in the Andes mountains where the sun's UV-radiation is very severe. During the evolution these special grapes have adapted to the extreme UV-exposure and secured survival of the genes. The grapes have developed their own defense against free radicals built on high contents of the two active anti-oxidative substances Resveratrol and Procyanidin. Submersive Serum Paradoxe beauté Pacifique provides to human skin the same active ingredients as what gave survival of the fittest grapes. The action of the GSPE with Resveratrol and Procyanidin is at the same time both Anti-Age and anti-inflammatory and blended with Squalane. The Serum goes "Submersive". The Serum Paradoxe is a new first step to a perfect looking make-up. the Serum fills up the pits and the pores of an imperfect skin surface and enables the make-up to also camouflage uneven pigmentation.

Ingredients:

1. **Squalane**
2. **Vitis Vinifera (Grape) Seed Oil**
3. **Tocopheryl Acetate**
4. **Tocopherol**
5. Parfum (Fragrance)

D0303501-00

Unique Benefits

Fast benefits:

- *Prompts correction of an imperfect skin surface*
- *Adds a visible glow-effect to your make-up*
- *Helps the make-up to camouflage uneven pigmentation*

Long term benefits:

- *Contains a sophisticated extract from Chilean Andes mountains Grape Seeds (GSPE) to diminish excessive rednesses (i.e. rosacea looking skin), and to*
- *Provide anti-oxidative defense against free radicals and reduce aging signs*
- *Contains skin-compatible Squalane to submerge the ingredients and replenish what's lost in sun-damaged and aged skin.*
- *Contains two types of vitamin E*

Main Ingredients

1. Squalane is an oil naturally occurring in human skin and is an important part of the lipid system. Its penetration capacity is remarkably high. Nanometer droplets of squalane function as effective "transporters" for the A Vitamins and other oil soluble active ingredients. Young and healthy skin contains a high amount of squalane but the level will decrease dramatically with age. Therefore squalane is absorbed excellently into sun damaged and aged skin. A lack of squalane within the skin can lead to premature aging, very dry skin and a loss of elasticity. Areas of constantly exposed, dry and prematurely aged skin such as on the hands, elbows, heels and knees etc become incredibly soft immediately when squalane is applied in the right formulation.

2. Vitis Vinifera / Grape Seed Oil (This special Chilean oil contains a certain amount of Resveratrol and a significant amount of Procyanidin). Comprehensive medical documentation proves that both Resveratrol and Procyanidin can delay aging and prolong the cells' lifespan – and therefore in this product keep the skin young and healthy for a longer time. This Anti-Age effect creates a whole new dimension being classified as a cosmetic product but with an objective skin improving effect.

3. Tocopheryl Acetate is a type of Vitamin E that plays an important role by protecting both the skin and the product against harmful free radicals.

4. Tocopherol is another source of Vitamin E that plays an important role by protecting both the skin and the products against harmful free radicals and functions as a natural moisturizer and capable of reducing fine lines and wrinkles.

CRÈME PARADOXE

A Super Potent Anti-Age Day Creme

Crème Paradoxe is a fantastic effective Anti-Age day creme with nearly medical properties. The creme is based on a high content of the two highly active ingredients Procyanidin and Resveratrol that both delay the aging process, repair sun damage, fight and prevent the causes of blushing and rebuild healthy and robust skin.
The creme also provides the skin with two forms of Vitamin A Esters, added at an optimized amount that when combined with the Beauté Pacifique Vitamin A night cremes, it improves the inner structure of the skin.
Crème Paradoxe also contains ingredients that are vascular constrictors. Further the creme is a product that fits all skin types with its soft and light fragrance. Crème Paradoxe is a breakthrough in advanced skincare, where Beauté Pacifique incorporates the latest and newly discovered ingredients from medical science.
Crème Paradoxe repairs and rebuilds the skin down to the deepest layers of the skin. Apply directly to cleansed skin to achieve maximum penetration.

Ingredients:

1. Aqua (Water)
2. **Vitis Vinifera (Grape) Seed Oil**
3. **Squalane**
4. Glyceryl Stearate
5. Acetamide MEA
6. Glycerin
7. Propylene Glycol
8. Cetearyl Alcohol
9. PEG-100 Stearate
10. Cetyl Esters
11. Behenyl Alcohol
12. Cetyl Palmitate
13. **Aloe Barbadensis (Aloe Vera) Leaf Juice Powder**
14. **Silybum Marianum Fruit Extract**
15. **Alchemilla Vulgaris Leaf Extract**
16. **Equisetum Arvense (Horsetail) Extract**
17. **Glycine Soja (Soybean) Seed Extract**
18. **Triticum Vulgare (Wheat) Seed Extract**
19. **Medicago Sativia (Alfalfa) Extract**
20. **Raphanum Sativus (Radish) Seed Extract**
21. Marrubium Vulgare Extract
22. Decyl Glycoside
23. C10-30 Cholesterol/Lanosterol Esters

33. Polysorbate 60
34. Sodium Ursolate
35. Sodium Oleanolate
36. Laureth-4
37. **Retinyl Acetate**
38. Arachis Hypogaea (Peanut) Oil
39. Tetrasodium Iminodisuccinate
40. **Glycyrrhiza Glabra (Licorice) Root Extract**
41. Tocopherol
42. Distarch Phosphate
43. Phenoxyethanol
44. Ethylhexylglycerin
45. Acrylates/C10-30 Alkyl Acrylate Crosspolymer
46. **Retinyl Palmitate**
47. Sodium Benzoate
48. Potassium Sorbate
49. Alcohol Denat
50. Citric Acid
51. Arachidyl Alcohol
52. Stearyl Alcohol
53. Parfum (Fragrance)
54. CI 14700 (FD&C Red #4)

D0303101-00

Unique Benefits

- *Stimulates the repair process of your skin – each and every morning*
- *Makes the skin healthy and soft as silk*
- *Fights aging and sun damage – repairs through all the layers of the skin*
- *Normalizes the skin and provides a more uniform surface and pigmentation*

Main Ingredients

2. Vitis Vinifera/ Grape Seed Oil (This special Chilean oil contains a certain amount of Resveratrol and a significant amount of Procyanidin). Comprehensive medical documentation proves that both Resveratrol and Procyanidin can delay aging and prolong the cells' lifespan – and therefore in this product keep the skin young and healthy for a longer time.

This Anti-Age effect creates a whole new dimension being classified as a cosmetic product but with an objective skin improving effect.

3. Squalane is an oil naturally occurring in human skin and is an important part of the lipid system. Its penetration capacity is remarkably high. Nanometer droplets of squalane function as effective "transporters" for the A Vitamins and other oil soluble active ingredients. Young and healthy skin contains a high amount of squalane but the level will decrease dramatically with age.

Therefore squalane is absorbed excellently into sun damaged and aged skin. A lack of squalane within the skin can lead to premature aging, very dry skin and a loss of elasticity. Areas of constantly exposed, dry and prematurely aged skin such as on the hands, elbows, heals and knees etc become incredibly soft immediately when squalane is applied in the right formulation.

13. Aloe Barbadensis Leaf Juice Powder is a natural vegetal raw material that functions as a natural humectant, and is well known for its soothing properties.

14-20. Refirming is a mixture of natural extracts that is a vascular constrictor and reinforces the skin's elastic proportions. Excellent in treating "Teleangiectasies" and red cheeks.

26. Hydrolyzed Collagen is an ingredient that builds an invisible shield of moisture binding barrier on the surface of the skin, to enable the skin to maintain an elevated level of moisture within the epidermis.

27. Sodium Hyaluronate is a modified type of Sodium Hyalouronate that penetrates significantly deeper due to its disintegrated molecular version. It is an ingredient that binds water in the epidermis, to enable the skin to maintain an elevated level of moisture throughout the layers of epidermis.

32. Tocopheryl Acetate is a type of Vitamin E that plays an important role by protecting both the skin and the product against harmful free radicals.

37. Retinyl Accetate is like Retinyl Palmitate which is a particularly stable form of Vitamin A and has a similar remarkable efficient rejuvenating action on the skin in the same manner as in Retinyl Palmitate. It enables the skin's cells to rebuild and repair sun damaged and aged skin the same as Retinyl Palmitate.

40. Glycyrrhiza Glabra (Licorice) Root Extract is the extract from Liquorice Root. This is well known as a wound healing extract, helping to reduce irritation within the skin and providing instant comfort to sensitive skin. It enables the skin to accept strong reacting ingredients with fewer side effects, allowing more effective ingredients to be tolerated by sensitive skin.

46. Retinyl Palmitate is a particularly stable form of Vitamin A that we have formulated into our creams, in a way to maintain its highly active potency – both during storage and on application to the skin. Encapsulated in nanometersized droplets of squalane, the Vitamin A can penetrate deeper into the skin in sufficient amounts to stimulate the cells, and synthesise lost collagen fibre structures as in a younger skin.

Wrinkles and fine line diminish and throughout the complete structure of the skin it is significantly rejuvenated. In our patented combination with squalane that functions as an effective delivery system throughout the skin, The Vitamin A transforms into a totally unique and In our patented combination with squalane that functions as an effective delivery system throughout the skin, The Vitamin A transforms into a totally unique and remarkably efficient Anti-Age action within the skin corresponding to 10-20 years rejuvenation.

BEAUTÉ PACIFIQUE

CORPUS PARADOXE BODY OIL

Anti-Age Body Oil

Corpus Paradoxe Body Oil is developed to provide significant Anti-Age treatment combined with a pleasant feeling of pampering. Corpus Paradoxe Body Oil penetrates quickly and gives renewed softness all over the body.

In addition to the immediate sensation of softness and freshness the "near-medical" Anti-Age effect builds up remarkable protection of the cells provided by the two highly active ingredients Resveratrol and Procyanidin – two substances reported in medical science to provide life extension to cells. Corpus Paradoxe Body Oil is formulated with the perfect amount of these two ingredients to give the best treatment to the body.

Further the Corpus Paradoxe Body Oil contains two types of Vitamin E to provide even more anti-oxidative Anti-Age effect and in order to emphasize the feeling of luxury a pleasant and dedicated fragrance is added.

Use Corpus Paradoxe Body Oil every day after showering – on moist skin. If even more moisture is desired then follow with a Beauté Pacifique Body Lotion.

Ingredients:

1. **Squalane**
2. **Vitis Vinifera (Grape) Seed Oil**
3. **Tocopheryl Acetate**
4. **Tocopherol**
5. Parfum

D0303601-00

Unique Benefits

- *Near medical Anti-Age effect*
- *Provides cellular defense against aggressive free radicals*
- *Leaves the skin silky soft*
- *Contains two types of Vitamin E*
- *Reduces pigmentation*

Main ingredients

1. Squalane is an oil naturally occurring in human skin and is an important part of the lipid system. Its penetration capacity is remarkably high. Young and healthy skin contains a high amount of squalane but the level will decrease dramatically with age. Therefore squalane is absorbed excellently into sun damaged and aged skin. A lack of squalane within the skin can lead to premature aging, very dry skin and a loss of elasticity. Areas of constantly exposed, dry and prematurely aged skin become incredibly soft immediately when squalane is applied in the right formulation.

2. Vitis Vinifera/ Grape Seed Oil (This special Chilean oil contains a very high amount of Resveratrol and a significant amount of Procyanidin). Comprehensive medical documentation proves that both Resveratrol and Procyanidin can delay aging and prolong the cells' lifespan – and therefore this product keeps the skin young and healthy for a longer time.

3. Tocopheryl Acetate is a type of Vitamin E that plays an important role by protecting both the skin and the product against harmful free radicals.

4. Tocopherol is another source of Vitamin E that plays an important role by protecting both the skin and the products against harmful free radicals and functions as a natural moisturizer and capable of reducing fine lines and wrinkles.

CRÈME PARADOXE
ANTI-AGE CHILEAN PROCYANIDIN EYE CREME

Achieve a younger look with our moisturising Paradoxe Anti-Age Eye Creme. Its highly active ingredients postpone and reduce biological age-related changes and help keep the sensitive skin around your eyes young and healthy for as long as possible.

The creme is based on Beauté Pacifique's own source of unique Chilean grape extract, which possesses an exceptionally high content of natural resveratrol and procyanidin, which postpone the processes of ageing and repair sun damage.

The eye creme also contains a high-level extract of the well-documented flowering herb, Spilanthes acmella, which instantly tightens the skin from inside by compressing the network of collagen and elastin fibres.

All of these active ingredients are transported deep into the skin, encapsulated in the skin's own oil (squalane), which also keeps the skin softened as in young skin.

The skin acquires more moisture with an additional supply of the ingredient hyaluronate, which is the skin's own natural water-binding agent.

In particular, Paradoxe Anti-Age Eye Creme combats the free radicals and stress in the skin, which too much sunlight can cause.

Application: Dab the eye cream on the areas around the eyes. It is not usually applied to the eyelids, where in many instances the skin is extremely sensitive. Also avoid getting too close to the nasal root/tear ducts.

Ingredients:

1. Aqua (Water)
2. Glycerin
3. **Squalane**
4. **Vitis Vinifera (Grape) Seed Oil**
5. Glyceryl Stearate
6. Acetamide MEA
7. Cetearyl Alcohol
8. Propylene Glycol
9. Caprylic/Capric Triglyceride
10. Behenyl Alcohol
11. Cetyl Esters
12. PEG-100 Stearate
13. Cetyl Palmitate
14. Tocopherol
15. PEG-20 Stearate
16. **Spilanthes Acmella Flower Extract**
17. **Aloe Barbadensis (Aloe Vera) Leaf Juice Powder**
18. **Hydrolyzed Collagen**
19. **Sodium Hyaluronate**
20. **Tocopheryl Acetate**
21. C10-30 Cholesterol/Lanosterol Esters

30. Acrylates/C10-30 Alkylacrylate Crosspolymer
31. CI 14700 (FD&C Red #4)

D03035701-01

Unique Benefits

- *Instant firming effect, and makes the skin soft*
- *Anti-age effect from unique Chilean grapes that can withstand very intense sun*
- *The skin becomes well moisturised and maintains a high moisture level*
- *Can be used even on sensitive skin*
- *Combats the causes of sun damage and age-related changes*

Main ingredients

3. Squalane is an oil naturally occurring in human skin and is an important part of the lipid system. Its penetration capacity is remarkably high. Young and healthy skin contains a high amount of squalane but the level will decrease dramatically with age. Therefore squalane is absorbed excellently into sun damaged and aged skin. A lack of squalane within the skin can lead to premature aging, very dry skin and a loss of elasticity. Areas of constantly exposed, dry and prematurely aged skin become incredibly soft immediately when squalane is applied in the right formulation.

4. Vitis Vinifera/ Grape Seed Oil (This special Chilean oil contains a very high amount of Resveratrol and a significant amount of Procyanidin). Comprehensive medical documentation proves that both Resveratrol and Procyanidin can delay aging and prolong the cells' lifespan – and therefore this product keeps the skin young and healthy for a longer time.

16. Spilanthes Acmella Flower Extract is a flower extract providing a newly discovered biological contractive reaction when in contact with the dermal fibroblast cells.
The fibroblast cells literally contract the skin by pulling the collagen/elastin network consisting of fibers – formerly "spun" by the fibroblasts.

17. Aloe Barbadensis Leaf Juice Powder is a natural raw material that functions as a natural humectant, and is well known for its soothing and healing properties.

18. Hydrolyzed Collagen is an ingredient that builds an invisible shield of moisture binding barrier on the surface of the skin, to enable the skin to maintain an elevated level of moisture within the epidermis.

19. Sodium Hyaluronate is a modified type of Sodium Hyalouronate that penetrates significantly deeper due to its disintegrated molecular version. It is an ingredient that binds water in epidermis, to enable the skin to maintain an elevated level of moisture throughout the layers of epidermis.

20. Tocopheryl Acetate is a type of Vitamin E that plays an important role by protecting both the skin and the product against harmful free radicals.

CRÈME PARADOXE ANTI-AGE CHILEAN PROCYANIDIN NIGHT CREME

For optimal postponement of the processes of ageing, use our effective Paradoxe Anti-Age Night Creme. It moisturises, soothes and combats ageing and sun damage at the same time. The creme combines a number of active ingredients, each of which has a unique ability to rebuild and repair the skin. It is particularly effective against the free radicals and stress in the skin, which too much sunlight can cause.

The preventive properties of Paradoxe Anti-Age Night Creme are mainly based on Beauté Pacifique's own source of unique Chilean grape extract, which possesses an exceptionally high content of natural resveratrol and procyanidin, which keep the skin young and healthy longer. These active ingredients are transported deep into the skin, encapsulated in the skin's own oil (squalane), which also keeps the skin silky smooth.

In order to provide the best possible anti-age effect, the creme also contains a supplement of two highly active Vitamin A esters, which help restore lost elasticity in the same way that Beauté Pacifique's well-documented Creme Métamorphique does. The ingredients -URSOLATE and -OLEANOLATE further support the anti-age effect by generating new, particularly vital fibres.

To reduce the visibility of small blood vessels in the skin, a cocktail of ingredients (REFIRMING) has been added to contract the blood vessels.

Protective liquorice root extract means that this highly active creme can be used even on sensitive skin without undesirable side effects.

The creme also contains Vitamin E, which combats free radicals and stress in the skin.

Combine the night creme with the day creme from the same range for maximum effect.

Application: Apply to cleansed skin every evening.

Ingredients:

1. Aqua (Water)

Unique Benefits

- *Repairs and rebuilds the skin from within with effective agents*
- *Prevents age-related changes and sun damage*
- *Has a sustained moisturising effect and makes the skin silky smooth*
- *Can be applied to sensitive skin*

Main Ingredients

2. Vitis Vinifera/ Grape Seed Oil (This special Chilean oil contains a very high amount of Resveratrol and a significant amount of Procyanidin). Comprehensive medical documentation proves that both Resveratrol and Procyanidin can delay aging and prolong the cells' lifespan – and therefore this product keeps the skin young and healthy for a longer time.

4. Squalane is an oil naturally occurring in human skin and is an important part of the lipid system. Its penetration capacity is remarkably high. Young and healthy skin contains a high amount of squalane but the level will decrease dramatically with age. Therefore squalane is absorbed excellently into sun damaged and aged skin. A lack of squalane within the skin can lead to premature aging, very dry skin and a loss of elasticity. Areas of constantly exposed, dry and prematurely aged skin become incredibly soft immediately when squalane is applied in the right formulation.

14. Aloe Barbadensis Leaf Juice Powder is a natural raw material that functions as a natural humectant, and is well known for its soothing and healing properties.

15-22 Refirming is a mixture of natural extracts that is a vascular constrictor and reinforces the skin's elastic proportions. Excellent in treating "Teleangiectasies" and red cheeks.

23. Glycyrrhiza Glabra (Licorice) Root Extract is the extract from Liquorice Root. This is well known as a wound healing extract, helping to reduce irritation within the skin and providing instant comfort to sensitive skin. It enables the skin to accept strongly reacting ingredients with fewer side effects, enabling more effective ingredients to be tolerated by sensitive skin.

26. Tocopheryl Acetate is a type of Vitamin E that plays an important role by protecting both the skin and the product against harmful free radicals.

30. Sodium Ursolate and **41. Sodium Oleanoate** are two very powerful ingredients with a unique capacity to repair aged and sun damaged skin. The most remarkable scientific findings are the recreated collagen fibre structures at the same level as found in young skin. This rejuvenates completely the treated skin, including a striking recreation of the surface of the skin's micro-topography.

LA FORTE - COLLAGEN BOOST TABLETS

Food Supplements

MARINE & ROOIBOS FOOD SUPPLEMENTS WITH ANTIOXIDANTS, VITAMINS AND MINERALS

This revolutionary food supplement combine the best from the sea with the best from herbs. It contains a well documented shark cartilage extract, known to rejuvenate collagen and the unique herb Rooibos.

LA Forte also contains:

Vitamin A and Zinc: Contributes to the maintenance of normal skin, **Vitamin C, Vitamin E and Zinc**: Contributes to the protection of cells from oxidative stress, **Vitamin C**: Contributes to normal collagen formation for the normal function of skin, **Vitamin D** (the sun vitamin): Contributes to the normal function of the immune system. We recommend two tablets in the morning.

Unique Benefits

- *Helps prevent premature aging and restore the skin's resilience and firmness*
- *Helps relieve dry skin*
- *Contains antioxidants, minerals and vitamins*
- *Test Result: 59 % increased moisture level in 90 days*

Ingredients:

1. Microcrystalline Cellulose
2. **Shark Cartilage (Prionace Glauca)**
3. Tricalcium Phosphate
4. **Zinc (Zinc Gluconate)**
5. **Vitamin C (L-ascorbic acid)**
6. **Horsetail Extract (Equisetum Arvense)**
7. **Rooibos Extract (Aspalathus Linearis)**
8. **Vitamin E (D-α-tocopheryl Acetate)**
9. **Vitamin A (Retinyl acetat)**
10. Magnesium Stearate
11. **Vitamin D (Cholecalciferol)**
12. Silicon Oxid
13. Orange aroma

D1402101-00

Main Ingredients

2. Shark Cartilage Extract (Prionace Glauca) is a well-documented ingredient providing the deepest layers of the skin with a renewed and firmer collagen and fibre structure as found in younger skin.
4. Zinc (Zinc Gluconate) contributes to the maintenance of normal and to the protection of cells from oxidative stress.
5. Vitamin C (L-ascorbic acid) contributes to the protection of cells from oxidative stress and to normal collagen formation for the normal function of the skin.
6. Horsetail Extract (Equisetum Arvense) is an important natural ingredient that helps to form healthy skin and nails.
7. Rooibos Extract (**Aspalathus Linearis**) a unique herb found in South Africa that is rich in antioxidants including Aspalathin found only in Rooibos. It is known as the most popular natural product for the care of dry and irritated skin. Numerous scientific publications describe the many benefits of Rooibos and it is known as a valuable natural medicine all over the world.
8. Vitamin E (D-α-tocopheryl Acetate) contributes to the protection of cells from oxidative stress.
9. Vitamin A (Retinyl Acetate) contributes to the maintenance of normal skin.
11 Vitamin D (Cholecalciferol) contributes to the normal function of the immune system.

PUFFY EYES GEL

Puffy Eyes Gel firms and tighten puffiness around the eyes. The remarkable – often instantly visible - firming action effect comes from the newly discovered flower Spilanthes Acmella. The flower extract makes the fibroblast cells literally pull the skin's fiber-network tightly together – like a spider in the web.

A cocktail of other vegetable extracts provides an effect of reducing fatty tissue deposits and stimulates the microvessels to become tighter and reduces edema. Caffeine is also present to consume energy and further reduce the fatty tissue underneath the skin.

Apply the Puffy Eyes Gel both day and night on cleansed skin and feel the immediate pleasant cooling sensation when the product starts to penetrate the skin. Can be used in combination with Vitamin A Anti-Wrinkle Eye Creme.

Unique Benefits

- *Active collagen firming and tightening of deep dermal tissues*
- *A breakthrough in non-invasive techniques*
- *Provides a pleasant cooling sensation while penetrating deeply*

Ingredients:

1. Aqua (Water)
2. Caprylic/Capric Triglyceride
3. Polysorbate 20
4. Propanediol
5. Glycerin
6. Saccharide Isomerate
7. Propylene Glycol
8. Acrylates/C10-30 Alkyl Acrylate Crosspolymer
9. **Iodized Hydrolyzed Zein**

VITAMIN A ANTI-WRINKLE EYE CREME

Treats fine lines, wrinkles and reduces dark eye zones caused by a transparent and thin skin. The double Vitamin A types in a squalane formulation initiate the collagen fibre structure to grow denser and better organised as in younger skin. Use morning and night. This product should be gradually introduced into the daily skin care routine by applying only every second morning and night during the first two weeks to allow the skin to adapt to the Vitamin A and to avoid erythema or redness. After the first two weeks use then every day and night for the best result. It can be used in combination with Puffy Eyes Gel.

Unique Benefits

- *Fights dark eye zones - when caused by transparency of thin skin*
- *Minimizes fine lines and wrinkles*
- *Makes the skin more robust and protects against the action of free radicals*
- *Contains two different forms of Vitamin A each having their own way of rejuvenating the collagen fibre structure*

Ingredients:

1. Aqua (Water)
2. **Squalane**
3. Glyceryl Stearate
4. Acetamide MEA
5. Cetearyl Alcohol
6. Propylene Glycol
7. **Glycerin**
8. PEG-100 Stearate

29. Potassium Sorbate
30. Parfum (Fragrance)

D0301101-01

Main Ingredients

2. Squalane is an oil naturally occurring in human skin and is an important part of the lipid system. Its penetration capacity is remarkably high. Nanometer droplets of squalane function as effective "transporters" for the A Vitamins and other oil soluble active ingredients. Young and healthy skin contains a high amount of squalane but the level will decrease dramatically with age. Therefore squalane is absorbed excellently into sun damaged and aged skin. A lack of squalane within the skin can lead to premature aging, very dry skin and a loss of elasticity. Areas of constantly exposed, dry and prematurely aged skin such as on the hands, elbows, heals and knees etc become incredibly soft immediately when squalane is applied in the right formulation.

7. Glycerin is one of the very best and most widely used humectants (moisturizers). It penetrates easily into the epidermis and makes the skin soft and subtle. This vegetable glycerine can without problems be applied to very sensitive skin types. It provides lubrication and leaves the skin soft and silky smooth. It is extremely comforting, to very dry skin types.

14. Aloe Barbadensis (Aloe Vera) Leaf Juice Powder is a natural raw material that functions as a natural humectant, and is well known for its soothing and healing properties.

19. Tocopheryl Acetate is a type of Vitamin E that plays an important role by protecting both the skin and the products against harmful free radicals.

23. Tocopherol is another source of Vitamin E that plays an important role by protecting both the skin and the products against harmful free radicals and functions as a natural moisturizer and capable of reducing fine lines and wrinkles.

25. Retinyl Palmitate is a particularly stable form of Vitamin A that we have formulated into our cremes, in a way to maintain its high potency – both during storage and on application to the skin. Encapsulated in nanometer sized droplets of squalane, the Vitamin A can penetrate deep into the skin in sufficient amounts to stimulate the type of cells, that synthesise lost collagen fibre structures providing a younger skin. Wrinkles and fine line diminish and throughout the complete structure of the skin it is significantly rejuvenated. Made possible via our patented combination with squalane that functions as an effective delivery system penetrating through the entire depth of the skin, The Vitamin A transforms into a totally unique and remarkably efficient Anti-Aging action within the skin corresponding to a 10- 20 years rejuvenation.

26. Wheat Amino Acids are water binding by nature and capable of penetrating deeply in to the horny layer of the skin. By using this Wheat Amino Acids the moisture level is significantly elevated without any sticky residue.

27. Hydrolyzed Collagen is an ingredient that builds an invisible shield of moisture binding barrier on the surface of the skin, to enable the skin to maintain its elevated level of moisture within the epidermis.

28. Sodium Hyaluronate is an ingredient that builds an invisible shield of moisture binding barrier on the surface of the skin, to enable the skin to maintain its elevated level of moisture within the epidermis.

SCARS & STRIPES

Fade-Away Creme For Scars & Stretch Marks

Scars & Stripes is a remarkably effective creme that prevents and treats scars and stretch marks. The creme works by four different active substances – each designed to reduce redness and to normalize the lost tissue structure that makes scars and stretch marks visible.
The creme also contains three different active Vitamin A esters that rejuvenate and soften the skin with a powerful Anti-Age "boost" for better elasticity and a more uniform skin surface. Rub the creme into the problem areas morning and evening. Followed by your preferred Beauté Pacifique moisturizer, or Anti-Age creme (or Body Lotion)

Unique Benefits

- *Fights scars and stretch marks*
- *Makes the skin more extensible*
- *Anti-Age treatment to problem skin*
- *Reduces redness and makes the skin more robust*
- *Perfume / fragrance free*

Young and healthy skin contains a high amount of squalane but the level will decrease dramatically with age. Therefore squalane is absorbed excellently into sun damaged and aged skin. A lack of squalane within the skin can lead to premature aging, very dry skin and a loss of elasticity. Areas of constantly exposed, dry and prematurely aged skin such as on the hands, elbows, heals and knees ect. become incredibly soft immediately when squalane is applied in the right formulation.
8. Vitis Vinifera / Grape Seed Oil is an ingredient from the Chilean Grape Seed Extract, that is found in Beauté Pacifique products only. It has a unique ability to repair damage in the skin – including repairing the structure and the appearance of stretch marks and scar tissue in general.
18. Centella Asiatica Extract promotes wound healing and re-creates the structure of collagen/elastin in scar tissue. Diminish redness and promotes re-creation of located, diminished skin thickness, as in scar tissue.
19. Pseudoalteromonoas Ferment Extract fights the different mechanisms that cause stretch marks: Protects the connective tissue from decomposing, helps to recreate damaged components of the extracellular tissue, reduces redness, has a wound healing effect and reduces inner muscle tension in the stretched skin.
25. and 28. Marrubium and Vulgare Palmitoyl Tripeptide-5 stimulate the re-creation of lost collagen/elastin and repair the structure in the extracellular tissue. Firm and normalize the elasticity of the scar tissue. Reduce redness.
34. Retinyl Palmitate is a particularly stable form of Vitamin A that we have formulated into our cremes, in a way to maintain its high potency – both during storage and on application to the skin. Encapsulated in nanometer sized droplets of squalane, the Vitamin A can penetrate deep into the skin in sufficient amounts to stimulate the type of cells, that synthesise lost collagen fibre structures providing a younger skin. Wrinkles and fine line diminish and throughout the complete structure of the skin it is significantly rejuvenated. Made possible via our patented combination with squalane that functions as an effective delivery system penetrating through the entire depth of the skin, the Vitamin A transforms into a totally unique and remarkably efficient Anti-Aging action within the skin corresponding to a10-20 years rejuvenation.
35. Tocopherol is a source of Vitamin E that plays an important role by protecting both the skin and the products against harmful free radicals and functions as a natural moisturizer and capable of reducing fine lines and wrinkles.
36. Retinyl Acetate is like Retinyl Palmitate a particularly stable form of Vitamin A and it has a similar remarkable efficient rejuvenation action in the skin working in parallel with and in the same manner as in Retinyl Palmitate. It enables the skin's specialized cells to rebuild and repair sun damaged and aged skin comparable to Retinyl Palmitate.
39. Retinyl Propionate is a third remarkable form of Vitamin A having the highest potency on the market today. It has the capacity to stabilize other forms of Vitamin A and the combined results in the potency are symbiotic.
42. Rooibos Extract (Aspalathus Linearis) is a unique herb found in South Africa that is rich in antioxidants including Aspalathin found only in Rooibos. It is known as the most popular natural product for the care for dry and irritated skin. Numerous scientific publications describe the many benefits of Rooibos and it is known as a valuable natural medicine all over the world.

Recommendation:

It is always important to treat the whole skin and not focus on problem areas only.

Supplement therefore the treatment with Scars & Stripes with Body Lotion and / or facial care.

Apply Scars & Stripes to the skin twice a day and follow relevant skin care.

D-FORCE

Moisturizing Body Creme

The D-FORCE products are breaking news in cosmetics. Lacking Vitamin D can now be channelled into the body via the normal pathway i.e. through the skin. Multiple recent scientific reports conclude that an alarming amount of the population in many countries worldwide, suffer from severe Vitamin D deficit and this has been linked to a large number of diseases. Vitamin D is normally only synthesized in the skin as a result of sunlight exposure and so the reason for the deficit is simply that the awareness of suninduced skin cancers have changed the modern lifestyle to reduce the UV-light exposure dramatically. Our invention to provide the missing Vitamin D via nature's owns pathway is the D-FORCE products - A novel idea based on un-saponified Avocado Oil - a rare vegetable source rich in natural Vitamin D. The amount of vitamin D in the creme is ranging up to a remarkable 250 IU per ml creme and when the product is applied onto the skin Beauté Pacifique's patented nanometric squalane based delivery system serves as the vehicle to bring the Vitamin D through the skin's barrier. Additionally the D-FORCE products are highly potent Vitamin A Anti-Age products and so the D-FORCE products are marketed as potent Anti-Aging skin care with added Vitamin D to compensate for insufficient sun exposure.

The product is a super potent Anti-Aging body creme. Designed to accommodate the modern lifestyle with insufficient suninduced Vitamin D. Rejuvenates the skin significantly and provides Vitamin D to the skin - ranging up to 250 IU per ml body creme. Massage the product well into the skin after showering morning and evening until full penetration is achieved. In cases with exceptionally dry skin conditions follow with Body Lotion - Dry Skin as needed.

Ingredients:

1. Aqua (Water)
2. **Persea Gratissima (Avocado) Oil**
3. Propylene Glycol
4. Glycerin
5. Steareth-20
6. **Squalane**
7. Lanolin
8. Cetyl Esters
9. Cetearyl Alcohol
10. PEG-20 Stearate
11. Caprylic/Capric Triglyceride
12. Polysorbate 20
13. Behenyl Alcohol
14. Persea Gratissima (Avocado) Oil Unsaponifiables
15. Ethoxydiglycol
16. Tocopheryl Acetate
17. Citrus Limon (Lemon) Fruit Extract
18. Aloe Barbadensis (Aloe Vera) Leaf Juice Powder
19. Arachis Hypogaea (Peanut) Oil
20. Isopropyl Palmitate
21. Dimethicone
22. **Retinyl Palmitate**
23. **Retinyl Acetate**
24. **Tocopherol**
25. Phenoxyethanol
26. Ethylhexylglycerin
27. Acrylates/C10-30 Alkyl Acrylate Crosspolymer
28. Lanolin Alcohol
29. Sodium Benzoate
30. Potassium Sorbate
31. Tetrasodium Iminodisuccinate
32. Citric Acid
33. Ascorbic Acid
34. Ascorbyl Palmitate

D0302701-00

Unique Benefits

- *Provides natural Vitamin D supplementary to the skin's own suninduced Vitamin D*
- *Contains two effective types of Vitamin A Esters fighting signs of aging and sun damage*
- *Contains two types of Vitamin E - acting as antioxidants*
- *Note: The product is not marketed as a drug - It is a cosmeceutical*
- *Perfume / fragrance free*

Main Ingredients

2. Persea Gratissima (Avocado) Oil/Avocado Unsaponifiables is rich in Linoleic Acid – an essential substance in healthy skin that the aging skin gradually fails to maintain over time and additionally it is an extremely potent vegetable source of natural Vitamin D. The ingredient can be fully dissolved and integrated with vegetable Squalane and transported into the skin by Beauté Pacifique's patented nanometric delivery system.

6. Squalane is an oil naturally occurring in human skin and is an important part of the lipid system. Its penetration capacity is remarkably high. Nanometer droplets of squalane function as effective "transporters" for the A Vitamins and other oil soluble active ingredients. Young and healthy skin contains a high amount of squalane but the level will decrease dramatically with age. Therefore squalane is absorbed excellently into sun damaged and aged skin. A lack of squalane within the skin can lead to premature aging, very dry skin and a loss of elasticity. Areas of constantly exposed, dry and prematurely aged skin such as on the hands, elbows, heals and knees etc become incredibly soft immediately when squalane is applied in the right formulation.

22. Retinyl Palmitate is a particularly stable form of Vitamin A that we have formulated into our cremes, in a way to maintain its high potency – both during storage and on application to the skin. Encapsulated in nanometer sized droplets of squalane, the Vitamin A can penetrate deep into the skin in sufficient amounts to stimulate the type of cells, that synthesise lost collagen fibre structures providing a younger skin. Wrinkles and fine line diminish and throughout the complete structure of the skin it is significantly rejuvenated. Made possible via our patented combination with squalane that functions as an effective delivery system penetrating through the entire depth of the skin, The Vitamin A transforms into a totally unique and remarkably efficient Anti-Aging action within the skin corresponding to a 10- 20 years rejuvenation.

23. Retinyl Acetate is like Retinyl Palmitate a particularly stable form of Vitamin A and it has a similar remarkable efficient rejuvenating action in the skin working in parallel with and in the same manner as in Retinyl Palmitate. It enables the skin's specialized cells to rebuild and repair sun damaged and aged skin comparable to Retinyl Palmitate.

24. Tocopherol is another source of Vitamin E that plays an important role by protecting both the skin and the products against harmful free radicals and functions as a natural moisturizer and capable of reducing fine lines and wrinkles.

MOISTURIZING BODY LOTION

- Dry Skin

A super potent moisturizing body lotion, which has been well documented to increase the skin's moisture level by an average of 65% after thirty days of treatment. Due to its high content of squalane and Vitamin A this Body Lotion is perfectly well suited for cosmetic treatment of extraordinary dryness connected to for example eczema and psoriasis skin. Works strongly to soothe and instantly calm irritated and sunburned skin.

Unique Benefits

- *Anti-Aging product for the entire body*
- *Provides significantly elevated moisture level and leaves the skin soft for many hours*
- *Provides natural squalane and Vitamin A making the skin much more robust and is outstandingly well suited for severely dry skin conditions*

Ingredients:

1. Aqua (Water)
2. Propylene Glycol
3. **Glycerin**
4. **Squalane**
5. Caprylic/Capric Triglyceride

23. **Tocopherol**
24. **Tocopheryl Acetate**
25. **Retinyl Palmitate**
26. Tetrasodium Iminodisuccinate
27. **Glycyrrhiza Glabra (Licorice) Root Extract**
28. Acrylates/C10-30 Alkyl Acrylate Crosspolymer
29. Parfum (Fragrance)
30. Ascorbic Acid
31. Citric Acid

D0301601-01

Main Ingredients

3. Glycerin is one of the very best and most widely used humectants (moisturizers). It penetrates easily into the epidermis and makes the skin soft and subtle. This vegetable glycerine can without problems be applied to very sensitive skin types. It provides lubrication and leaves the skin soft and silky smooth. It is extremely comforting, to very dry skin types.

4. Squalane is an oil naturally occurring in human skin and is an important part of the lipid system. Its penetration capacity is remarkably high. Nanometer droplets of squalane function as effective "transporters" for the A Vitamins and other oil soluble active ingredients. Young and healthy skin contains a high amount of squalane but the level will decrease dramatically with age. Therefore squalane is absorbed excellently into sun damaged and aged skin. X-TRA DRY SKIN FIX

Extremely Moisturizing And Repairing Creme

A super effective creme helping to maintain a high level of moisture continuously throughout the day. It contains a high concentration of natural squalane leaving a deposit of creme inside the skin's surface, which is reactivated by contact with water, locking in moisture to maintain constant hydration. An absolutely unique aid in helping to treat dry, chapped and damaged skin. Fantastic in treating dry and damaged skin on the hands, feet, elbows and other dry areas. It also works effectively soothing and calming irritation within the skin. Apply the creme morning and evening, or as often as needed.

Unique Benefits

- *Provides a significantly elevated moisture level and softens the skin for many hours*
- *Contains natural squalane and Vitamin A which together make the skin more robust*
- *Specially designed to care for skin with extreme dryness*
- *Perfume / fragrance free*

Ingredients:

1. Aqua (Water)
2. **Glycerin**
3. Behenyl Alcohol
4. Butylene Glycol
5. Stearic Acid
6. **Squalane**

Areas of constantly exposed, dry and prematurely aged skin such as on the hands, elbows, heals and knees etc. become incredibly soft immediately when squalane is applied in the right formulation.

10. Lanolin (Purified Pharmaceutical Quality) plays an important role in maintaining the skin moisture balance and provides a remarkable finely textured skin surface, especially when used in combination with squalane. Previous problems with lanolin allergies are minimised with this product, due to its pharmaceutical purity where all the allergenic impurities have been removed.

14. Tocopherol is another source of Vitamin E that plays an important role by protecting both the skin and the products against harmful free radicals and functions as a natural moisturizer and capable of reducing fine lines and wrinkles.

15. Dipotassium Glycyrrhizinate is the extract from Liquorice Root. This is well known as a wound healing extract, helping to reduce irritation within the skin and providing instant comfort to sensitive skin. It enables the skin to accept strong reacting ingredients with fewer side effects, allowing more effective ingredients to be tolerated by sensitive skin.

18. Citrus Limon Fruit Extract is a natural source of Vitamin C that functions as a strong anti-oxidant and stimulates collagen synthesis. Helping to also recreate the ceramides in the epidermis. Citrus Limon Fruit Extract gently exfoliates the dead skin cells and reduces the problems of excessive oiliness.

HYDRATING HAND CREME

An absolutely unique product to treat dry and chapped skin on hands. It contains an increased level of squalane that maintains a high level of moisture throughout the day leaving a deposit of creme inside the skin's top layers, which is reactivated by contact with water. Excellent at helping to treat dry and damaged skin such as cases of dry eczema and psoriasis. Contains liquorice root extract to reduce the levels of irritation.

Unique Benefits

- *Provides an outstanding softness lasting all day without a greasy feeling*
- *Provides a significantly elevated moisture level for many hours also after washing hands multiple times*
- *Perfectly suited to treat and repair skin with extraordinary dryness*
- *Perfume / fragrance free*

ANTI-CELLULITE GEL

In a clinical trial involving 80 women with cellulite the use of this product reduced the orange peel appearance by an average of 22% after 4 weeks - measured by ultrasound scanning. The thigh circumference was reduced by 7 mm. 3 out of 4 claimed that this was the best cellulite product they had ever used. Apply the cellulite gel once or twice a day ideally after bathing while the skin is still damp by a strong pinching action and vigorously massage into the skin.

Unique Benefits

- *The reduction of the orange peel look is substantiated by ultrasound scanning*
- *Provides an excellent reduction of the edema where the very deepest layers of the skin meet the subcutaneous fatty layer*
- *Provides a pleasant cool feeling due to the content of menthol*
- *Moisturizes like a body lotion*

Ingredients:

1. Aqua (Water)
2. **Glycerin**
3. Polysorbate 20
4. Propanediol
5. Propylene Glycol
6. Iodized Hydrolyzed Zein
7. **Ruscus Aculeatus Root Extract**

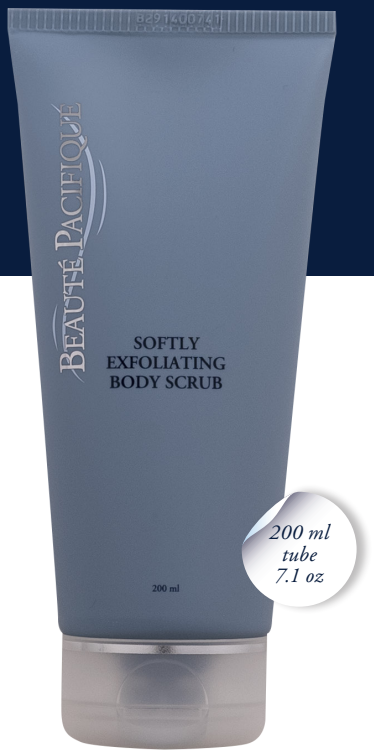
SOFTLY EXFOLIATING BODY SCRUB



200 ml tube 7.1 oz

Gently exfoliates and hydrates using perfectly rounded pearls. Apply on damp skin and massage using circular motions – this gently loosens the dead surface of the skin and additionally deposits a soothing layer of oil onto the skin, providing lubrication and a softening of the skin, leaving it with a protective hydrating barrier. The skin is left feeling fresh, with a youthful glow. Follow with Beauté Pacifique's Body Lotion.

Unique Benefits

- *Gently exfoliates using round pearls, without causing irritation to sensitive skin*
- *Exfoliates without the use of harmful chemical peels, which are known to thin the skin*
- *Leaves the skin with a smooth texture and an elevated moisture level*
- *Contains Liquorice Root Extract, which is known to soothe irritation*

Ingredients:

PIT STOP

A Biologically working roll-on deodorant

You can use PIT STOP as often as needed to keep your skin fresh and dry for a long time. PIT STOP is the new biologically working Roll-On Deodorant from Beauté Pacifique. This amazing "Deo" is a great help for preventing both little and serious problems from perspiration that shows and from unpleasant body odor. We have named the deodorant "PIT STOP", because it also delivers a fast track for instant help for armpits, when unexpected discomfort from perspiration and unpleasant body odor is the situation. PIT STOP is an advanced next-generation deodorizing-product with Beauté Pacifique's own and newly invented technology that mimics the action of medical Botulinum Toxine. The deodorant contains two biological actives that put the sweat glands to sleep, where commonly known deodorant-products typically use only aluminum salts with limited effect. PIT STOP also contains the plant extract Chelidonine that reduces hair growth in the armpits and makes the hair straws thinner. You can use PIT STOP as often as needed - to prevent and relieve problems with the advanced formula of PIT STOP only a small amount of product is necessary per application. This makes the product very economical in use and reduces the risk of discolored blouses.

Ingredients:

1. Aqua (Water)
2. **Aluminium Chlorohydrate**
3. PPG-3 Benzyl Ether Myristate
4. Steareth-20
5. Propylene Glycol
6. Steareth-2
7. Caprylic/Capric Triglyceride
8. **Glycerin**
9. Alcohol
10. Butylene Glycol
11. Cetearyl Alcohol
12. **Spilanthes Acmella Flower Extract**
13. **Dipeptide Diaminobutyroyl Benzylamide Diacetate**
14. **Chelidonine**
15. Phenoxyethanol
16. Ethylhexylglycerin
17. Laureth-4
18. Tetrasodium Iminodisuccinate

D0303401-00

Unique Benefits

- *Instant and efficiently help whenever needed*
- *Puts the sweat glands to sleep*
- *Mimics Botulinum Toxine injections without needles*
- *Contains Chelidonine, which reduces hair growth*
- *Perfume / fragrance free*

Main Ingredients

2. Aluminium Chorohydrate is an aluminum salt well-known for its ability to reduce sweat especially in the arm pits. By closing the opening of the sweat glands this salt reduces the flow of sweat emerging on the surface of the skin so the amount of moist in the armpit is reduced.

8. Glycerin is one of the very best and most widely used humectants in skin care creams. It penetrates easily into the epidermis and makes the skin soft and subtle. This vegetable glycerin can be safely applied to very sensitive skin types. It provides lubrication and leaves the skin soft and silky smooth. It is extremely comforting to all skin types.

12. Spilanthes Acmella Flower Extract is an exotic plant extract in PIT STOP. It relaxes the skin's sweat and sebum glands in a way that can be compared with the Dermatologist's injections of Botulinum Toxin in patients with severe sweat problems.
In PIT STOP Beauté Pacifique uses its world patented knowledge about efficiently delivery systems that enable non-medical products to transport active ingredients deeply into the skin. This active ingredient puts the sweat glands to sleep, reducing the production of both sweat and sebum/tallow. The result is less moist and odor.

13. Dipeptide Diaminobutyroyl Benzylamide Diacetate is a molecular design made as a close copy of snake venom. The snake is using its venom to paralyze its prey. The ingredient is manufactured by a major Swiss drug / snake-serum company and was rewarded for advanced technology excellence. When used in advanced skin care products, this ingredient reduces the sweat by relaxing the muscles, similar to the effect of Botulinum Toxin injections. Beauté Pacifique takes this active ingredient a step further to relax the armpit glands so the production of both sweat and tallow becomes reduced whereby the feeling of moist and odour get diminished.

14. Chelidonine provides PIT STOP with three important properties that benefit the skin in the armpits. Chelidonine has an anti-inflammatory effect, so the skin turns less red when you remove unwanted hair. Chelidonine also reduces the growth rate at which the hair re-appears after removal.
Chelidonine additionally affects the hair follicles, so the individual hair straws become thinner and softer over time.

MILD SHOWER GEL

This shower gel is composed of ingredients that cleanse the skin without imposing any dryness to the skin. Milder to the skin than pure water, despite its excellent cleansing capabilities and can be used even on the most sensitive skin. Leaves the skin clean, soft and ready for the application of body lotion.

Unique Benefits

- *Extremely mild to the skin with less irritation to the skin than pure water*
- *Can be used on sensitive skin on a daily base*
- *Contains lemon extract that leaves the skin with a fresh and oilfree surface*
- *Does not dry the skin*

Ingredients:

1. Aqua (Water)
2. **Disodium Laureth Sulfosuccinate**
3. Cocamide DEA
4. **Glycerin**
5. Cocamidopropyl Betaine
6. **PEG-7 Glyceryl Cocoate**
7. **Sodium Laureth Sulfate**
8. Propylene Glycol
9. **Citrus Limon (Lemon) Fruit Extract**
10. Phenoxyethanol
11. Caprylyl Glycol
12. Sorbic Acid
13. Polyquaternium-16
14. Laureth-4

18. Formic Acid
19. Sodium Benzoate
20. Potassium Sorbate
21. Citric Acid
22. Parfum (Fragrance)

D0301301-00

Main Ingredients

2. Disodium Laureth Sulfosuccinate is a very mild tenside by itself and plays an important role in the complex group of simultaneously active substances in our formulation, which creates an extremely mild shampoo. (A Tenside separates all kinds impurities from their adhesion to a surface i.e the hair)

4. Glycerin is one of the very best and most widely used humectants (moisturizers). It penetrates easily into the epidermis and makes the skin soft and subtle. This vegetable glycerine can without problems be applied to very sensitive skin types. It provides lubrication and leaves the skin soft and silky smooth. It is extremely comforting, to very dry skin types.

6. PEG-7 Glyceryl Cocoate is another mild tenside playing an important role in the complex group of simultaneously active substances in our formulation.

7. Sodium Laureth Sulfate a mild tenside playing an important role in the complex group of simultaneously active substances in our formulation which creates an extremely mild shampoo, separating the impurities from the surface of the hair.

9. Citrus Limon Fruit Extract is a natural source of Vitamin C that functions as a strong anti-oxidant and stimulates collagen synthesis. Helping to also recreate the ceramides in the epidermis. Citrus Limon Fruit Extract gently exfoliates the dead skin cells and reduces the problems of excessive oiliness.

VOLUMIZING SHAMPOO

- Fine Hair

This shampoo is milder than water. The recipe has been carefully developed to rinse well without irritating the scalp. Leaves your hair with a natural gloss. Extremely well tolerated by sensitive skin and leaves the scalp with an intact barrier function. The shampoo inhibits the development of dandruff often caused by irritant products and too frequent shampooing. Creates a sensation of more bounce and body. Use a very little amount and mix with water in your palms before applying. Massage the scalp very gently to avoid mechanical irritation and further dandruff development. Note: Low foam building due to the selection of only minimally irritating ingredients.

Unique Benefits

- *Ideal for everyone - even with problems of dandruff and irritated scalp*
- *Particularly good for thin and fine hair and adds volume*
- *Milder than water against the scalp*
- *Most effective at preventing scalp dryness*

Ingredients:

1. Aqua / Water
2. **Disodium Laureth Sulfosuccinate**
3. **Cocamide DEA**
4. **PEG-7 Glyceryl Cocoate**
5. Cocamidopropyl Betaine
6. PEG-18 Glyceryl Oleate/Cocoate
7. **Sodium Laureth Sulfate**
8. Polyquaternium-16
9. Phenoxyethanol
10. Caprylyl Glycol

Hydrating Hair Mask is an excellent moisture boosting hair treatment developed to restore the moisture balance in dry and/or damaged hair. Hydrating Hair Mask nourishes and adds moisture deep down leaving the hair soft and easy to comb with a healthy glossy look.

Hydrating Hair Mask revitalizes the hair by rebuilding the structure of the hair strands, improving the elasticity, and preventing broken ends. The hair treatment is enriched with macadamia nut oil bringing essential nutrients to the hair adding further softness and beautiful shine to the hair.

Distribute the hair treatment in washed hair and massage into your hair. Leave the treatment in for 10 minutes, preferably longer and then rinse thoroughly. Use the hair treatment 1-2 times per week or as needed.

Unique Benefits

- *Adds moisture for a soft and shiny look.*
- *Prevents split and broken ends.*
- *Revitalizes and strengthens the hair.*
- *Eases the combing process.*
- *Adds heat protection.*

Main Ingredients

2. Cetyl Alcohol, 6. Behentrimonium Methosulfate and 9. C10-40 Isoalkylamidopropylethyldimonium Ethosulfate Constitutes together caring components which rebuilds the natural defense of the hair against daily wear and tear. The ingredients also result in a shiny gloss and make the hair easier to comb as it possesses lubricating abilities.

3. Cetearyl Alcohol og 6. Behentrimonium Methosulfat Function together with excellent conditioning, causing less irritation and with exceptional mildness. Results also in less skin skin and scalp irritation.

4. Macadamia Ternifolia Seed Oil is a nourishing and natural oil extracted from macadamia nuts. The nurturing oil results in velvet and glossy hair.

5. Panthenol is a kind of Vitamin B, which adds moisture to hair and protects against brittleness. Recreates the lipid shine of hair and prevents excessive dryness.

11. Amodimethicone provides the following benefits:
- Intensive hair conditioning
- Gives a beautiful shine to the hair
- Efficiency lasts through numerous washes.

Amodimethicone is degradable in nature.

12. Starch Hydroxypropyl Trimonium Chloride. Opposes frizz and makes the hair easier to comb and results in a soft and silky look.

13. Silicone Quaternium-18 eases the combing process and has a lubricating effect on the hair strands. Makes the hair soft and gives volumen. Degradable in nature.

16. Beta Vulgaris (Beet) Root Extract Extract of sugar beet. Improves the hair manageability and gives the hair heat protecting abilities. The ingredient do also protects against color fading in colored hair.

STAY BEAUTIFUL

Sunscreen For Face And Décolleté

Stay Beautiful is a modern and luxurious sunscreen for face and décolleté with a double Anti-Age effect.

The unique combination of UV filters in Stay Beautiful efficiently protects against both UVA and UVB radiation. It prevents the sunburns and sundamages that will otherwise age and damage the skin prematurely. On top of that, a strong antioxidant Anti-Age effect is provided from Resveratrol and Procyanidins from our special Chilean Grape Seed Extract (GSPE) along with Vitamin E. The product does not contain perfume.

Apply STAY BEAUTIFUL liberally and evenly on face and décolleté before being exposed to the sun. Reapply after bathing. Finish your day applying Stay Cool - Cooling After Sun Lotion to add moisture and have a pleasant cooling relaxation.

Unique Benefits

- *High SPF (30)*
- *Double Anti-Age effect*
- *Prevents sunburns and sun damages*
- *Protects against UVA and UVB radiation*

Ingredients:

1. Aqua (Water)
2. **Octocrylene**
3. **Homosalate**
4. **Butyl Methoxydibenzoylmethane**
5. C12-15 Alkyl Benzoate
6. **Glycerin**
7. **Titanium Dioxide (nano)**
8. Butylene Glycol Dicaprylate/Dicaprate

D0303701-00

Main Ingredients

2. Octocrylene is a liquid chemical sun filter that absorbs UVB radiation

3. Homosalate is a liquid chemical sun filter that absorbs UVB radiation

4. Butyl Methoxydibenzoylmethane is a liquid chemical sun filter that absorbs UVA radiation

6. Glycerin is one of the very best and most widely used humectants (moisturizers). It penetrates easily into the epidermis and makes the skin soft and subtle. This vegetable glycerine can be applied to very sensitive skin types. It provides lubrication and leaves the skin soft and silky smooth. It is extremely comforting to very dry skin types.

7. Titanium Dioxide is a micronized mineral powder/a physical filter that reflects both UVA and UVB radiation.

14. Phenylbenzimidazole Sulfonic Acid is a liquid chemical Sun Filter that absorbs UVB radiation.

15. Vitis Vinifera/ Grape Seed Oil (GSPE). This special Chilean oil contains a certain amount of Resveratrol and a significant amount of Procyanidin. Comprehensive medical documentation proves that both Resveratrol and Procyanidin can delay aging and prolong the cells' lifespan – and therefore this product keeps the skin young and healthy for a longer time.

21. Tocopheryl Acetate is a type of Vitamin E that plays an important role by protecting both the skin and the products against harmful free radicals.

STAY COOL

Cooling After Sun Lotion

Stay Cool - Cooling After Sun Lotion actively cools and eases irritated and sunburned skin. Licorice Root Extract effectively reduces redness while Vitamin A provides an Anti-Age effect.

Enriched with Vitamins C, E and natural Squalane it penetrates deeply and helps to re-establish and maintain the moisture balance of the skin leaving it smooth and soft. Scientific studies have proven, that the ingredient Menthyl PCA has a repellent effect on mosquitos. Use Stay Cool - Cooling After Sun Lotion after sunbathing and whenever the skin feels red, stressed or dehydrated.

Unique Benefits

- *Cools and eases*
- *Reduces redness*
- *Great Anti-Age effect*
- *Re-establishes and maintains the moisture balance*
- *Mosquito repellant*

29. Ascorbic Acid
30. Citric Acid

D0303901-00

Main Ingredients

3. Squalane an oil naturally occurring in human skin and is an important part of the lipid system. Its penetration capacity is remarkably high. Nanometer droplets of squalane function as effective "transporters" for the A-vitamins and other oil soluble active ingredients. Young and healthy skin contains a high amount of squalane but the level will decrease dramatically with age. Therefore squalane is absorbed excellently into sun damaged and aged skin.
A lack of squalane within the skin can lead to premature aging, very dry skin and a loss of elasticity. Areas of constantly exposed, dry and prematurely aged skin such as on the hands, elbows, heals and knees etc become incredibly soft immediately when squalane is applied in the right formulation.

4. Glycerin is one of the very best and most widely used humectants (moisturizers). It penetrates easily into the epidermis and makes the skin soft and subtle. This vegetable glycerine can without problems be applied to very sensitive skin types. It provides lubrication and leaves the skin soft and silky smooth. It is extremely comforting to very dry skin types.

8. Menthyl PCA is added for a longlasting cooling effect on the skin, providing a touch of freshness after a warm summer day in the sun. Also, studies have shown that this ingredient acts as a mosquito repellant.

9. Lanolin (Purified Pharmaceutical Quality) plays an important role in maintaining the skin moisture balance and provides a remarkable finely textured skin surface, especially when used in combination with squalane. Previous problems with lanolin allergies are minimised with this product, due to its pharmaceutical purity where all the allergenic impurities have been removed.

15. Aloe Barbadensis (Aloe Vera) Leaf Juice Powder is a natural raw material that functions as a natural humectant, and is well known for its soothing and healing properties.

16. Glycyrrhiza Glabra/Licorice Root Extract is the extract from Liquorice Root. This is well known as a wound healing extract, helping to reduce irritation within the skin and providing instant comfort to sensitive skin. It enables the skin to accept strong reacting ingredients with fewer side effects, allowing more effective ingredients to be tolerated by sensitive skin.

17. Citrus Limon Fruit Extract is a natural source of Vitamin C that functions as a strong anti-oxidant and stimulates collagen synthesis. Helping to also recreate the ceramides in the epidermis. Citrus Limon Fruit Extract gently exfoliates the dead skin cells and reduces the problems of excessive oiliness.

18. Retinyl Palmitate is a particularly stable form of Vitamin A that we have formulated into our cremes, in a way to maintain its high potency – both during storage and on application to the skin. Encapsulated in nanometer sized droplets of squalane, the Vitamin A can penetrate deep into the skin in sufficient amounts to stimulate the type of cells, that synthesise lost collagen fibre structures providing a younger skin. Wrinkles and fine line diminish and throughout the complete structure of the skin it is significantly rejuvenated. Made possible via our patented combination with squalane that functions as an effective delivery system penetrating through the entire depth of the skin, the Vitamin A transforms into a totally unique and remarkably efficient Anti-Aging action within the skin corresponding to a 10-20 years rejuvenation.

19. Tocopherol is a source of Vitamin E that plays an important role by protecting both the skin and the products against harmful free radicals and functions as a natural moisturizer and capable of reducing fine lines and wrinkles.

20. Tocopheryl Acetate is a type of Vitamin E that plays an important role by protecting both the skin and the products against harmful free radicals.

STAY NATURAL SUN SPRAY

Sunscreen for face and body

Stay Natural Sun Spray is an innovative and unique sun oil for the entire body and face. This modern UV filter system effectively protects against harmful UVA and UVB radiation.

Stay Natural Sun Spray contains a biomimetic peptide, acetyl hexapeptide-1, which induces the skin's natural sun protection mechanism by improving the melanin pigmentation. Vitamin E together with Resveratrol and Procyanindins from our special Chilean Grape Seed Extract (GSPE) provides a strong anti-oxidative impact effectively protecting the skin against free radicals.

Stay Natural Sun Spray enhances a beautiful tan glow while also protecting against sun-related cellular DNA damage leading to inflammation and redness.

Apply Stay Natural Sun Spray liberally and evenly over the entire body and face before being exposed to the sun. It is recommended to apply Stay Natural Sun Spray several times a day – always reapply after bathing - to maintain the sun protection.

Unique Benefits

- *Protects against UVA and UVB radiation*
- *Prevents age-related sun damages*
- *Prevents sunburns with SPF20*
- *Results in a beautiful tanned look*

Ingredients:

1. Caprylic/Capric Triglyceride

17. Denatonium Benzoate

Main Ingredients

4. Diethylhexyl Butamido Triazone is a liquid chemical sun filter that absorbs UVA and UVB radiation.

5. Bis-Ethylhexyloxyphenol Methoxyphenyl Triazine is a liquid chemical sun filter that absorbs UVA and UVB radiation.

7. Butyl Methoxydibenzoylmethane is a liquid chemical sun filter that absorbs UVA radiation.

10. Squalane is an oil naturally occurring in human skin and is an important part of the lipid system. Its penetration capacity is remarkably high. Nanometer droplets of squalane function as effective "transporters" for the A Vitamins and other oil soluble active ingredients. Young and healthy skin contains a high amount of squalane but the level will decrease dramatically with age. Therefore squalane is absorbed excellently into sun damaged and aged skin. A lack of squalane within the skin can lead to premature aging, very dry skin and a loss of elasticity. Areas of constantly exposed, dry and prematurely aged skin such as on the hands, elbows, heals and knees etc. become incredibly soft immediately when squalane is applied in the right formulation.

11. Acetyl Hexapeptid-1 is a peptide which stimulates the skin to produce more of the natural coloring melanin pigmentation similar to the skin's natural defense against the sun. The skin will therefore achieve a healthy-looking tanned skin glow. The skin will furthermore be protected from sun damages as the peptide also stimulates DNA repair and anti-inflammatory actions. The prevention of these harmful actions will inhibit sun-induced aging while achieving an attractive tan.

12. Vitis Vinifera (Grape) Seed Oil (GSPE). This special Chilean oil contains a certain amount of Resveratrol and a significant amount of Procyanidin. Comprehensive medical documentation proves that both Resveratrol and Procyanidin can delay aging and prolong.

15. Tocopherol Acetate is a type of Vitamin E that plays an important role by protecting both the skin and the products against harmful free radicals.

STAY TANNED

Self-tanning lotion for face and body

Stay Self-Tanning Lotion is a perfect alternative to sun exposure, it offers an immediately moisturized skin with a naturally beautiful golden tan.

By combining the two self-tanning actives, DHA and Erythrulose, the effect is optimized resulting in a more natural-looking, even and long-lasting tan, visible within 2-4 hours after application.

Its fluid and light texture ensures an easy use and even application, preventing the risk of streaking. It absorbs quickly and leaves the skin soft, silky and velvety.

Apply a thin, even layer of Stay Self-Tanning Lotion onto clean dry skin - it is recommended to exfoliate prior to use with either Bio-Dermabrasion Peeling Wipes or Softly Exfoliating Body Scrub. Wash hands thoroughly after use. Repeat application to adjust the intensity of your tan and reapply every 4-7 day to maintain you tan.

Unique Benefits

- *Rich hydrating formula that leaves the skin soft and moisturized*
- *Easy use for an even and natural look without streaks*
- *Gives a beautiful and long-lasting tanned look*
- *One product for face and body*

Ingredients:

1. Aqua (Water)
2. **Coco-Caprylate/Caprate**
3. Butyrospermum Parkii Butter
4. Propylene Glycol
5. Squalane
6. **Dihydroxyacetone**
7. Glycerin
8. **Erythrulose**
9. Lecithin
10. Distarch Phosphate
11. **Acetyl Hexapeptide-1**
12. **Saccharide Isomerate**
13. Isopropyl Palmitate
14. Polyacrylate Crosspolymer-6
15. Magnesium Stearate
16. Phenoxyethanol
17. Sodium Metabisulfite
18. Ethylhexylglycerin
19. Sodium Citrate
20. Citric Acid

Main Ingredients

2. Coco-Caprylate/Caprate is a naturally derived extra light emollient that absorbs and spreads quickly leaving a soft and powdery after-feel on skin. It creates an invisible and ultra-silky film that provides long-term moisturization.

6. Dihydroxyacetone (DHA) is a self-tanning agent that helps achieve a natural and healthy-looking tan in just a few hours. DHA reacts with amino acids found on the skin's epidermal layer to produce pigments called melanoidins (similar to naturally occuring melanins - pigments formed in natural tanning). Beauté Pacifique uses a uniquely stabilized version of DHA which significantly reduces the formation of degradations products and thereby eliminating the unpleasant odor usually associated with self-tanning products.

8. Erythrulose is a self-tanning agent similar to DHA. The reaction of erythrulose with skin is slow and gentle, which makes it possible to produce a natural, long lasting, even tan without streaks. Erythrulose ensures a longer lasting tan and optimizes the efficacy of DHA by enhancing the color to give a natural, homogeneous and glowing skin tone.

11. Acetyl Hexapeptid-1 is a peptide which stimulates the skin to produce more of the natural coloring melanin pigmentation similar to the skin's natural defense against the sun. The skin will therefore achieve a healthy-looking tanned skin glow. The skin will furthermore be protected from sun damages as the peptide also stimulates DNA repair and anti-inflammatory actions. The prevention of these harmful actions will inhibit sun-induced aging while achieving an attractive tan.

12. Saccharide Isomerate is a 100% naturally derived plant extract that mimics the natural hydration process, boosting the skin's moisture retention capabilities, and protecting the skin against dehydration and sensitivity. It binds deep within the outer layers of skin, meaning hydration continues long after application

PURIFYING FOAM CLEANSER

Cleansing foam for men

Ingredients:

1. Aqua (Water)
2. **Potassium Stearate**
3. **Potassium Laurate**
4. **Potassium Myristate**
5. **Potassium Palmitate**
6. **Glycerin**
7. PEG-7 Glyceryl Cocoate
8. Glyceryl Stearate
9. PEG-100 Stearate
10. Propylene Glycol
11. Phenoxyethanol
12. Ethylhexylglycerin
13. Cetearyl Alcohol
14. Tridecyl Stearate
15. Tridecyl Trimellitate
16. Dipentaerythrityl Hexacaprylate/Hexacaprate
17. Tetrasodium Iminodisuccinate
18. **Glycyrrhiza Glabra (Licorice) Root Extract**
19. **Parfum (Fragrance)**

D0305101-00

This Foam Cleanser is a "One Step" facial cleanser/cleansing foam, designed for all skin types to provide a fast yet gentle cleansing.

Use it both morning and evening. Mix the foam with water in your palm and lather before applying to face and neck. Rinse thoroughly with plenty of water.

Clears clogged pores and leaves a smooth and radiant skin.

Unique Benefits

- *Removes excessive oily residue and cleanses effectively without irritation or drying the skin*
- *Fights clogged pores*
- *Leaves the skin with a smooth texture at an elevated moisture level*
- *Well suited for all skin types*

Main Ingredients

2. Potassium Stearate and **3. Potassium Laurate** and **4. Potassium Myristate** and **5. Potassium Palmitate** together constitute to a mixture of cleansing ingredients that altogether provides a remarkably mild and deep cleansing action.

6. Glycerin is one of the very best and most widely used humectants (moisturizers). It penetrates easily into the epidermis and makes the skin soft and subtle. This vegetable glycerine can without problems be applied to very sensitive skin types. It provides lubrication and leaves the skin soft and silky smooth. It is extremely comforting to very dry skin types.

18. Glycyrrhiza Glabra / Licorice Root Extract is the extract from Liquorice Root. This is well known as a wound healing extract, helping to reduce irritation within the skin and providing instant comfort to sensitive skin. It enables the skin to accept strongly reacting ingredients with fewer side effects, enabling more effective ingredients to be tolerated by sensitive skin.

19. Parfum / Fragrance Recently developed masculin fragrance, that is compounded without allergens that need to be declared separately.

DOUBLE ACTION FACIAL SCRUB

Exfoliating creme for men

This Facial Scrub is a very efficient exfoliating creme with cellulose beads to exfoliate dead skin cells. Loosens mechanically excessive cells. Exfoliates simultaneously biologically leaving the skin with a youthful glow. Contains Propolis and Rooibos to fight problems with impure skin.

Use the exfoliator 1-3 times a week - or as needed. Massage gently on moist skin with circular fingertips motion - leave the creme to react biologically on the skin for up to 20 minutes and then rinse off with plenty of water.

Unique Benefits

- *Exfoliates the skin for a smoother and younger appearance*
- *Removes dead skin cells*
- *Increases the moisture level in the skin*
- *Stimulates blood circulation*
- *Opens clogged pores and works against inflammation in impure skin*

Ingredients:

1. Aqua (Water)
2. Glyceryl Stearate
3. C12-15 Alkyl Benzoate
4. Propylene Glycol
5. Polyglyceryl-3-Methylglucose Distearate
6. Polysorbate 60
7. **Glycolic Acid**
8. **Cellulose Acetate**
9. **Glycerin**
10. Stearic Acid
11. **Salicylic Acid**
12. Sodium Hydroxide
13. **Azelaic Acid**
14. **Propolis Cera Water Extract (PWE)**
15. **Salix Alba (Willow) Bark Extract**
16. Phenoxyethanol
17. Ethylhexylglycerin
18. Xanthan Gum
19. **Glycyrrhiza Glabra (Licorice) Root Extract**
20. Tetrasodium Iminodisuccinate
21. Maltodextrin
22. Aspalathus Linearis Leaf (Rooibos) Extract
23. Parfum (Fragrance)

D0305001-00

Main Ingredients

7. Glycolic Acid is an extremely good exfoliator due to its great ability to penetrate and remove dead skin cells from the skin surface. Glycolic Acid also increases the moisture level in the skin.

8. Cellulose Acetate is round microscopic pearls that loosen dead skin cells without harming live cells. Please note that these pearls are of natural origin and can be fully degraded without leaving pollution.

9. Glycerin is one of the very best and most widely used humectants (moisturizers). It penetrates easily into the epidermis and makes the skin soft and subtle. This vegetable glycerine can without problems be applied to very sensitive skin types. It provides lubrication and leaves the skin soft and silky smooth. It is extremely comforting to very dry skin types.

11. Salicylic Acid is a key ingredients in the treatment of many skin disorders, for an example Acne and Psoriasis. Salicylic Acid dissolves dead skin cells, opens clogged pores and prevents them from clogging again.

12. Azelaic Acid is known as an efficient ingrediens for the treatment of Acne and Rosacea. Azelaic Acid reduces and removes blushing, prevents pores from clogging and works against the bacteria that help cause Acne.

14. Propolis Cera Water Extract (PWE) is nature's own defence against microbial infections found in beehives where it protects the bees from diseases and fungal infections.

15. Salix Alba Bark / Willow Extract works against inflammation in impure skin.

19. Glycyrrhiza Glabra / Licorice Root Extract is the extract from Liquorice Root. This is well known as a wound healing extract, helping to reduce irritation within the skin and providing instant comfort to sensitive skin. It enables the skin to accept strongly reacting ingredients with fewer side effects, enabling more effective ingredients to be tolerated by sensitive skin.

MOISTURIZING DAY CREME

Day creme for men

A perfect moisturizer for masculine skin giving lots of long lasting moisture.

Contains Squalane, that quickly gets absorbed and softens remarkably. Contains Hyaluronic Acid to maintain a high level of moisture throughout the day. Adds Niacinamide and Sodium PCA to bind extra moisture - also in the skin's surface.

Massage the creme gently into cleansed skin - sparingly on both face and neck. Adjust the amount to your skin so no residual creme is felt after a few minutes.

Unique Benefits

- *Adds instant moisture - without a greasy residue*
- *Softens the skin - without leaving a shine*
- *Makes the skin look masculine radiant with a pleasant fragrance*

Ingredients:

1. Aqua (Water)
2. **Niacinamide**
3. Sorbitol
4. Propylene Glycol
5. C10-30 Cholesterol/Lanosterol Esters
6. Behenyl Alcohol
7. Glyceryl Stearate
8. PEG-100 Stearate
9. Cetearyl Alcohol
10. PEG-20 Stearate
11. Methyl Gluceth-20
12. Dimethicone
13. **Squalane**
14. Diethylhexyl Succinate
15. **Sodium PCA**
16. **Sodium Hyaluronate**
17. **Aloe Barbadensis (Aloe Vera) Leaf Juice Powder**
18. Phenoxyethanol
19. Ethylhexylglycerin
20. Lactic Acid
21. PEG/PPG-4/12 Dimethicone
22. Tridecyl Stearate
23. Tridecyl Trimellitate
24. Dipentaerythrityl Hexacaprylate/Hexacaprate
25. **Tocopheryl Acetate**
26. Acrylates/C10-30 Alkyl Acrylate Crosspolymer
27. **Tocopherol**
28. Tetrasodium Iminodisuccinate
29. **Hydrolyzed Collagen**
30. **Parfum (Fragrance)**

D0305201-00

Main Ingredients

2. Niacinamide works especially in the extracellular space (the 'mortar' that keeps the cells together). It prolongs the biological processes that control both the cohesion between the cells and the processes maintaining the functions of the dehydrating cells as long as possible, until they are shed from the surface.

13. Squalane is an oil naturally occurring in human skin and is an important part of the lipid system. Its penetration capacity is remarkably high. Nanometer droplets of squalane function as effective "transporters" for the A Vitamins and other oil soluble active ingredients. Young and healthy skin contains a high amount of squalane but the level will decrease dramatically with age. Therefore squalane is absorbed excellently into sun damaged and aged skin. A lack of squalane within the skin can lead to premature aging, very dry skin and a loss of elasticity. Areas of constantly exposed, dry and prematurely aged skin such as on the hands, elbows, heals and knees etc. become incredibly soft immediately when squalane is applied in the right formulation.

15. Sodium PCA works as a very efficient humectant with the ability to increase the level of moisture in the skin and maintain the moisture for many hours.

16. Sodium Hyaluronate and **29. Hydrolyzed Collagen** is a mixture of two ingredients that together build an invisible shield of moisture binding barrier on the surface of the skin, to enable the skin to maintain its elevated level of moisture within the epidermis.

17. Aloe Barbadensis Leaf Juice Powder is a natural raw material that functions as a natural humectant, and is well known for its soothing and healing properties.

25. Tocopheryl Acetate is a type of Vitamin E that plays an important role by protecting both the skin and the products against harmful free radicals.

27. Tocopherol is another source of Vitamin E that plays an important role by protecting both the skin and the products against harmful free radicals and functions as a natural moisturizer and capable of reducing fine lines and wrinkles.

30. Parfum / Fragrance Recently developed masculine fragrance, that is compounded without allergens that need to be declared separately.

Related Products:

ANTI-AGE CREME

Anti-age creme for men

A very powerful Vitamin-A creme, that effectively prevents and repairs aging and sun damages.
The creme contains 2 super effective types of Vitamin A, in a Squalane delivery system that makes the vitamins penetrate so deeply that the skin's own cells can regenerate the lost collagen/elastin structure in full depth - now appearing as a younger skin!
Reduces the skin's oily substances and contains Propolis to fight impurities - also in teenage skin. Contains Rooibos and Hordeum Vulgare to reduce skin irritation/redness and defy new UV-damages.
Apply the creme sparingly in face and neck - start by applying every second day during the first two weeks to let the skin adapt without causing redness.

Unique Benefits

- *Signs of aging and sun damages*
- *Problems with oily skin*
- *Thin and saggy skin*

Ingredients:

1. Aqua (Water)
2. Glycerin
3. Glyceryl Stearate
4. **Squalane**
5. **Argania Spinosa Kernel Extract**
6. Butyrospermum Parkii (Shea) Butter Extract
7. PEG-100 Stearate
8. Diethylhexyl Succinate
9. Dimethicone
10. Tocopheryl Acetate
11. Cetearyl Alcohol
12. **Hordeum Vulgare Cera (Spent Grain Wax)**
13. **Argania Spinosa (Argan) Kernel Oil**
14. **Serenoa Serrulata Fruit Extract**
15. **Sesamum Indicum (Sesame) Seed Oil**
16. Beta-Sitosterol
17. Tocopherol
18. **Marrubium Vulgare Extract**
19. Sodium Benzoate
20. Potassium Sorbate
21. Phenoxyethanol
22. Ethylhexylglycerin
23. Saccharide Isomerate
24. Tridecyl Stearate
25. Tridecyl Trimellitate
26. Dipentaerythrityl Hexacaprylate/Hexacaprate
27. Sodium Lactate
28. PEG/PPG-4/12 Dimethicone
29. **Retinyl Palmitate**
30. **Retinyl Acetate**
31. Arachis Hypogaea (Peanut) Oil
32. **Propolis Cera Water Extract (PWE)**
33. Behenyl Alcohol
34. **Glycyrrhiza Glabra (Licorice) Root Extract**
35. Tetrasodium Iminodisuccinate
36. Maltodextrin
37. **Aspalathus Linearis (Rooibos) Leaf Extract**
38. Acrylates/C10-30 Alkyl Acrylate Crosspolymer
39. Citric Acid
40. **Parfum (Fragrance)**

D0305301-01

Main Ingredients

4. Squalane is an oil naturally occurring in human skin and is an important part of the lipid system. Its penetration capacity is remarkably high. Nanometer droplets of squalane function as effective "transporters" for the A Vitamins and other oil soluble active ingredients. Young and healthy skin contains a high amount of squalane but the level will decrease dramatically with age. Therefore squalane is absorbed excellently into sun damaged and aged skin. A lack of squalane within the skin can lead to premature aging, very dry skin and a loss of elasticity. Areas of constantly exposed, dry and prematurely aged skin such as on the hands, elbows, heals and knees etc. become incredibly soft immediately when squalane is applied in the right formulation.

5, 13, 14, 15. Sebum-regulating is a remarkable mixture of natural extracts that significantly decreases the skin's production of sebum. This reduces severe and stubborn problems with pimples and impurities. Especially impurities prone to hormonal imbalances within the skin can be treated effectively. The mode of action is based on inhibiting the synthesis of testosterone, which again is the hormone that regulates the secretion of sebum.

12. Hordeum Vulgare Cera / Spent Grain Wax is anti-inflammatory and soothing on skin, that easily gets irritated or blushes.

18. Marrubium Vulgare stimulates the re-creation of lost collagen/elastin and repair the structure in the extracellular tissue. Firm and normalize the elasticity of the scar tissue. Reduce redness.

29. Retinyl Palmitate is a particularly stable form of Vitamin A that we have formulated into our cremes, in a way to maintain its high potency – both during storage and on application to the skin. Encapsulated in nanometer sized droplets of squalane, the Vitamin A can penetrate deep into the skin in sufficient amounts to stimulate the type of cells, that synthesise lost collagen fibre structures providing a younger skin. Wrinkles and fine line diminish and throughout the complete structure of the skin it is significantly rejuvenated. Made prossible via our patented combination with squalane that functions as an effective delivery system penetrating through the entire depth of the skin, The Vitamin A transforms into a totally unique and remarkably efficient Anti-Aging action within the skin corresponding to a 10- 20 years rejuvenation.

30. Retinyl Acetate is like Retinyl Palmitate a particularly stable form of Vitamin A and it has a similar remarkable efficient rejuvenating action in the skin working in parallel with and in the same manner as in Retinyl Palmitate. It enables the skin's specialized cells to rebuild and repair sun damaged and aged skin comparable to Retinyl Palmitate.

32. Propolis Cera Water Extract (PWE) is nature's own defence against microbial infections found in bee hives where it protects the bees from diseases and fungal infections.

34. Glycyrrhiza Glabra / Licorice Root Extract is the extract from Liquorice Root. This is well known as a wound healing extract, helping to reduce irritation within the skin and providing instant comfort to sensitive skin. It enables the skin to accept strongly reacting ingredients with less side effects, enabling more effective ingredients to be tolerated by sensitive skin.

37. Aspalathus Linearis Leaf Extract a unique herb found in South Africa that is rich in antioxidants including Aspalathin found only in Rooibos. It is known as the most popular natural product for the care of dry and irritated skin. Numerous scientific publications describe the many benefits of Rooibos and it is known as a valuable natural medicine all over the world.

40. Parfum / Fragrance Recently developed masculin fragrance, that is compounded without allergens that need to be declared separately.

HAIR & SHOWER GEL

For men

Effectiveness and convenience are keywords for the newest member in the Masculinity line: Masculinity Hair & Shower Gel. The Masculinity Hair & Shower Gel is a 2 in 1 product composed of ingredients that cleanse the skin and refreshes the hair – without causing dryness. Leaves the skin cleansed and softened.

Unique Benefits

- *2 in 1 shower gel for both hair and body*
- *Cleanses and refreshes both skin and hair*
- *Suits all skin and hair types*
- *Masculine – A Radiant sensational fragrance*

Ingredients:

1. Aqua (Water)
2. **Disodium Laureth Sulfosuccinate**
3. PEG-4 Rapeseedamide
4. **Sodium Laureth Sulfate**
5. Cocamidopropyl Betaine
6. **PEG-7 Glyceryl Cocoate**
7. **Glycerin**
8. Sodium Chloride
9. Starch Hydroxypropyltrimonium Chloride
10. **Beta Vulgaris (Beet) Root Extract**
11. Hydrolyzed Corn Starch
12. Caprylyl Glycol
13. Hydroxypropyl Guar Hydroxypropyltrimonium Chloride
14. Glycol Distearate
15. Laureth-4
16. Tetrasodium Iminodisuccinate
17. Phenoxyethanol
18. Sorbic Acid
19. Formic Acid
20. Lactic Acid
21. Sodium Lactate
22. Benzoic Acid
23. **Urea**
24. **Parfum (Fragrance)**

D0305901-00

Main Ingredients

2. Disodium Laureth Sulfosuccinate is a very mild tenside by itself and plays an important role in the complex group of simultaneously active substances in our formulation, which creates an extremely mild shampoo. (A Tenside separates all kinds impurities from their adhesion to a surface i.e the hair)

4. Sodium Laureth Sulfate. A mild tenside playing an important role in the complex group of simultaneously active substances in our formulation which creates an extremely mild shampoo, separating the impurities from the surface of the hair.

6. PEG-7 Glyceryl Cocoate is another mild tenside by it plays an important role in the complex group of simultaneously active substances in our formulation.

7. Glycerin is one of the very best and most widely used humectants (moisturizers). It penetrates easily into the epidermis and makes the skin soft and subtle. This vegetable glycerine can without problems be applied to very sensitive skin types. It provides lubrication and leaves the skin soft and silky smooth. It is extremely comforting to very dry skin types.

10. Beta Vulgaris (Beet) Root Extract is an extract from sugar beets. Enhances the natural moisture-binders in the skin and provides extra moisture- both immediately and long term.

23. Urea is used here to add an extra level of moisture to both skin and hair.

24. Parfum (Fragrance). The fragrance in MASCULINITY is created for Beauté Pacifique to leave a sensational fresh scent of a modern man while not containing any allergy potency as per the EU Regulation.

D0304201-01

Dedicated to young women

Moisturizing day creme that enhances and preserves the properties of youthful skin as long as possible, and prevents and combats the very first mimic lines, signs of blemishes, and pigment flaws.
Based on three SuperFruit extracts derived from Lingonberry stem cells, Green tea, Apple trees and three additional biomimetic peptides.

Unique Benefits

- *Enhances and preserves the qualities of youthful skin with natural SuperFruit Extracts*
- *Fights the very first mimic lines*
- *Moisturizes and refreshes the skin*
- *Reduces redness from blemished skin and evens out pigment flaws*

Main Ingredients

2. Glycerin is one of the very best and most widely used humectants (moisturizers). It penetrates easily into the epidermis and makes the skin soft and subtle. This vegetable glycerine can without problems be applied to very sensitive skin types. It provides lubrication and leaves the skin soft and silky smooth. It is extremely comforting to very dry skin types.

3. Squalane is an oil naturally occurring in human skin and is an important part of the lipid system. Its penetration capacity is remarkably high. Nanometer droplets of squalane function as effective "transporters" for the A Vitamins and other oil soluble active ingredients. Young and healthy skin contains a high amount of squalane but the level will decrease dramatically with age. Therefore squalane is absorbed excellently into sun damaged and aged skin. A lack of squalane within the skin can lead to premature aging, very dry skin and a loss of elasticity. Areas of constantly exposed, dry and prematurely aged skin such as on the hands, elbows, heals and knees etc. become incredibly soft immediately when squalane is applied in the right formulation.

4. Argania Spinosa Kernel Extract, 15. Serenoa Serrulata Fruit Extract (Sebum Regulating) is a special blend of natural extracts that significantly reduce skin's oil production. This also reduces serious problems with pimples and blemishes. Impurities due to hormonal imbalance can be treated especially effectively. The ingredients work by inhibiting testosterone synthesis. Testosterone is precisely what regulates the skin's oil production.

12. Sodium PCA works as very efficient humectants with ability to increase the level of moisture in the skin and maintain the moisture for many hours.

13. Phloretin. This ingredient is a natural extract obtained from the leaves of apple trees - Apples are another SuperFruit. We use Phloretin for two effects: Reduces redness of blemished skin and provides an antiseptic function for targeted prevention of pimples.

14. Vaccinium Vitis-Idaea Fruit Extract (Lingostem). See page 60.

16. Acetyl Decapeptide-3, 17. Oligopeptide-24, 18. Oligopeptide-34. These mimetic peptides are highly active molecules, so it is necessary to encapsulate the peptides in a multi-layered capsule of liposomes, to protect against premature degradation and promote penetration. We have developed our own cocktail of three such peptides, chosen so that the combined (symbiotic) effect on the skin corresponds to: More hyaluronic acid is formed, so skin better retains youthful skin's water-binding ability. Better normalization of skin pigmentation occurs - causing it to even out. There is growth in the generation of cells corresponding to the level of elasticity and firmness of youthful skin, and lines are prevented and reduced.

20. Camellia Sinensis Leaf Extract is a natural extract of EGCG obtained from Green Tea. The ingredient is a so-called SuperFruit. This ingredient has been shown to reduce redness caused by blemished skin extremely efficiently. The ingredient also provides good antiseptic function for targeted prevention of pimples, and reduces the formation of excessive oil in the sebaceous glands.

32. Sodium Hyaluronate is an ingredient that builds an invisible shield of moisture binding barrier on the surface of the skin, to enable the skin to maintain its elevated level of moisture within the epidermis.

37. Xanthan Gum

D0304301-01

Dedicated to young women

Moisturizing day creme that enhances and preserves the properties of youthful skin as long as possible, and prevents and combats the very first mimic lines, signs of blemishes, and pigment flaws.
Based on three SuperFruit extracts derived from Lingonberry stem cells, Green tea, Apple trees and three additional biomimetic peptides.

Unique Benefits

- *Enhances and preserves the qualities of youthful skin with natural SuperFruit Extracts*
- *Fights the very first mimic lines*
- *Moisturizes and refreshes the skin*
- *Reduces redness from blemished skin and evens out pigment flaws*

Main Ingredients

3. Argania Spinosa Kernel Extract, 14. Serenoa Serrulata Fruit Extract (Sebum-Regulering) is a special blend of natural extracts that significantly reduce skin's oil production. This also reduces serious problems with pimples and blemishes. Impurities due to hormonal imbalance can be treated especially effectively. The ingredients work by inhibiting testosterone synthesis. Testosterone is precisely what regulates the skin's oil production.

5. Squalane is an oil naturally occurring in human skin and is an important part of the lipid system. Its penetration capacity is remarkably high. Nanometer droplets of squalane function as effective "transporters" for the A Vitamins and other oil soluble active ingredients. Young and healthy skin contains a high amount of squalane but the level will decrease dramatically with age. Therefore squalane is absorbed excellently into sun damaged and aged skin. A lack of squalane within the skin can lead to premature aging, very dry skin and a loss of elasticity. Areas of constantly exposed, dry and prematurely aged skin such as on the hands, elbows, heals and knees etc. become incredibly soft immediately when squalane is applied in the right formulation.

12. Phloretin. This ingredient is a natural extract obtained from the leaves of apple trees - Apples are another SuperFruit. We use Phloretin for two effects: Reduces redness of blemished skin and provides an anti-septic function for targeted prevention of pimples.

13. Vaccinium Vitis-Idaea Fruit Extract. This brand new ingredient is derived from the stem cells of Lingonberries, which are also a SuperFruit. The stem cell ingredient has three basic main mechanisms: Antioxidant with high content of polyphenols. Antioxidant that enhances cells' own antioxidative defense. Fights UV sunlight damage before light-induced inflammatory damage occurs in the skin. Lingostem has been shown to improve skin's moisture retention, but most remarkably: Amplifies the skin's collagen network, corresponding to the effect of vitamin A esters, thus improving the skin's elastic properties throughout the thickness of the skin - equaling a younger skin!

15. Acetyl Decapeptide-3, 16. Oligopeptide-24, 17. Oligopeptide-34. These mimetic peptides are highly active molecules, so it is necessary to encapsulate the peptides in a multi-layered capsule of liposomes, to protect against premature degradation and promote penetration. We have developed our own cocktail of three such peptides, chosen so that the combined (symbiotic) effect on the skin corresponds to: More hyaluronic acid is formed, so skin better retains youthful skin's water-binding ability. Better normalization of skin pigmentation occurs - causing it to even out. There is growth in the generation of cells corresponding to the level of elasticity and firmness of youthful skin, and lines are prevented and reduced.

19. Camellia Sinensis Leaf Extract is a natural extract of EGCG obtained from Green Tea. The ingredient is a so-called SuperFruit. This ingredient has been shown to reduce redness caused by blemished skin extremely efficiently. The ingredient also provides good antiseptic function for targeted prevention of pimples, and reduces the formation of excessive oil in the sebaceous glands.

30. Sodium Hyaluronate is an ingredient that builds an invisible shield of moisture binding barrier on the surface of the skin, to enable the skin to maintain its elevated level of moisture within the epidermis.

D0304401-01

Dedicated to young women

Moisturizing night creme that enhances and preserves the properties of youthful skin as long as possible, and prevents and combats the very first mimic lines, signs of blemishes, and pigment flaws.
Based on two SuperFruit extracts derived from Lingonberry stem cells and Green tea and three additional biomimetic peptides.

Unique Benefits

- *Enhances and preserves the qualities of youthful skin with natural SuperFruit Extracts*
- *Fights the very first mimic lines*
- *Protects and vitalizes the skin*
- *Reduces redness from blemished skin and evens out pigment flaws*

Main Ingredients

2. Squalane. See page 60.

4. Argania Spinosa Kernel Extract, 18. Serenoa Serrulata Fruit Extract (Sebum-Regulering) is a special blend of natural extracts that significantly reduce skin's oil production. This also reduces serious problems with pimples and blemishes. Impurities due to hormonal imbalance can be treated especially effectively. The ingredients work by inhibiting testosterone synthesis. Testosterone is precisely what regulates the skin's oil production.

5. Glycerin is one of the very best and most widely used humectants (moisturizers). It penetrates easily into the epidermis and makes the skin soft and subtle. This vegetable glycerine can without problems be applied to very sensitive skin types. It provides lubrication and leaves the skin soft and silky smooth. It is extremely comforting to very dry skin types.

12. Acetyl Decapeptide-3, 13. Oligopeptide-24, 14. Oligopeptide-34. See page 60.

15. Copper Tripeptide-1 is a so-called tri-peptide, bonded with the metal copper. The substance is found naturally in humans, where it is a prerequisite for many important preservation and repair processes. Unfortunately, the natural content of GHK-Cu rapidly reduces with age, so it is important to supplement the skin with GKH-Cu to delay the skin aging processes due to the lack of GHK-Cu. GHK-Cu has been shown to be a highly active collagen enhancer in the skin - in line with the A vitamins. The ingredient therefore constitutes another powerful tool for maintaining an intact collagen network, so the skin does not develop new lines and lose elasticity. In addition, the ingredient is actively redness-reducing.

16. Vaccinium Vitis-Idaea Fruit Extract. This brand new ingredient is derived from the stemcells of Lingonberries, which are also a SuperFruit. The stem cell ingredient has three basic main mechanisms: Antioxidant with high content of polyphenols. Antioxidant that enhances cells' own antioxidative defense. Fights UV sunlight damage before light-induced inflammatory damage occurs in the skin. Lingostem has been shown to improve skin's moisture retention, but most remarkably: Amplifies the skin's collagen network, corresponding to the effect of vitamin A esters, thus improving the skin's elastic properties throughout the skin's thickness - equivalent to a younger skin!

17. Camellia Sinensis Leaf Extract. See page 60.

19. Vitis Vinifera/Grape Seed Oil (This speciel Chilean oil contains a certain amount of Resveratrol and a significant amount of Procyanidin). Comprehensive medical documentation proves that both Resveratrol and Procyanidin can delay aging and prolong the cells' lifespan – and therefore in this product keep the skin young and healthy for a longer time.

20. Glycyrrhiza Glabra (Licorice) Root Extract is the extract from Liquorice Root. This is well known as a wound healing extract, helping to reduce irritation within the skin and providing instant comfort to sensitive skin. It enables the skin to accept strongly reacting ingredients with less side effects, enabling more effective ingredients to be tolerated by sensitive skin.

36. Hordeum Vulgare Cera (Spent Grain Wax) works as an anti-inflammatory and soothes skin that easily blushes and irritates.

Main Ingredients

2. Glycerin is one of the very best and most widely used humectants (moisturizers). It penetrates easily into the epidermis and makes the skin soft and subtle. This vegetable glycerine can without problems be applied to very sensitive skin types. It provides lubrication and leaves the skin soft and silky smooth. It is extremely comforting to very dry skin types.

3. Niacinamide works especially in the extracellular space (the 'mortar' that keeps the cells together). It prolongs the biological processes that control both the cohesion between the cells and the processes maintaining the functions of the dehydrating cells as long as possible, until they are shed from the surface.

4. Beta Vulgaris Extract + 5. Hydrolyzed Corn Starch. Sugar beet extract and hydrolyzed corn starch. Improves natural moisture retention of the skin and adds extra moisture - both immediately and long-acting.

6. Sodium PCA works as very efficient humectants with ability to increase the level of moisture in the skin and maintain the moisture for many hours.

7. Vaccinium Vitis-Idaea (Lingonberry) Fruit Extract. This brand new ingredient is derived from the stemcells of Lingonberries, which are also a SuperFruit. The stem cell ingredient has three basic main mechanisms: Antioxidant with high content of polyphenols. Antioxidant that enhances cells' own antioxidative defense. Fights UV sunlight damage before light-induced inflammatory damage occurs in the skin. Lingostem has been shown to improve skin's moisture retention, but most remarkably: Amplifies the skin's collagen network, corresponding to the effect of vitamin A esters, thus improving the skin's elastic properties throughout the skin's thickness - equivalent to a younger skin!

8. Aspalathus Linearis Leaf Extract a unique herb found in South Africa that is rich in antioxidants including Aspalathin found only in Rooibos. It is known as the most popular natural product for the care of dry and irritated skin. Numerous scientific publications describe the many benefits of Rooibos and it is known as a valuable natural medicine all over the world.

16. Sodium Hyaluronate is an ingredient that builds an invisible shield of moisture binding barrier on the surface of the skin, to enable the skin to maintain its elevated level of moisture within the epidermis.

D0305601-00

Dedicated to young women

Mild all-in-one Micellar Cleansing Water / Facial Cleanser with Nordic SuperFruits/Extracts from Birch, Lingonberry, Cloudberry and Sea Buckthorn providing lots of vitamins, antioxidants and moisture. Effectively removing make-up and dirt from face and neck without using water. The SuperFruit extracts maintain the skin's natural moisture balance. SuperFruit Micellar Water can be used on all skin types – even the most sensitive. Press a cotton pad on the pump head and let it soak the SuperFruit Cleansing Water, and then your make-up and dirt are easily removed with the moistened cotton pad.
Follow by a SuperFruit Day Creme or the SuperFruit Night Creme.

Unique Benefits

- *Gently cleanses and removes make-up and dirt from face and neck – without the use of water*
- *Provides an anti-age effect and binds moisture to the skin*
- *Contains Nordic SuperFruit extracts with lots of natural vitamins and antioxidants*
- *Especially suited for young and delicate skin*

Main Ingredients

3. Betula Alba Juice / Juice from Nordic Birch Trees was already known in the Viking Age as a health product. Modern science has shown positive and active ingredients in the juice from Birch Trees, which can bind extra moisture to the skin and seems to have a firming effect.

8. Beta Vulgaris (Beet) Root Extract. Extract from sugar beets. Enhances the natural moisture-binders in the skin and provides extra moisture – both immediate and in the long term.

9. Vaccinium Vitis-Idaea Fruit Extract (Lingostem) This brand new ingredient is derived from the stemcells of Lingonberries, which are also a SuperFruit. The stem cell ingredient has three basic main mechanisms: Antioxidant with high content of polyphenols. Antioxidant that enhances cells' own antioxidative defense. Fights UV sunlight damage before light-induced inflammatory damage occurs in the skin.
Lingostem has been shown to improve skin's moisture retention, but most remarkably: Amplifies the skin's collagen network, corresponding to the effect of vitamin A Esters, thus improving the skin's elastic properties throughout the thickness of the skin - equaling a younger skin!

10. Rubus Chamaemorus Seed Extract / Cloudberry is a Nordic berry that scientific studies have shown is able to delay loss of skin elasticity caused by age degeneration. This extract impedes the enzyme Elastase, which decomposes the skin's Elastic fibres over time.

11. Hippophae Rhamnoides Fruit Extract / Buckthorn is a Nordic berry with countless active ingredients, which is health promotive in the diet. As an extract applied to the skin, it can even out the skin's pigmentation and make the skin more resistant and robust.

14. Sodium PCA works as very efficient humectants with ability to increase the level of moisture in the skin and maintain the moisture for many hours.

SUPERFRUIT

Moisture Enforcement Serum

SuperFruit Moisture Enforcement Serum is a unique, water-based serum. Containing extracts of, and juice from the Nordic superfruits Sea Buckthorn, Cloudberry, Lingonberry, Sugar Beet and Birch, it prevents impurities and redness in young skin, while making the skin more even. Two different kinds of the extremely water-binding HYALURONIC ACID provide the skin with a thorough, long-lasting moisture boost, keeping the skin supple. The Serum also contains the B vitamins NIACINAMIDE and PANTHENOL, which enhance the ability of the skin's outermost barrier to protect it from potential everyday impacts and dehydration. SuperFruit Moisture Serum leaves skin well moisturised and invests it with a natural glow, preparing it well for your favourite day cream and makeup. Always apply the Serum first - on cleansed skin - and allow it to penetrate well
before applying either day or night cream.

Ingredients:

1. Aqua (Water)
2. **Glycerin**
3. Pentylene Glycol
4. **Betula Alba Juice**
5. **Sodium Hyaluronate**
6. **Beta Vulgaris (Beet) Root Extract**
7. Hydrolyzed Corn Starch
8. **Niacinamide**
9. Panthenol
10. **Vaccinium Vitis-Idea Fruit Extract**
11. **Hippophae Rhamnoides Fruit Extract**
12. **Cloudberry Seed Extract**
13. **Papain**
14. Algin
15. Caprylyl Glycol
16. 1,2-Hexandiol
17. Butylene Glycol
18. Carbomer
19. Xanthan Gum
20. Phenoxyethanol
21. Ethylhexylglycerin
22. Gluconolactone
23. Calcium Gluconate
24. Tetrasodium Iminodisuccinate
25. Citric Acid
26. Sodium Benzoate

Unique Benefits

- *Provides a powerful, thorough and stable moisture boost*
- *Prevents impurities and redness*
- *Invests skin with an even look*
- *Enhances the skin's upper barrier*
- *Lends a natural glow*
- *Vegan*

Main Ingredients

2. Glycerin is one of the very best and most widely used humectants (moisturizers). It penetrates easily into the epidermis and makes the skin soft and subtle. This vegetable glycerine can without problems be applied to very sensitive skin types. It provides lubrication and leaves the skin soft and silky smooth. It is extremely comforting to very dry skin types.

4. Betula Alba Juice / Juice from Nordic Birch Trees was already known in the Viking Age as a health product. Modern science has shown positive and active ingredients in the juice from Birch Trees, which can bind extra moisture to the skin and seems to have a firming effect.

5. Sodium Hyaluronate is an ingredient that builds an invisible shield of moisture binding barrier on the surface of the skin, to enable the skin to maintain its elevated level of moisture within the epidermis.

6. Beta Vulgaris (Beet) Root Extract. Extract from sugar beets. Enhances the natural moisture-binders in the skin and provides extra moisture – both immediate and in the long term.

8. Niacinamide works especially in the extracellular space (the 'mortar' that keeps the cells together). It prolongs the biological processes that control both the cohesion between the cells and the processes maintaining the functions of the dehydrating cells as long as possible, until they are shed from the surface.

10. Vaccinium Vitis-Idaea Fruit Extract (Lingostem). This brand new ingredient comes from the stem cells of the superfruit Lingonberry. The stem cell ingredient has three basic chief mechanisms: antioxidant with a high content of polyphenols; antioxidant that boosts the cells' own antioxidant defences; combats UV sunlight damage before the occurrence of light-induced inflammatory damage in the skin. It also protects skin against damage induced by blue light (from the sun and digital screens). Lingostem is known to improve the skin's moisture retention. Most notably, however, it enhances the skin's collagen network with the same effect as Vitamin A esters, thereby improving the skin's elastic properties throughout the thickness of the skin. The result is younger-looking skin!

11. Hippophae Rhamnoides Fruit Extract / Buckthorn is a Nordic berry with countless active ingredients, which is health promotive in the diet. As an extract applied to the skin, it can even out the skin's pigmentation and make the skin more resistant and robust.

12. Cloudberry Seed Extract is a Nordic berry that scientific studies have shown is able to delay loss of skin elasticity caused by age degeneration. This extract impedes the enzyme Elastase, which decomposes the skin's Elastic fibres over time.

13. Papain is part of Beauté Pacifique's new advanced exfoliation system. It gently removes dead cells and helps refresh the skin's natural glow and renew its youthful appearance. This new Papain-based penetration system works quickly and intensely, without causing stress from irritation. Used daily, the Papain is excellent at absorbing the other active ingredients.

CHERRY-LUSCIOUS LIP BALM

Daily Care - Vanilla

CHERRY-LUSCIOUS LIP BALM is a new type of lip care designed to give Cherry-Luscious, beautiful lips to all those who fights with dry and chapped lips and look for real rescue.
This lip balm formula is made to be the daily lip care for challenged lips, so they gradually become more and more robust and stay beautiful and cherry-luscious – even in stressful times.
Due to its active moisture binding and film forming ingredients the lips develop an invisible, protective barrier against moisture loss plus an appealing youthful glow.
Apply frequently the first week to build the protective barrier and then continue as needed according to your personal preference.

Unique Benefits

- *Creates an invisible moisture retaining protective barrier*
- *Provides an extra level of moisture to keep dryness away*
- *Creamy texture – Easy to apply and quickly absorbed*
- *Available in two appealing version – Vanilla taste or Mint*
- *Vegan*

Ingredients:

1. Caprylic/Capric Triglyceride
2. **Jojoba Ester**
3. **Squalane**
4. **Helianthus Annuus (Sunflower) Seed Wax**
5. **Behenyl Alcohol**
6. Aqua
7. Diethylhexyl Succinate
8. **Polyglycerin-3**
9. **Acacia Decurrens Flower Wax**
10. **Vanilla Planifolia Fruit Extract**
11. **Prunus Avium (Sweet Cherry) Seed Oil**
12. Propylene Glycol
13. **Glutathione**
14. **Artocarpus Lakoocha Wood Extract**
15. **Sodium Hyaluronate**
16. Phenoxyethanol,
17. Ethylhexylglycerin,

Main Ingredients

2. Jojoba Ester. A natural wax derived from Jojoba fruits

4. Helianthus Annuus (Sunflower) Seed Wax. A natural wax derived from Sun Flowers

8. Polyglycerin-3. An ester that is miscible with water

9. Acacia Decurrens Flower Wax. A natural wax derived from Acacia flowers

2+4+8+9: Together these ingredients form a unique blend of waxes. Acts as an emollient, bringing softness to the lips. It provides an active, repairing, protecting, and moisturizing wellness to dry, damaged skin. The unique blend also brings a feeling of true luxury to the lip balm.

3. Squalane is an oil naturally occurring in human skin and is an important part of the lipid system. Its penetration capacity is remarkably high. Nanometer droplets of squalane function as effective "transporters" for the A Vitamins and other oil soluble active ingredients. Young and healthy skin contains a high amount of squalane but the level will decrease dramatically with age. Therefore squalane is absorbed excellently into sun damaged and aged skin. A lack of squalane within the skin can lead to premature aging, very dry skin and a loss of elasticity. Areas of constantly exposed, dry and prematurely aged skin such as on the hands, elbows, heals and knees etc. become incredibly soft immediately when squalane is applied in the right formulation.

5. Behenyl Alcohol (USA: Docosanol) is an emollient and helps forming a protective umbrella and a moisture retaining barrier on the lips to keep them moist, soft and nourished. Approved by FDA in the US as an ingredient to fight certain virus types - such as herpes simplex virus (Cold Sores)

10. Vanilla Planifolia Fruit Extract. Essential oil obtained from the leaves of Vanilla plants.

11. Prunus Avium (Sweet Cherry) Seed Oil. Sweet Cherry kernel oil, with moisturizing properties.
It brings softness and protection to dry and cracked lips

13. Glutathione. Powerful, non-enzymatic antioxidant which naturally occurs in the skin where it serves to help defend against environmental damage. Glutathione is a tripeptide comprised of three amino acids (cysteine, glutamic acid, and glycine), which together work to restore skin.

14. Artocarpus Lakoocha Wood Extract. Extract obtained from the dried heartwood of Artocarpus lakoocha with a very high content of Oxyresveratrol, which is an analog of Resveratrol. It has both antioxidative (from ROS scavenging) and anti-inflammatory properties.

15. Sodium Hyaluronate trænger dybt ned i huden og fastholder et forhøjet fugtighedsniveau.

15. Sodium Hyaluronate trænger dybt ned i huden og fastholder et forhøjet fugtighedsniveau.

CHERRY-LUSCIOUS LIP BALM

Repair & Care

REPAIR & CARE is a revolutionary, patent pending lip balm especially developed for intense cosmetic care of particularly problematic lips that visibly call for help.
With this product, lips can stay healthy and well-functioning and look groomed – even during periods with dry air and during stressful times. The many unique active ingredients work together to keep the lips moisturised and create an invisible barrier that protects against the environment and keeps the lips beautiful and free from cracks and other visible damage.

Unique Benefits

- *Creates a protective barrier that makes lips robust and protects against dehydration and poor indoor climate.*
- *Provides a high and stabilised moisture level that gives you dewy-fresh and beautiful lips – without cracks and other unsightly problems.*
- *The effect is so protective and nourishing that lips stay looking nice and healthy – even during very stressful periods with low immune defense.*

Ingredients:

1. Caprylic/Capric Triglyceride
2. **Jojoba Ester**
3. **Squalane**
4. **Helianthus Annuus (Sunflower) Seed Wax**
5. **Behenyl Alcohol**
6. Aqua
7. Diethylhexyl Succinate
8. **Vaccinium Macrocarpon (Cranberry) Fruit Extract**
9. **Acacia Decurrens Flower Wax**
10. **Polyglycerin-3**
11. **Prunus Avium (Sweet Cherry) Seed Oil**
12. Propylene Glycol
13. **Glutathione**
14. **Artocarpus Lakoocha Wood Extract**
15. **Mentha Piperita (Peppermint) Oil**
16. Phenoxyethanol
17. Ethylhexylglycerin
18. **Isoborneol**
19. Caprylyl Gallate
20. **Protease**
21. **Glycine Max Protein**

Main Ingredients

2. Jojoba Ester. A natural wax derived from Jojoba fruit.

3. Squalane is an oil naturally occurring in human skin and lips and is an important part of the lipid system. Its penetration capacity is remarkably high. Squalane functions as effective "transporter" for oil soluble active ingredients. Young and healthy skin contains a high amount of Squalane but the level will typically decrease dramatically with age. Squalane is absorbed excellently into sun damaged and aged skin. A lack of Squalane can lead to premature aging, very dry lips and lost elasticity. Challenged lips become incredibly soft and luscious - when Squalane is applied in the right formulation.

4. Helianthus Annuus (Sunflower) Seed Wax. A natural wax derived from Sun Flowers.

5. Behenyl Alcohol (USA: Docosanol) An emollient that uniquely forms both a protective umbrella and a remarkable moisture retaining barrier on the lips. This barrier helps the lips to defy cracks and unpleasant spots and breakouts. The Docosanol is recognized by the FDA/USA as an ingredient for use in dermatological medicinal products to fight certain virus types - such as herpes simplex virus. (Cold Sores)

8. Vaccinium Macrocarpon (Cranberry) Fruit Extract is a natural extract of Cranberries with a very high content of A-Type Proanthocyanidines(PAC-A). In nature Proanthocyanidines are found in a variety of plants and serve as defence mechanism against plant pathogens and plant predators. Studies also suggest significant antiviral effects of the Proanthocyanidines

9. Acacia Decurrens Flower Wax is a natural wax derived from Acacia flowers

10. Polyglycerin-3 is an ester that is miscible with water

2.+4.+9.+10. Together these ingredients form a unique blend of waxes. Acts as an emollient, bringing softness to the lips. It provides an active repairing, protecting and moisturizing wellness to dry, damaged lips. This unique blend also brings a feeling of true luxury to this lip balm.

11. Prunus Avium (Sweet Cherry) Seed Oil. Sweet Cherry kernel oil, with moisturizing properties. It brings softness and protection to chapped and cracked lips

13. Glutathione. A powerful, non-enzymatic antioxidant that naturally occurs in the lips – but added in this lip balm - to boost its defence against environmental damage. Glutathione is a tripeptide comprised of three amino acids (cysteine, glutamic acid, and glycine), which together work to restore both skin and lips.

14. Artocarpus Lakoocha Wood Extract. An extract obtained from the dried heartwood of Artocarpus Lakoocha with a very high content of Oxyresveratrol, which is an analog of Resveratrol and delays the aging of cells. It has both antioxidative (from ROS scavenging) and anti-inflammatory properties.

15. Mentha Piperita (Peppermint) Oil. An essential oil obtained from the leaves of Mentha Piperita. In China this ingredients is a known natural remedy for treating Cold Sores.

18. Isoborneol. Is a plant metabolite found in Carrots, Lavender, Basil and Thyme. It has antiviral properties and is a potent inhibitor of Herpes Simplex Virus (Cold Sores) in dermatological medicines.

20. Protease. This particular protease is an enzyme that helps to maintain a healthy microbiome – very important for those who experience periodically bad-looking, stress-challenged lips.

21. Glycine Max Protein. Is a soybean derived ingredient, that inhibits certain microbiome disturbing proteases and helps to maintain good looking, flawless lips.

BEAUTÉ PACIFIQUE

CHERRY-LUSCIOUS LIP BALM

Rich & Soft Anti-Age

RICH & SOFT ANTI-AGE is a new anti-age concept dedicated to lips. This lip balm includes three different forms of Vitamin A Esters each having its own way of rejuvenating the skin's collagen and elastin fibre structure. The synthesis of collagen and elastin fibres is boosted to reinforce and rejuvenate the lips for better elasticity and volume. It prevents and fights damages accumulated over time and caused by the sun.
When using this product, most lips will stay healthy and well-functioning and look impeccable - even during periods of dry air and in a stressful life. The many unique active ingredients work together to keep the lips soft and well moisturized, and help challenged lips back to normal.

Unique Benefits

- *Contains 3 Vitamin A types for better elasticity and volume.*
- *Makes chapped lips soft and well moistured*
- *Helps challenged lips back to normal.*
- *Prevents and fights sun induced damages*

Ingredients:

1. Aqua (Water)
2. Glycerin
3. Glyceryl Stearate
4. **Squalane**
5. **Butyruspernum Parkii (Shea) Butter Extract**
6. Argania Spinose Kernel Extract
7. Diethylhexyl Succinate
8. Cetearyl Alcohol
9. Tridecyl Stearate
10. PEG-100 Stearate
11. Lanolin
12. Sodium Polyacrylate
13. Tridecyl Trimellitate
14. **Prunus Amygdalus Dulcis (Sweet Almond) Oil**
15. Tocopheryl Acetate
16. **Retinyl Palmitate**
17. **Retinyl Acetate**
18. **Hydroxypinacolone Retinoate**
19. Serenoa Serrulata Fruit Extract
20. **Propolis Cera Water Extract (PWE)**
21. Saccharide Isomerate
22. Glycyrrhiza Glabra (Licorice) Root Extract
23. Beta Sitosterol
24. Maltodextrin
25. Marrubium Vulgare (Horehound) Extract
26. Arachis Hypogaea (Peanut) Oil
27. Aspalathus Linearis (Rooibos) Leaf Extract
28. Hordeum Vulgare Cera (Spent Grain Wax)
29. Argania Spinosa Kernel Oil
30. Sesamum Indicum / Sesame Seed Oil
31. Behenyl Alcohol
32. Stearic Acid
33. Dipentaerythrityl Hexacaprylate/Hexacaprate
34. Tocopherol
35. Dimethyl Isosorbide
36. Hydrogenated Polydecene
37. Trideceth-6
38. PEG-20 Stearate
39. Acrylates/C10-30 Alkyl Acrylate Crosspolymer
40. Phenoxyethanol
41. Ethylhexylglycerin
42. Sodium Benzoate
43. Potassium Sorbate
44. Tetrasodium Iminodisuccinate
45. Sodium Lactate
46. Citric Acid
47. Sodium Citrate

Main Ingredients

4. Squalane an oil naturally occurring in human skin and is an important part of the lipid system. Its penetration capacity is remarkably high.
Nanometer droplets of squalane function as effective "transporters" for the A Vitamins and other oil soluble active ingredients.
Young and healthy skin contains a high amount of squalane but the level will decrease dramatically with age. Therefore squalane is absorbed excellently into sun damaged and aged skin.
A lack of squalane within the skin can lead to premature aging, very dry skin and a loss of elasticity. Areas of constantly exposed, dry and prematurely aged skin such as on the hands, elbows, heals and knees etc become incredibly soft immediately when squalane is applied in the right formulation.

5. Butyruspernum Parkii (Shea) Butter Extract this emollient helps to heal cracked, aged and damaged skin. Its chemical constituents help to heal bruising and soreness. Shea butter penetrates the skin and leaves it feeling soft and smooth. Shea butter has a high content of unsaponifiables and cinnamic esters, which have antimicrobial and moisturizing properties and provide protection from the UV rays of the sun. It is known for its moisturizing, smoothing and skin protecting properties

14. Prunus Amygdalus Dulcis (Sweet Almond) Oil Sweet Almond Oil is a pale yellow to yellow liquid oil obtained from the seeds of "Prunus Amygdalus Dulcis". Since the Antiquity, almond seed oil has been used in cosmetics for its softening and moisturizing properties.

16. Retinyl Palmitate is a particularly stable form of Vitamin A that we have formulated into our cremes, in a way to maintain its highly active potency – both during storage and on application to the skin. Encapsulated in nanometer sized droplets of squalane, the Vitamin A can penetrate deeper into the skin in sufficient amounts to stimulate the cells, and synthesise lost collagen fibre structures as in younger skin. Wrinkles and fine lines diminish and throughout the complete structure of the skin it is significantly rejuvenated. In our patented combination with squalane that functions as an effective delivery system throughout the skin, the Vitamin A transforms into a totally unique and remarkably efficient anti-aging action within the skin corresponding to 10- 20 years rejuvenation.

17. Retinyl Accetate is like Retinyl Palmitate which is a particularly stable form of Vitamin A and has a similar remarkable efficient rejuvenating action on the skin in the same manner as in Retinyl Palmitate. It enables the skin's cells to rebuild and repair sun damaged and aged skin the same as Retinyl Palmitate.

18. Hydroxypinacolone Retinoate is another Vitamin A variant that helps renew skin plumpness, elasticity, and hydration to provide a radiant and fresh appearance. In addition to the benefits achieved by Retinyl Palmitate, Retinyl Acetate and Retinyl Linoleate it is known to stimulate skin cell proliferation; restoring thickness to skin that has become thinner over time. These processes help fill in lines and wrinkles to give a youthful appearance, while safeguarding skin from further wrinkle development.

20. Propolis Cera Water Extract (PWE) is nature's own defence against microbial infections found in bee hives where it protects the bees from diseases and fungal infections.

SERUM SYMPHONIQUE

Ingredients:

1. Aqua (Water)
2. **Glycerin**
3. Pentylene Glycol
4. **Beta Vulgaris (Beet) Extract**
5. Hydrolyzed Corn Starch
6. **Sodium Hyaluronate**
7. **Niacinamide**
8. **Carnosine**
9. **Papain**
10. **Dipeptid Diaminobutyroyl Benzylamide Diacetate**
11. **Tetradecyl Aminobutyroylvalylaminobutyric Urea Triflouroacetate**
12. 1,2-Hexanediol
13. Caprylyl Glycol
14. Panthenol
15. D-pantholactone
16. Carbomer
17. Algin
18. Magnesium Chlorid
19. Phenoxyethanol
20. Ethylhexylglycerin
21. Lactic Acid
22. Tetrasodium Iminodisuccinate
23. p-Anisic Acid

Serum Symphonique is a hybrid Hyaluronic Serum that combines a powerful moisture boost with advanced anti-aging peptide technology. Its ingredients include two types of active hyaluronic acid that provide your skin with immediate additional moisture, which stays at a significantly elevated level throughout the day. The hyaluronic acid levels are further boosted by an additional peptide (11) that improves the skin's own natural production of hyaluronic acid, resulting in smooth, plump and more youthfully-looking skin. Yet another advanced peptide(10) relaxes the skin's micro-musculature, smoothing out fine expression lines. A third peptide(8) boosts the skin's own defence against damage from both visible and invisible light. The penetration of the active ingredients is further boosted by Beauté Pacifique's own PAPAIN-based exfoliation concept, which gently removes dead skin cells from the top layer of the epidermis, enabling better penetration of the active ingredients. Serum Symphonique provides a perfectly moisturized skin with a natural glow, ideally preparing your skin for your preferred day cream and make up.

Unique Benefits

- *Maximal moisture boosting effect – lasting all day long*
- *Improves the skin's own moisture binding capacity – also in dry air environments*
- *Protects against light induces damages caused – also blue and red light*
- *Serves as a perfect base for a perfect makeup*

Main Ingredients

2. Glycerin is one of the very best and most widely used humectants (moisturizers). It penetrates easily into the epidermis and makes the skin soft and subtle. This vegetable Glycerin can without problems be applied to very sensitive skin types. It provides lubrication and leaves the skin soft and silky smooth. It is extremely comforting to very dry skin types.

4. Beta Vulgaris (Beet) Root Extract is an extract from sugar beets. Enhances the natural moisture-binders in the skin and provides extra moisture - both immediately and long term.

6. Sodium Hyaluronate is an ingredient that builds an invisible shield of moisture binding barrier on the surface of the skin, to enable the skin to maintain its elevated level of moisture within the epidermis.

7. Niacinamide works especially in the extracellular space (the 'mortar' that keeps the cells together). It prolongs the biological processes that control both the cohesion between the cells and the processes maintaining the vital functions of the dehydrated epidermal cells as long as possible, until they are naturally shed from the surface.

8. Carnosine is a nature-identical multi-functional peptide that strengthens the skin's own natural protection system. Its antioxidant properties also protect the skin from all damage types caused by the sun light, whether it is UV rays, Blue-light or InfraRed radiation. At the same time, it significantly protects and increases the formation of Collagen, thereby supporting the skin's firmness and elasticity.

9. Papain is part of Beauté Pacifique's new advanced exfoliation system. It gently removes dead cells and helps refresh the skin's natural glow and renew its youthful appearance. This new Papain-based penetration system works quickly and intensely, without causing stress and oedema from irritation. Used daily, the Papain is excellent for improving the absorption of the other active ingredients.

10. Dipeptid Diaminobutyroyl Benzylamide Diacetate is a molecular design made as a close copy of snake venom. The snake is using its venom to paralyze its prey and Beauté Pacifique takes advantage of this action to mimic the similar action as can be achieved by Botulinum Toxine injections. The Papain exfoliation allows the ingredient to penetrate deeply enough to get the desired effect. This High-Tech ingredient is manufactured by a major Swiss drug / snake-serum company and was rewarded for advanced technology excellence.

11.Tetradecyl Aminobutyroylvalylaminobutyric Urea Triflouroacetate is a tripeptide that significantly increases the skin's own renewal of hyaluronic acid and stimulates Collagen synthesis, together resulting in a visibly firmer and more moisturized skin. Over time and injection-free, effects similar to those obtained with hyaluronic acid-based filler treatments can be achieved.

CRÈME SYMPHONIQUE DAY-TIME

A Moisturizing Day-Time Cream with advanced nano-technology that readily appears beautifying on the skin upon application. The cream proceeds to penetrate deeply into the skin with a rich palette of anti-aging ingredients, each of which carries its own specific long-term benefits. The Crème Symphonique Line by Beauté Pacifique is based on the latest breakthroughs in dermatological research and is created by Beauté Pacifique with multiple ingredients. Each of these ingredients has a rejuvenating and revitalising effect, which come together in the Symphonique range to offer you the best possible care for your skin. Apply one or two pumps of the cream after cleansing - or ideally, after applying Serum Symphonique - and massage it gently and evenly into your skin with your fingertips until the cream is fully absorbed.

Unique Benefits

- *Maximal Anti-Age Power for all your active Day Time hours*
- *Moisturizing & Anti-Aging – Works all day long due to its delayed ingredient release*
- *Developed to be the ultimate Day Time skin care – Especially formulated for mature skin*
- *Programmed for active days- to take over from your Crème Symphonique - Night Time*

Ingredients:

1. Aqua (Water)
2. **Squalane**
3. Glycerin
4. Glyceryl Stearate
5. **Niacinamide**
6. Cetearyl Alcohol
7. Caprylic/Capric Triglyceride
8. Behenyl Alcohol
9. C12-15 Alkyl Benzoate
10. PEG-100 Stearate
11. Cetyl Esters
12. Propylene Glycol
13. Hydrolyzed Corn Starch
14. **Beta Vulgaris (Beet) Root Extract**
15. **Lauryl PCA**
16. **Sodium PCA**
17. Dimethicone
18. **Bakuchiol**
19. **Bis(Cyano Butylacetate) Anthracenediylidene**
20. **Retinol**
21. **Anigozanthos Flavidus (Kangaroo Paw) Extract**
22. **Sodium Ursolate**
23. **Sodium Oleanolate**
24. **Crocus Sativus (Saffron) Flower Extract**
25. C10-30 Cholesterol/Lanosterol Esters
26. **Hydrolyzed Collagen**
27. **Sodium Hyaluronate**
28. **Tocopherol Acetate**
29. **Tocopherol**
30. Carnosic Acid
31. PEG-20 Stearate
32. Butylene Glycol
33. Phenoxyethanol
34. Ethylhexylglycerin
35. Methylpropanediol
36. Caprylyl Glycol
37. Phenylpropanol
38. Polyvinyl Alcohol
39. Xanthan Gum
40. p-Anisic Acid, Polyurethane Crosspolymer-1
41. Tetrasodium Iminodisuccinate
42. Lactic Acid
43. Citric Acid

Main Ingredients

2. Squalane. See page 67.

5. Niacinamide. See page 69.

14. Beta Vulgaris (Beet) Root Extract. See page 69.

15. Lauryl PCA and **16. Sodium PCA** works as very efficient humectants with ability to increase the level of moisture in the skin and maintain the moisture for many hours.

18. Bakuchiol is a natural antioxidant and anti-aging ingredient found in the seeds and leaves of the plant Psoralea Corylifolia, also known as Babchi. Bakuchiol have been shown to have skin structural-restoring ability when applied topically, and a spot-brightening effect on skin – effects that are very similar to the Vitamin A derivatives. This plant ingredient has shown anti-wrinkle properties, improved elasticity, and a smoother skin surface with visibly improved un-blemished and uneven skin tone.

19. Bis(Cyano Butylacetate) Anthracenediylidene is a powerful anti-aging antioxidant proven to the block sun exposed aging process before it even begins. Compared to other antioxidants it works more proactively and effectively - safely preventing the formation of the sun induced damaging reactive oxygen species (ROS) and free radicals. The skin becomes more resistant against UV-radiation and less prone to the sun induced signs of premature aging such as loss of skin elasticity, fine lines and wrinkles.

20. Retinol is a particularly potent form of Vitamin A here encapsulated in microcapsules with a nanostructured wall specially designed to create an ultra-efficient barrier protecting the hyper-active Retinol from oxidation and degradation even before application and while staying on the skin's surface. The capsulation degrades slowly and provides a delayed release of the Retinol so the normally prohibitive irritation and redness is eliminated. Starting already at application to the skin, some of the capsules break, releasing Retinol, while the remaining intact capsules reside in the skin wrinkles, where they break eventually during the day and so provide a long-lasting repair effect during the day.

21. Anigozanthos Flavidus (Kangaroo Paw) Extract is an organic flower extract that acts as an anti-aging and anti-wrinkle agent. It increases the production of the dermal architectural protein (Tenascins-X) and increases dermal protein synthesis of Collagen & Elastin. It firms the skin via increased fibroblast contractile forces and cell turnover. It rebuilds the skin's internal architecture and decreases the appearance of both wrinkles and sagging skin.

22. Sodium Ursolate and **23. Sodium Oleanoate.** See page 21.

24. Crocus Sativus (Saffron) Flower Extract also known as the wonderful, yellow spice saffron- that has been used since ancient times - also for cosmetic purposes. It has anti-aging effects, repairs sun damage, and has soothing properties. Its main active ingredient is crocin-I (α-crocin) (crocetin + glucoside) which has both anti-inflammatory and antioxidation effects.

26. Hydrolyzed Collagen and **27. Sodium Hyaluronate.** See page 16.

28. Tocopheryl Acetate is a type of Vitamin E that plays an important role by protecting both the skin and the products against harmful free radicals.

29. Tocopherol is another source of Vitamin E that plays an important role by protecting both the skin and the products against harmful free radicals and functions as a natural moisturizer and capable of reducing fine lines and wrinkles.

CRÈME SYMPHONIQUE DAY-TIME DRY SKIN

50 ml bottle

A Moisturizing Day-Time Cream for dry and sensitive skin with advanced nano-technology that readily appears beautifying on the skin upon application. The cream proceeds to penetrate deeply into the skin with a rich palette of anti-aging ingredients, each of which carries its own specific long-term benefits. This cream is especially formulated to add comfort and soothing ingredients for the dry and sensitive skin.
The Crème Symphonique Line by Beauté Pacifique is based on the latest breakthroughs in dermatological research and is created by Beauté Pacifique with multiple ingredients. Each of these ingredients has a rejuvenating and revitalising effect, which come together in the Symphonique range to offer you the best possible care for your skin. Apply one or two pumps of the cream after cleansing - or ideally, after applying Serum Symphonique - and massage it gently and evenly into your skin with your fingertips until the cream is fully absorbed.

Unique Benefits

- *Maximal Anti-Age Power for all your active Day Time hours*
- *Moisturizing & Anti-Aging – keeps the skin hydrated all day long*
- *Developed to be the ultimate Day Time skin care for the dry and sensitive mature skin*
- *Programmed for active days- to take over from your Crème Symphonique - Night Time*

Ingredients:

1. Aqua (Water)
2. **Squalane**
3. Glycerin
4. **Bis-Diglyceryl Polyacyladipate-2**
5. Glyceryl Stearate
6. **Niacinamide**
7. Cetearyl Alcohol
8. Caprylic/Capric Triglyceride
9. Behenyl Alcohol
10. C12-15 Alkyl Benzoate
11. PEG-100 Stearate
12. Cetyl Esters
13. Propylene glycol
14. **Beta Vulgaris (Beet) Root Extract**
15. Hydrolyzed Corn Starch
16. **Sodium PCA**
17. **Lauryl PCA**
18. Dimethicone
19. **Bakuchiol**
20. **Bis(Cyano Butylacetate) Anthracenediylidene**
21. **Glycyrrhiza Glabra (Licorice) Root Extract**
22. **Anigozanthos Flavidus (Kangaroo Paw) Extract**
23. **Hydroxypinacolone Retinoate**
24. **Crocus Sativus (Saffron) Flower Extract**
25. Phytosteryl Oleate
26. **Sodium Ursolate**
27. **Sodium Oleanolate**
28. **Tocopherol Acetate**
29. **Tocopherol**
30. Carnosic Acid
31. Ascorbyl Palmitate
32. Dimethyl Isosorbide
33. PEG-20 Stearate
34. Butylene Glycol
35. Phenoxyethanol
36. Ethylhexylglycerin
37. Tetrasodium Iminodisuccinate
38. Lactic Acid
39. Citric Acid
40. p-Anisic Acid

Main Ingredients

2. Squalane See page 67.

4. Bis-Diglyceryl Polyacyladipate-2 A palm-based multifunctional ingredient. It has a high water-binding capacity of 200%, is a great film former and helps to improve the skin barrier by reducing trans-epidermal water loss. Its properties are comparable to lanolin and adds a pleasant soft and silky touch to the formulation.

6. Niacinamide See page 69.

14. Beta Vulgaris (Beet) Root Extract See page 69.

16. Sodium PCA og 17. Lauryl PCA are two very powerful ingredients with a unique capacity to repair aged and sun damaged skin. The most remarkable scientific findings are the recreated Collagen fibre structures at the same level as found in young skin. This rejuvenates completely the treated skin, including a striking recreation of the surface of the skin's micro-topography.

19. Bakuchiol is a natural antioxidant and anti-aging ingredient found in the seeds and leaves of the plant Psoralea Corylifolia, also known as Babchi. Bakuchiol have been shown to have skin structural-restoring ability when applied topically, and a brightening effect on skin – effects that are very similar to the Vitamin A derivatives. This plant ingredient has shown anti-wrinkle properties, improved elasticity, and a smoother skin surface with visibly improved un-blemished and uneven skin color.

20. Bis(Cyano Butylacetate) Anthracenediylidene is a powerful anti-aging antioxidant proven to block sun exposed aging before it even begins. Compared to other antioxidants it works more proactively and effectively - safely preventing the formation of the sun induced damaging reactive oxygen species (ROS) and free radicals. The skin becomes more resistant against UV-radiation and less prone to the sun induced signs of premature aging such as loss of skin elasticity, fine lines and wrinkles.

21. Glycyrrhiza Glabra (Licorice) Root Extract is the extract from Liquorice Root. This is well known as a wound healing extract, helping to reduce irritation within the skin and providing instant comfort to sensitive skin. It enables the skin to accept strongly reacting ingredients with fewer side effects, enabling more effective ingredients to be tolerated by sensitive skin.

22. Anigozanthos Flavidus (Kangaroo Paw) Extract See page 70.

23. Hydroxypinacolone Retinoate Retinoate is another Vitamin A variant that helps renew skin plumpness, elasticity, and hydration to provide a radiant and fresh appearance. In addition to the benefits achieved by Retinyl Acetate it is known to stimulate skin cell proliferation; restoring thickness to skin that has become thinner over time. These processes help fill in lines and wrinkles to give a youthful appearance, while safeguarding skin from further wrinkle development.

24. Crocus Sativus (Saffron) Flower Extract See page 70.

26. Sodium Ursolate og 27. Sodium Oleanoate See page 21.

28. Tocopheryl Acetate See page 70.

29. Tocopherol See page 70.

CRÈME SYMPHONIQUE NIGHT-TIME

50 ml bottle

This advanced night cream - Uniquely composed of no less than six different types of Vitamin A, resulting in both a rapid Collagen network repair i.e. a genuine anti-aging effect plus a novel preventive maintenance effect by providing your skin's inside with a depot of repair-ready Vitamin A cocktail. This is possible thanks to Beauté Pacifique's patented squalane-based nano-technology, by which the different types of Vitamin A can travel all the way to the deepest layers of your skin, and rebuild lost youth and strengthen the elastic fiber network - resulting in a distinctive rejuvenation effect. All the other ingredients complete the recipe's ability to work beneficially and holistically nurturing your skin. Our symphonic statement is: Nothing Compares. Apply one or two pumps of the cream after cleansing and massage it lightly and evenly into your skin with your fingers until the cream has been fully absorbed.

NOTE: AVOID APPLYING THIS CREAM TO THE EYE AREA!

This cream is very active and, in some cases, may require a little getting used to. Therefore, start by applying in a very thin layer on cleansed skin - only every other night for the first two weeks. If redness occurs, apply the cream only when the redness has disappeared. Then use gradually more often as needed.

Ingredients:

1. Aqua (Water)
2. Glycerin
3. **Squalane**
4. Glyceryl Stearate
5. **Argania Spinosa (Argan) Kernel Oil**
6. Butyrospermum Parkii (Shea) Butter Extract
7. Polysorbate 60
8. **Niacinamide**
9. Cetearyl Alcohol
10. Tridecyl Stearate
11. Diethylhexyl Succinate
12. PEG-100 Stearate
13. Tridecyl Trimellitate
14. Dimethyl Isosorbide
15. Behenyl Alcohol
16. **Bakuchiol**
17. **Retinyl Palmitate**
18. **Retinyl Acetate**
19. **Retinyl Linoleate**
20. **Hydroxypinacolone Retinoate**
21. **Retinol**
22. **Retinaldehyde**
23. **Bis(Cyano Butylacetate) Anthracenediylidene**
24. Beta-Sitosterol
25. **Marrubium Vulgare (Horehound) Extract**
26. **Anigozanthos Flavidus (Kangaroo Paw) Extract**
27. **Crocus Sativus (Saffron) Flower Extract**
28. **Papain**
29. **Sodium Ursolate**
30. **Serenoa Serrulata (Saw Palmetto) Fruit Extract**
31. **Sodium Oleanolate**
32. **Sesamum Indicum (Sesame) Seed Oil**
33. Dipentaerythrityl Hexacaprylate/Hexacaprate
34. Arachis Hypogea (Peanut) Oil
35. Caprylic/Capric Triglyceride
36. Caprylyl Glycol
37. 1,2-Hexanediol
38. **Hordeum Vulgare Cera (Spent Grain Wax)**
39. **Tocopherol Acetate**
40. **Tocopherol**
41. Carnosic Acid
42. Ascorbic acid
43. Stearic Acid
44. Ceteth-20 Phosphate
45. PEG-20 Stearate
46. Dicetyl Phosphate
47. Polyvinyl Alcohol
48. Xanthan Gum
49. Phenoxyethanol
50. Ethylhexylglycerin
51. Sodium Benzoate
52. Potassium Sorbate
53. Methylpropanediol
54. Phenylpropanol
55. Carbomer
56. Polyurethane Crosspolymer-1
57. Butylene Glycol
58. Tetrasodium Iminodisuccinate
59. Phospholipids
60. Algin
61. Sodium Lactate
62. Citric Acid
63. Sodium Dihydrogen Phosphate
64. Disodium Hydrogen Phosphate
65. Parfum (Fragrance)

Unique Benefits

- *Developed with the latest breakthrough in dermatological Anti-Age research*
- *Patent Applied with its six multi-functional Vitamin A types*
- *Excellent rejuvenating and revitalizing ingredients working together to become a Symphony of perfect skin care*
- *Actively working All Night Through - due to delayed ingredient release*

Main Ingredients

3. Squalane. See page 67.

5, 30, 32 Sebum-regulating is a remarkable mixture of natural extracts that significantly decreases the skin's production of sebum. This reduces severe and stubborn problems with pimples and impurities. Especially impurities prone to hormonal imbalances within the skin can be treated effectively. The mode of action is based on inhibiting the synthesis of testosterone, which again is the hormone that regulates the secretion of sebum.

8. Niacinamide. See page 69.

16. Bakuchiol. See page 70.

17. Retinyl Palmitate. See page 27.

18. Retinyl Acetate. See page 27.

19. Retinyl Linoleate is another Vitamin A variant like Retinyl Palmitate and Retinyl Acetate and also particularly stable form of Vitamin A with a similar mode of action. It is also a pre-cursor of Retinoic Acid– emerging automously inside the skin via transformation by the skin's own internal natural biology and further it is also a pre-cursor of Linoleic Acid resulting in added Hydration via its synthesis of Hyaluronic Acid.

20. Hydroxypinacolone Retinoate is another Vitamin A variant that helps renew skin plumpness, elasticity, and hydration to provide a radiant and fresh appearance. In addition to the benefits achieved by Retinyl Palmitate, Retinyl Acetate and Retinyl Linoleate it is known to stimulate skin cell proliferation; restoring thickness to skin that has become thinner over time. These processes help fill in lines and wrinkles to give a youthful appearance, while safeguarding skin from further wrinkle development.

21. Retinol. See page 70.

22. Retinaldehyde is yet another particularly effective form of Vitamin A. Like the Vitamin A variants described above it remodels the Epidermis/Dermis by active stimulation of the Collagen/Elastin production, provides anti-inflammatory and antioxidant properties. It increases the thickness of the Stratum Corneum, and makes the skin tighter and more orderly, and better preventing the potential damage to Collagen caused by UV-light and it makes the skin more elastic.

23. Bis(Cyano Butylacetate) Anthracenediylidene. See page 70.

25. Marrubium Vulgare. See page 57.

26. Anigozanthos Flavidus (Kangaroo Paw) Extract. See page 70.

27. Crocus Sativus (Saffron) Flower Extract. See page 70.

28. Papain. See page 69.

29. Sodium Ursolate og **31. Sodium Oleanoate.** See page 21.

38. Hordeum Vulgare Cera / Spent Grain Wax. See page 57.

39. Tocopheryl Acetate. See page 70.

40. Tocopherol. See page 70.

CRÈME SYMPHONIQUE EYE ZONE GEL

Anti-age Eye Zone Therapy

15 ml bottle

This advanced Anti-Age Gel rejuvenates your Eye Zone appearance in just 15 minutes by filling in sugar molecule into your wrinkles and fine lines. The entire Symphonique concept (Pat. Pend.) provides a six-pack of highly active Vitamin A types for maximum ant-age effect and is additionally supported by both Botulinum-toxin mimicking and anti-oxidative ingredients.
Apply this product carefully by dabbing only outside the eye bone contours while avoiding direct eye contact.

Unique Benefits

- *Instant firming effect with an improved overall younger looking appearance*
- *Developed with the latest breakthrough in dermatological Anti-Age research*
- *Patent Applied with its six multi-functional Vitamin A types*
- *Excellent rejuvenating and revitalizing ingredients working together to become a Symphony of perfect skin care.*

Ingredients:

1. Aqua
2. Caprylic/Capric Triglyceride
3. Glycerin
4. C12-15 Alkyl Benzoate
5. **Niacinamide**
6. **Acmella Oleracea Extract**
7. **Bis(Cyano Butylacetate) Anthracenediylidene**
8. **Retinyl Palmitate**
9. **Retinyl Acetate**
10. **Retinyl Linolate**
11. **Anigozanthos Flavidus (Kangaroo Paw) Extract**
12. **Alteromonas Ferment Extract**
13. **Retinol**
14. **Dipeptid Diaminobutyroyl Benzylamide Diacetate**
15. **Hydroxypinacolone Retinoate**
16. **Retinaldehyde**
17. **Palmitoyl Dipeptide-5 Diaminobutyroyl Hydroxythreonine**
18. **Palmitoyl Tripeptide-5**
19. **Tetradecyl Aminobutyroylvalylaminobutyric Urea Trifluoroacetate**
20. Arachis Hypogea (Peanut) Oil
21. Tocopherol
22. Ascorbic acid
23. Alcohol
24. Dimethyl Isosorbide
25. Polyacrylate Crosspolymer-6
26. Lecithin
27. Magnesium Chloride
28. Polyvinyl Alcohol
29. Xanthan Gum
30. Methylpropanediol
31. Caprylyl Glycol
32. Phenylpropanol
33. Phenethyl alcohol
34. Polyurethane Crosspolymer-1
35. Phospholipids

Main Ingredients

5. Niacinamide See page 69.

6. Acmella Oleracea Extract Is a newly discovered exotic plant extract, that relaxes the skin's underlying expression muscles – somewhat similar to the effect achieved by injections of a Botulinum Toxin drug. This ingredient works only when a complete trans-dermal penetration is achieved. Beauté Pacifique's patented Squalane-based delivery system is the key to make this possible with a non-medical, cosmetics product.

7. Bis(Cyano Butylacetate) Anthracenediylidene See page 72.

8. Retinyl Palmitate See page 25.

9. Retinyl Acetate See page 25.

10. Retinyl Linoleate er ligesom Retinyl Palmitat og Retinyl Acetate en særlig stabil form for vitamin A med lignende virkningsmåde. Det er også en pre-cursor af retinsyre - der virker autonomt via transformation af hudens egen indre naturlige biologi og yderligere en pre-cursor af linolsyre, hvilket resulterer i øget hydrering af huden via dens syntese af hyaluronsyre..

11. Anigozanthos Flavidus (Kangaroo Paw) Extract See page 70.

12. Alteromonas Ferment Extract acts as an anti-wrinkle, anti-aging and smoothing active. Its melting texture comforts the skin immediately after application. At the same time its novel structure surface gives properties to fill in wrinkles and a tightening effect to lift cutaneous relief. This active ingredient is a purified and completely qualified marine exopolysaccharide which combines the effectiveness of synthetic molecules with the natural properties of plant extracts. Its high molecular weight gives it a particular affinity for the skin and interesting surface properties for filling in wrinkles. It stimulates the synthesis of collagen and elastin for a re-densifying effect of the dermis and generates a tightening effect on the collagen fiber network.

13. Retinol See page 70.

14. Dipeptid Diaminobutyroyl Benzylamide Diacetate is a molecular design made as a close copy of snake venom. The snake is using its venom to paralyze its prey and Beauté Pacifique takes advantage of this action to mimic the similar action as can be achieved by Botulinum Toxine injections. This High-Tech ingredient is manufactured by a major Swiss drug / snake-serum company and was rewarded for advanced technology excellence.

15. Hydroxypinacolone Retinoate is another Vitamin A variant that helps renew skin plumpness, elasticity, and hydration to provide a radiant and fresh appearance. In addition to the benefits achieved by Retinyl Acetate it is known to stimulate skin cell proliferation; restoring thickness to skin that has become thinner over time. These processes help fill in lines and wrinkles to give a youthful appearance, while safeguarding skin from further wrinkle development.

16. Retinaldehyde is yet another particularly effective form of Vitamin A. Like the Vitamin A variants described above it remodels the Epidermis/Dermis by active stimulation of the Collagen/Elastin production, provides anti-inflammatory and antioxidant properties. It increases the thickness of the Stratum Corneum, and makes the skin tighter and more orderly, and better preventing the potential damage to Collagen caused by UV-light and it makes the skin more elastic.

17. Palmitoyl Dipeptide-5 Diaminobutyroyl Hydroxythreonine + 18. Palmitoyl Tripeptide-5 + 19. Tetradecyl Aminobutyroylvalylaminobutyric Urea Trifluoroacetate These ingredients constitute together a complex mixture of cosmetic peptides, tailor-made to ensure the best performance anti-age actives. It significantly increases the formation of Collagen – helping to make beautiful, smooth skin with a softer touch and improved overall younger looking appearance. The skin will appear plumper, firmer and with improved skin elasticity. Appearance of fine lines and wrinkles is visible reduced.

SYMPHONIQUE MICRONEEDLING PERFUSION THERAPY TREATMENT KIT

Symphonique Microneedling Puffy Eyes Perfusion Therapy Patches

Symphonique Micro-Needling Perfusion Therapy Treatment Kit contains 2 products; (A) Puffy Eyes Perfusion Therapy Patches and (B) Puffy Eyes Perfusion Therapy Droplets that work together to firm, tighten and hydrate the skin around the eyes reducing puffiness and dark circles, as well as the appearance of fine lines.

(A) Symphonique Micro-Needling Puffy Eyes Perfusion Therapy Patches
These innovative and unique microneedle patches each have about 900 self-dissolving crystal-needles made of crosslinked hyaluronic acid with additional active ingredients contained within the crystal needles. With an optimized and patented needle-shape these patches penetrate so gently into epidermis that they are comfortable to wear while sleeping and keeping them in place overnight providing a slow and steady delivery of the active ingredients inside epidermis where the crystal-needles gently dissolve and diffuse inside your skin. Unlike invasive procedures, the patches stimulate the skin quickly, effectively and without any pain leaving the skin hydrated, plump and smooth with 900 micro-channels open for the Puffy Eyes Perfusion Therapy Droplets (B).

Ingredients:

1. **Sodium Hyaluronate**
2. **Hydrolyzed Collagen**
3. **Sodium Hyaluronate Crosspolymer-2**
4. **Niacinamide**
5. **Caffeine**
6. **Acetyl Hexapeptide-8.**

Unique Benefits

- *Safe and effective alternative to invasive needling procedures*
- *Unique injection mechanism by 900 micro needles that dissolve inside epidermis*
- *Facilitates absorption of product (B): Puffy Eyes Perfusion Therapy Droplets through the 900 micro-channels*

Main Ingredients

1. Sodium Hyaluronate and **3. Sodium Hyaluronate Crosspolymer-2** are humectants naturally found in your skin and decrease as you age. These ingredients help the skin cells retain as much moisture as possible, thus plumping up skin and reducing the trans-epidermal water loss. In these patches some of the hyaluronic acid is crosslinked enabling the formation of the crystal needles. The crystal needles contain further actives and ensure a slow and steady delivery of all the actives into the skin.

2. Hydrolyzed Collagen is an ingredient that builds an invisible shield of moisture binding barrier on the surface of the skin, to enable the skin to maintain its elevated level of moisture within the epidermis.

4. Niacinamide (also known as vitamin B3) is a unique skin-restoring ingredient that offers several benefits for the skin. It strengthens the skin barrier by boosting the skin's natural production of skin-strengthening ceramides. It improves the elasticity and reduces the appearance of lines and wrinkles. It rebalances uneven skin tone and reduces discoloration of the skin.

5. Caffeine reduces the appearance of darkness and puffiness in the eye zone area by preserving the integrity of the blood vessels and capillaries. It is also a strong anti-oxidant protecting the skin against damage caused by free radicals. Due to its anti-inflammatory effect it also helps to soothe the skin and bring down the redness of skin.

6. Acetyl Hexapeptide-8 is a synthetically derived peptide, made to simulate botulinum toxin. It is designed to lessen the appearance of wrinkles by preventing muscle contractions, like Botox. It also restores the skin's natural water barrier and improves dry skin. It functions as an excellent, non-invasive alternative to Botox.

How to use

Wear the (A) Puffy Eyes Perfusion Therapy Patches on cleansed skin overnight or for minimum 4 hours and then apply (B) Puffy Eyes Perfusion Therapy Droplets immediately after removing the patches.

Notice: The eye contour skin is extremely sensitive and thin and particularly susceptible to irritation and some may even react with reddening after mechanical stress like vigilant rubbing. So - if you feel a tingling/stinging sensation in the skin and redness appears in the skin when you apply micro-needle patches - this is probably caused by pressing the needle patches too hard onto the skin. A mild redness can be expected to disappear within a short time - typically within the first half hour. It is important that the patches sit for at least 4 hours to ensure that the micro-needles have then left the skin relaxed with the hyaluronic acid been dissolved and absorbed by the skin. If the patches are removed sooner, you will most likely experience some remaining redness of the skin. Additionally, some people might experience puffiness right after removal of the patches – this will most likely disappear after applying the droplets as the following mandatory next step.

SYMPHONIQUE MICRONEEDLING PERFUSION THERAPY TREATMENT KIT

Symphonique Microneedling Puffy Eyes Perfusion Therapy Droplets

Symphonique Micro-Needling Perfusion Therapy Treatment Kit contains 2 products; (A) Puffy Eyes Perfusion Therapy Patches and (B) Puffy Eyes Perfusion Therapy Droplets that work together to firm, tighten and hydrate the skin around the eyes reducing puffiness and dark circles, as well as the appearance of fine lines.

(B) Symphonique Micro-needling Puffy Eyes Perfusion Therapy Droplets
These droplets will easily be absorbed providing an instant soothing and cooling effect. Penetrated deeply, the skin contract and recovers lost firmness. Through an adjusted microcirculation inside the treated area dark circles and puffiness get reduced over time providing a rejuvenating effect.

Unique Benefits

- *Reduces the appearance of dark circles and puffiness*
- *Helps to even out skin tone.*
- *Instant soothing and cooling effect*

Ingredients:

1. Aqua (Water)
2. Caprylic/Capric Triglyceride
3. Propanediol
4. Polysorbate 20
5. Glycerin
6. Saccharide Isomerate
7. **Niacinamide**
8. **Caffeine**
9. **Citrus Limon (Lemon) Peel Extract**
10. **Iodized Hydrolyzed Zein**
11. **Paullinia Cupana (Guarana) Seed Extract**
12. **Ruscus Aculeatus Root Extract**
13. Sodium Hyaluronate
14. **Acmella Oleracea Extract**
15. Chamomilla Recutita (Matricaria) Flower Extract
16. **Jasminum Sambac (Jasmine) Flower Extract**
17. **Crataegus Monogyna (Hawthorn) Flower Extract**
18. **Sodium Ursolate**
19. **Sodium Oleanolate**
20. Propylene Glycol
21. Menthol
22. Tocopheryl Acetate
23. Tocopherol
24. Alcohol
25. Polyacrylate Crosspolymer-6
26. Denatonium Benzoate
27. Phenoxyethanol
28. Ethylhexylglycerin
29. Sodium Benzoate
30. Tetrasodium Iminodisuccinate
31. Citric Acid
32. Sodium Citrate
33. Potassium Sorbate

Main Ingredients

7. Niacinamide (also known as vitamin B3) is a unique skin-restoring ingredient that offers several benefits for the skin. It strengthens the skin barrier by boosting the skins natural production of skin-strengthening ceramides. It improves the elasticity of the skin and reduces the appearance of lines and wrinkles. It rebalances uneven skin tone and reduces discoloration of the skin.

8. Caffeine reduces the appearance of darkness and puffiness in the eye zone area by preserving the integrity of the blood vessels and capillaries. It is also a strong anti-oxidant protecting the skin against damage caused by free radicals. Due to its anti-inflammatory effect it also helps to soothe the skin and bring down the redness of skin.

9 - 12. is a well-documented mixture of active ingredients that help the skin's deepest layers to exude excessive waste substances and prevent the storage of fat beneath the skin. It contains extra caffeine to activate the skin to consume extra energy to avoid the reformation of fatty deposits.

14. Acmella Oleracea Extract is a flower extract providing a newly discovered biological contractive reaction when in contact with the dermal fibroblast cells. The fibroblast cells literally contract the skin by pulling the collagen/elastin network consisting of fibers – formerly "spun" by the fibroblasts. (Note: The same flower is also the origin of another novel extract with remarkable properties! See under Line Combat Fluid)

16. Jasminum Sambac (Jasmine) Flower Extract and **17. Crataegus Monogyna (Hawthorn) Flower Extract** is a powerful combination of two white flowers, Hawthorne and Arabian Jasmine, that refreshes and rejuvenates the overall appearance of the eye contour. Hawthorne is rich in flavonoids and proanthocyanidins, while Arabian Jasmine is rich in glycosides and flavonoids. Together they lighten dark circles by reducing permeability of blood vessels and capillaries, improve blood circulation and decreases the accumulation of skin darkening molecules as seen in bruises.

18. Sodium Ursolate and **19. Sodium Oleanate** are two very powerful ingredients with a unique capacity to repair aged and sun damaged skin. The most remarkable scientific findings are the recreated collagen fibre structures at the same level as found in young skin. This rejuvenates completely the treated skin, including a striking recreation of the surface of the skin's micro-topography.

How to use

Wear the (A) Puffy Eyes Perfusion Therapy Patches on cleansed skin overnight or for minimum 4 hours and then apply (B) Puffy Eyes Perfusion Therapy Droplets immediately after removing the patches.

Notice: The eye contour skin is extremely sensitive and thin and particularly susceptible to irritation and some may even react with reddening after mechanical stress like vigilant rubbing. So - if you feel a tingling/stinging sensation in the skin and redness appears in the skin when you apply micro-needle patches - this is probably caused by pressing the needle patches too hard onto the skin. A mild redness can be expected to disappear within a short time - typically within the first half hour. It is important that the patches sit for at least 4 hours to ensure that the micro-needles have then left the skin relaxed with the hyaluronic acid been dissolved and absorbed by the skin. If the patches are removed sooner, you will most likely experience some remaining redness of the skin. Additionally, some people might experience puffiness right after removal of the patches – this will most likely disappear after applying the droplets as the following mandatory next step.

OUVERTURE

Eau de Toilette

Ouverture – A purely water-based Eau de Toilette.
The name indicates a new beginning where Nature's truly wonderful scents unveil from a mist of pure water – Zero alcohol involved.
The Ouverture is composed with elements from flowers and fruits with a touch of Vanilla and provides a long-lasting moisture to the skin while releasing its bouquet of scents.

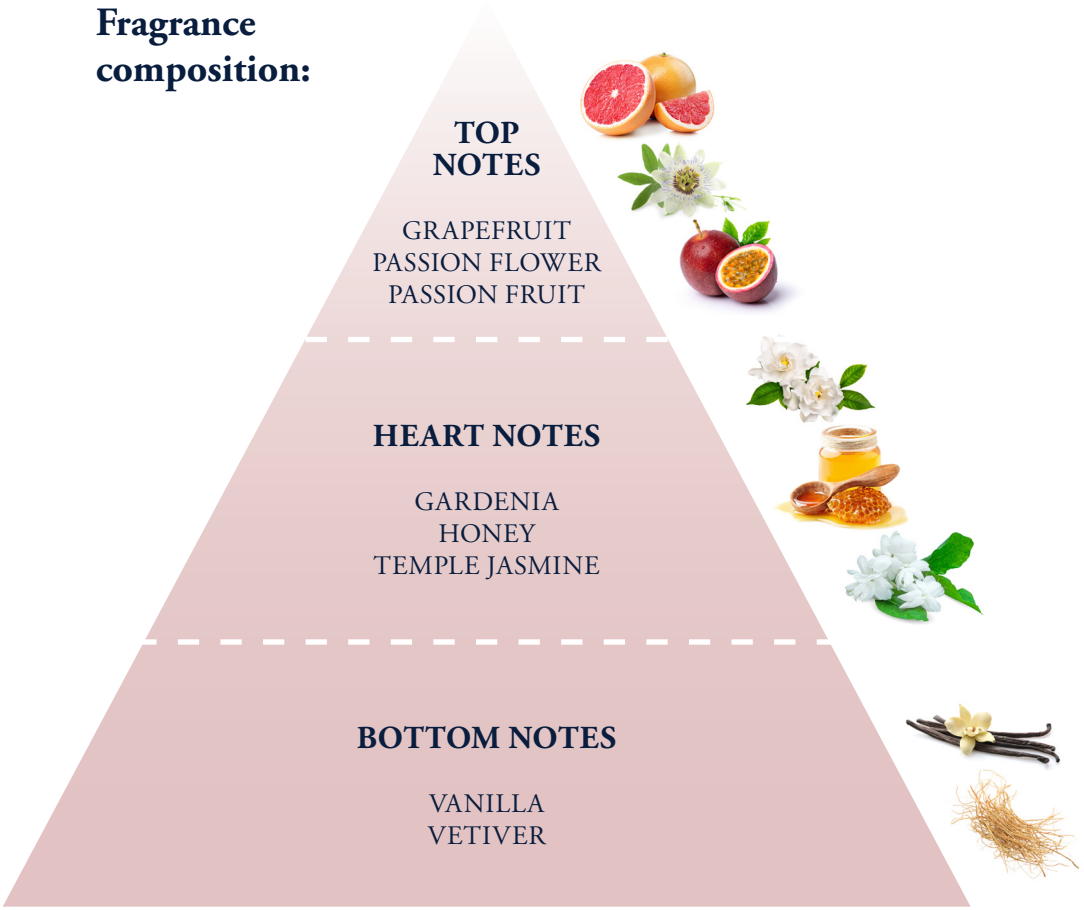
Unique Benefits

- *Water-based Eau de Toilette*
- *Skin friendly – no alcohol*
- *Moisturizing*

Ingredients:

1. Aqua (Water)
2. Parfum (Fragrance)
3. Caprylyl/Capryl Glucoside
4. Laureth-4
5. Butylene Glycol
6. Pentylene Glycol
7. Sodium Cocoyl Glutamate
8. Polyglyceryl-6 Oleate
9. Glyceryl Caprylate
10. Citric Acid
11. Sodium Surfactin
12. Phenoxyethanol
13. Ethylhexylglycerin
14. Sodium Dihydrogen Phosphate
15. Disodium Hydrogen Phosphate

Fragrance composition:



Ouverture unfolds with an intense and sweet tropical note of Passion fruit and flower with just a touch of Citrus. The heart note then evolves with temple Jasmine and Gardenia adding an intoxicating floral scent that is sweet and refreshing with a subtle undertone of Honey. Finally, the fragrance is completed with a soft and warm base note of Vetiver and Vanilla adding persistence and strength to the fragrance.

MOISTURIZING DAY CREME SPF15

- all skin types

Intensive and long lasting moisture day care with SPF15. The unique combination of UV filters efficiently protects against both UVA and UVB radiation. It prevents the sunburns and sun damage that will otherwise age and damage the skin prematurely. Apply generous amounts evenly all over the face and massage gently into the skin. Maintains an elevated high level of moisture that lasts for many hours. Apply at the end of the skin care program to form a water-binding and sun-protective barrier - at the top of the epidermis.

Unique Benefits

- *Intense moisturizing formula that leaves the skin soft and thoroughly moisturised*
- *Protects against both UVA and UVB rays*
- *Boosts the skin's ability to retain moisture*
- *Gives the skin renewed softness by adding Squalane*

Ingredients:

1. Aqua
2. **Coco-Caprylate/Caprate**
3. **Squalane**
4. Propylene Glycol
5. C12-15 Alkyl Benzoate
6. **Glycerin**
7. Stearic Acid
8. Glyceryl Stearate
9. Peg-100 Stearate
10. **Bis-Ethylhexyloxyphenol Methoxyphenyl Triazine**
11. Ethylhexyl Methoxycrylene
12. **Butyl Methoxydibenzoylmethane**
13. **Phenylbenzimidazole Sulfonic Acid**
14. Acrylates/C12-22 Alkyl Methacrylate Copolymer
15. **Saccharide Isomerate**
16. Cetearyl Alcohol
17. Phenoxyethanol
18. Triethanolamine
19. Polyacrylate Crosspolymer-6
20. Ceteth-20 Phosphate
21. Arginine
22. Coco-Glucoside
23. Dicetyl Phosphate
24. Peg-20 Stearate
25. Ethylhexylglycerin
26. Disodium Lauryl Sulfosuccinate
27. Tetrasodium Iminodisuccinate
28. Sodium Citrate
29. Citric Acid

Main Ingredients

2. Coco-Caprylate/Caprate is a naturally derived extra light emollient that absorbs and spreads quickly leaving a soft and powdery after-feel on skin. It creates an invisible and ultra-silky film that provides longterm moisturization.

3. Squalane is an oil naturally occurring in human skin and is an important part of the lipid system. Its penetration capacity is remarkably high. Nanometer droplets of squalane function as effective "transporters" for oil soluble active ingredients. Young and healthy skin contains a high amount of squalane but the level will decrease dramatically with age. Therefore, squalane is absorbed excellently into sun damaged and aged skin. A lack of squalane within the skin can lead to premature aging, very dry skin and a loss of elasticity. Areas of constantly exposed, dry and prematurely aged skin such as on the hands, elbows, heals and knees etc become incredibly soft immediately when squalane is applied in the right formulation and droplet size.

6. Glycerin is one of the very best and most widely used humectants (moisturizers). It penetrates easily into the epidermis and makes the skin soft and subtle. This vegetable glycerine can without problems be applied to very sensitive skin types. It provides lubrication and leaves the skin soft and silky smooth. It is extremely comforting, to very dry skin types.

10. Bis-Ethylhexyloxyphenol Methoxyphenyl Triazine is a liquid chemical sun filter that absorbs UVA and UVB radiation.

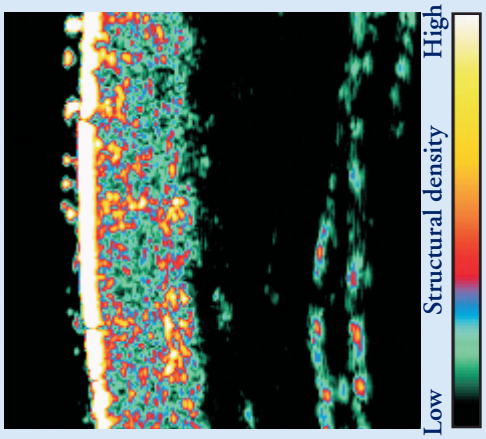
12. Butyl Methoxydibenzoylmethane is a liquid chemical sun filter that absorbs UVA radiation.

13. Phenylbenzimidazole Sulfonic Acid is a liquid chemical Sun Filter that absorbs UVB radiation.

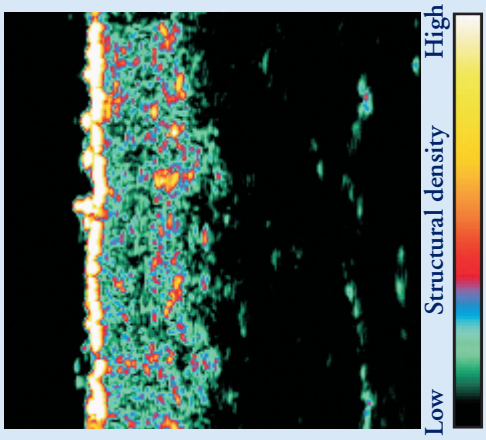
15. Saccharide Isomerate is a 100% naturally derived plant extract that mimics the natural hydration process, boosting the skin's moisture retention capabilities, and protecting the skin against dehydration and sensitivity. It binds deep within the outer layers of skin, meaning hydration continues long after application.

Beauté Pacifique

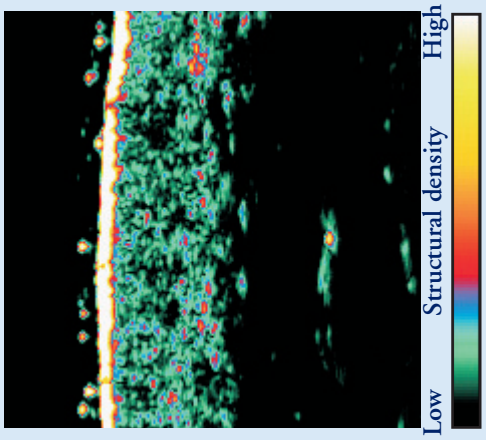
Typical examples of age determined degeneration of the skin's elastic fibre structures. Note that solely chronological degeneration is without accentuated subepidermally layered sun damage.



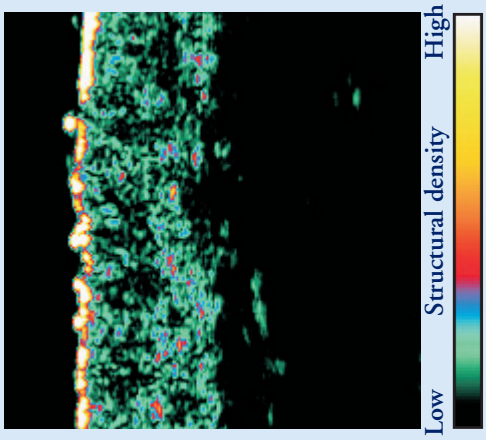
Typical intact fibre structure of a 20 year old female (left temple)



Sligthly aged and degenerated fibre structure of a 30 year old female (left temple)



Moderately aged and degenerated fibre structure of a 40 year old female (left temple)

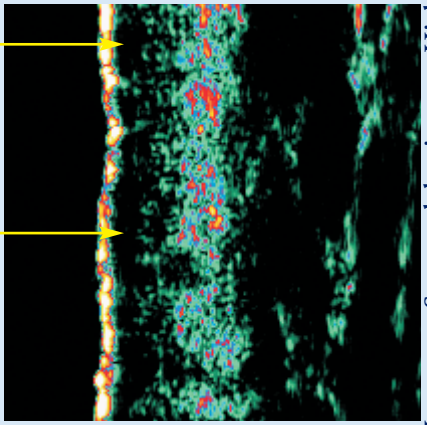


Strongly degenerated fibre structure of a 50 year old female (left temple)

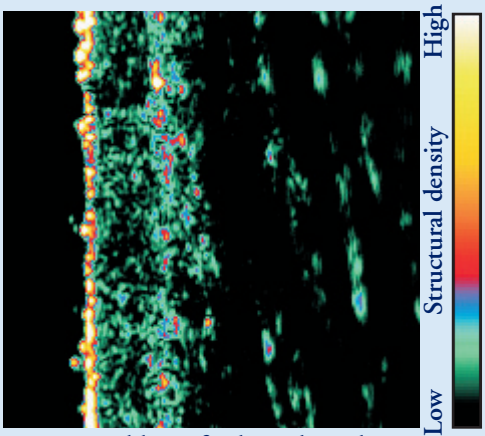
The colours in the cross sections indicate the density of the elastic fibre structure of the skin. Bright colours indicates intact structure. Black colour represents age determined loss of structure.

Beauté Pacifique

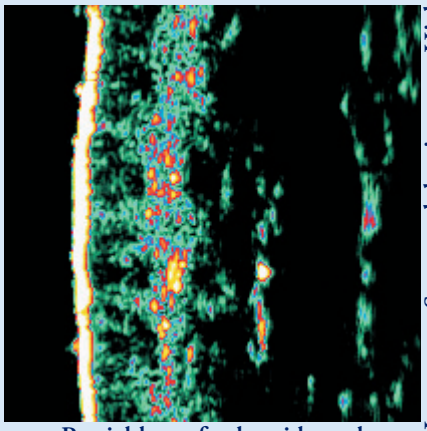
Four typical examples of sun damaged skin. Left temple, females. Note sun damages appears sub-epidermally layered black areas.



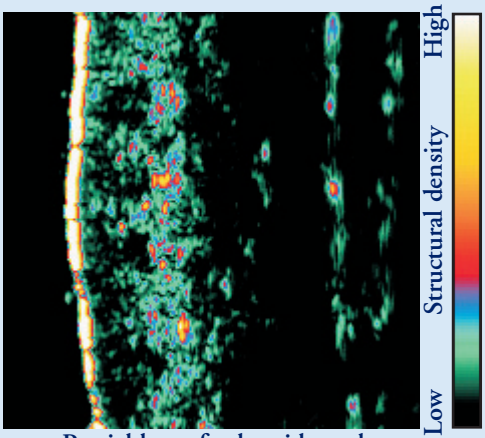
Severe loss of sub-epidermal collagen structure



Partial loss of sub-epidermal collagen structure

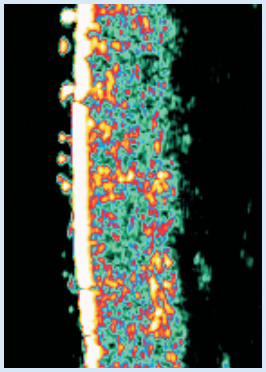


Partial loss of sub-epidermal collagen structure

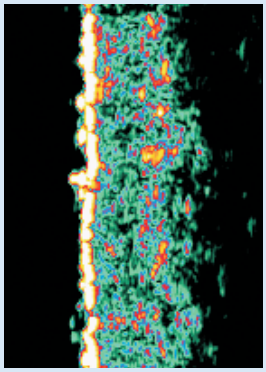


Partial loss of sub-epidermal collagen structure

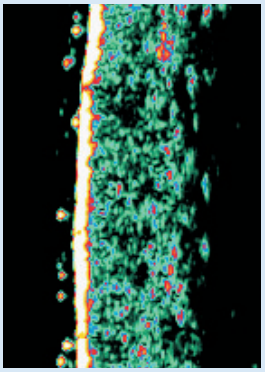
The colours indicate the density of the elastic fibre structures of the skin. Bright colours indicate intact structure. Black colour beneath the surface of the skin represents sun damage i.e. loss of the fibre structures. For comparison: See the four stages of typical solely age determined degeneration below.



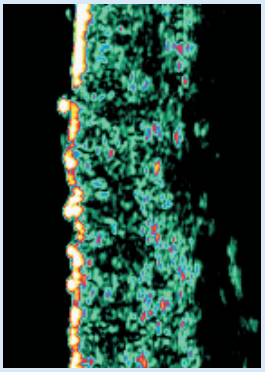
Typical intact fibre stucture of a 20 year old female (left temple)



Sligthly aged and degenerated fibre structure of a 30 year old female (left temple)



Moderately aged and degenerated fibre structure of a 40 year old female (left temple)

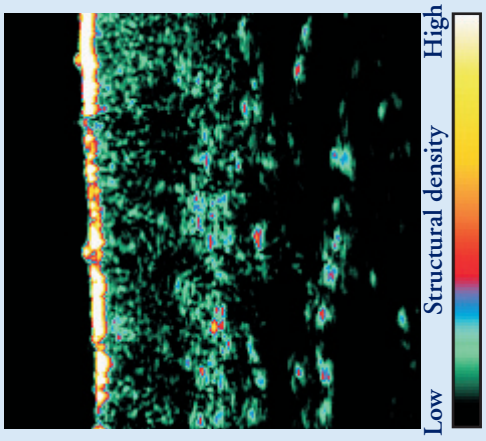


Strongly degenerated fibre structure of a 50 year old female (left temple)

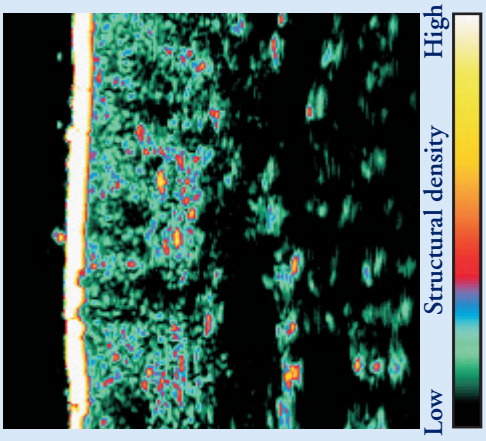
Note the shown chronological degeneration have no sub-epidermally layered sun damages.

Beauté Pacifique

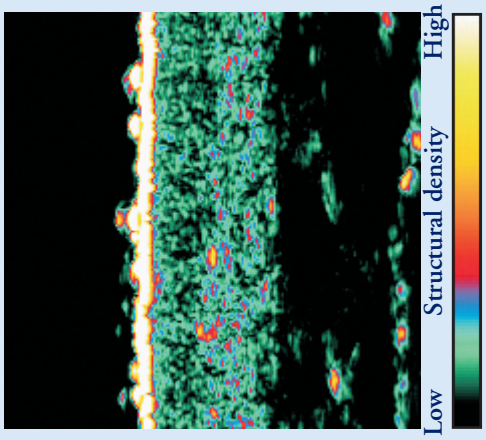
Two examples (left temple, females) of treatment of sun damaged skin with Crème Métamorphique, (vitamin-A ester cream)



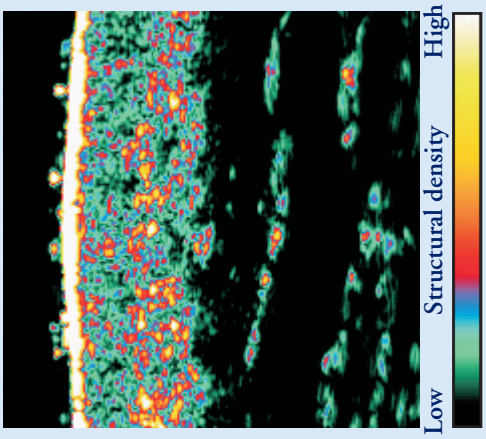
Test person 1: Before treatment



Test person 1: After treatment
(90 days)



Test person 2: Before treatment



Test person 2: After treatment
(90 days)

The colours in the cross section of the skin indicate the density of the skin's elastic fibrestructure. Bright colours indicate intact structure. Black colour beneath the surface of the skin represents sun damage i.e. loss of the elastic fibre structures.
